Bibilock 613003

Bibilock 2340-Piece Lighthouse Building Blocks Set Instruction Manual

Model: 613003

Introduction

This manual provides detailed instructions for assembling and operating your Bibilock 2340-Piece Lighthouse Building Blocks Set. Please read all instructions carefully before beginning assembly to ensure a smooth and enjoyable building experience. This set allows you to construct a detailed lighthouse model with an integrated LED lighting feature.

Safety Information

Warning: Choking Hazard - Small Parts. This building set contains numerous small parts and is not suitable for children under 6 years of age. Adult supervision is recommended during assembly, especially for younger builders.

- Keep all small parts away from infants and young children to prevent accidental ingestion.
- Dispose of packaging materials properly.
- Do not expose the LED light components to water or extreme temperatures.

Package Contents

Before starting assembly, please verify that all components are present in your package:

- Approximately 2340 building block pieces, separated into numbered bags.
- LED lighting module.
- Instruction Manuals (typically two booklets for this model).

If any parts are missing or damaged, please contact customer support for assistance.

Assembly Instructions

The assembly process is divided into sequential steps, guided by the included instruction manuals. Each step is designed to be clear and detailed.

1. **Preparation:** Unpack all numbered bags. It is recommended to open bags sequentially as instructed in the manual to avoid mixing pieces.
2. **Follow Manuals:** Refer to the provided instruction booklets. The illustrations are large and designed for easy understanding.
3. **Base Construction:** Begin by assembling the base of the lighthouse and the surrounding island structure. This forms the foundation for the entire model.
4. **Cabin Assembly:** Construct the detailed fishing store cabin, integrating its interior and exterior elements.
5. **Lighthouse Tower:** Proceed with building the main lighthouse tower section by section. Ensure each block is securely connected.
6. **LED Integration:** During the tower assembly, you will integrate the LED lighting module as indicated in the instructions. Pay close attention to the wiring and placement.
7. **Final Details:** Attach all decorative elements, such as palm trees, fishing gear, and other scenic details, to complete the model.

Operating the LED Light

Your Bibilock Lighthouse model includes an integrated LED lighting system to enhance its display. Follow these steps to operate the light:

1. **Power Source:** Ensure the LED module has batteries installed. If not, locate the battery compartment (usually at the top of the tower) and install the required batteries (type and quantity specified in the instruction manual). Note: There may be a small screw securing the battery housing that needs to be removed.
2. **Activation:** To turn the light on, gently rotate the top section of the lighthouse tower. This action activates the internal switch.
3. **Deactivation:** To turn the light off, rotate the top section of the tower in the opposite direction until the light extinguishes.

Maintenance

To ensure the longevity and appearance of your Bibilock Lighthouse model, follow these simple maintenance guidelines:

- **Cleaning:** Dust the model regularly with a soft, dry cloth or a soft brush. For stubborn dirt, a slightly damp cloth can be used, but avoid excessive moisture, especially near electrical components.
- **Storage:** Store the assembled model in a cool, dry place away from direct sunlight to prevent discoloration or material degradation.
- **Battery Replacement:** If the LED light dims or stops working, replace the batteries in the LED module. Refer to the assembly instructions for the correct battery type and replacement procedure.
- **Handling:** Handle the model with care to prevent pieces from detaching. If pieces do come loose, reattach them firmly.

Troubleshooting

Issue	Possible Cause	Solution
Missing or damaged pieces	Manufacturing error or oversight during packaging.	Contact Bibilock customer support with details of the missing/damaged parts.
Pieces do not fit together securely	Incorrect piece placement or slight manufacturing variation.	Ensure the correct pieces are being used as per the instruction manual. Apply firm, even pressure. If a piece is consistently ill-fitting, contact customer support.

Issue	Possible Cause	Solution
LED light does not turn on	Batteries are dead, incorrectly installed, or the module is not properly connected.	Check battery orientation and charge. Replace batteries if necessary. Ensure the LED module is correctly installed and connected as per assembly instructions. Confirm the top tower section is rotated to the 'ON' position.
Model sections detach easily	Pieces not fully pressed together during assembly.	Carefully re-attach the detached sections, ensuring all connecting blocks are firmly pressed into place.

Specifications

Feature	Detail
Model Number	613003
Number of Pieces	2340 PCS
Product Dimensions (Assembled)	Approximately 11 x 3.15 x 15.7 inches (28 x 8 x 40 cm)
Item Weight	4.53 pounds (2.05 kg)
Recommended Age	6 years and up (Adult supervision recommended for younger builders)
Material	ABS Environmental Protection Materials
Special Features	Integrated LED lighting module with rotational activation.
