Eplus Kit Mini Sblocco velocità E-Bike Fazua 60

Eplus Mini Speed Unlock Kit for E-Bike Fazua 60 User Manual

Model: Kit Mini Sblocco velocità E-Bike Fazua 60

Brand: Eplus

PRODUCT OVERVIEW

The Eplus Mini Speed Unlock Kit is designed to enhance your e-bike's performance by providing continuous pedal assistance up to 50 km/h. This kit is specifically compatible with Fazua 60 motors.

- The speed unlock feature is always active, providing assistance up to 50 km/h.
- Kilometer and speed data displayed on the e-bike's screen will be halved after 10 km/h.
- The Mini kit does not require or have an associated mobile application.

SAFETY INFORMATION

This product comes with a 24-month warranty. It is sensitive to humidity and heat sources. Eplus is responsible for manufacturing defects but not for incorrect installations. Any firmware update, previous modification with other systems, alteration, or damage to the bicycle could lead to the product not functioning, and therefore it cannot be replaced or refunded.

WARNINGS

Eplus guarantees that the product does not have original conformity defects, pursuant to Legislative Decree 206/05. The function is guaranteed up to the latest version of the original motor. Before updating your e-bike's firmware, verify the compatibility specified on the Eplus website or product page to ensure continued functionality of the kit.

SETUP AND INSTALLATION

Installation of the Eplus Mini kit requires careful attention. We recommend a preliminary check of your e-bike and ensuring you have the necessary tools. If you are unsure about the installation process, please consult a qualified technician.

Required Tools:

- Torx wrench
- Allen key
- Crank puller
- Phillips screwdriver

- Long-nose pliers
- Heat gun (for heat-shrink tubing or similar applications)

OPERATING INSTRUCTIONS

Once installed, the Eplus Mini Speed Unlock Kit operates automatically. The speed unlock function is continuously active, providing pedal assistance up to 50 km/h. No user intervention or activation is required after installation.

Please note that for speeds above 10 km/h, the displayed kilometer and speed data on your e-bike's screen will be halved. This is a normal function of the kit and does not indicate a malfunction.

MAINTENANCE

The Eplus Mini Speed Unlock Kit is designed to be maintenance-free. Ensure the connections remain secure and free from moisture or excessive heat. Avoid any physical damage to the module or its wiring. No specific routine maintenance is required for the kit itself.

TROUBLESHOOTING

If the Eplus Mini Speed Unlock Kit is not functioning as expected, consider the following:

- **No Speed Unlock:** Verify that the kit is correctly installed and all connections are secure. Refer to the installation instructions.
- **Incorrect Speed Display:** Remember that kilometer and speed data are halved above 10 km/h. This is normal operation. If the display shows incorrect values below 10 km/h, check connections.
- **Product Malfunction After E-bike Update:** As stated in the warnings, updating your e-bike's firmware without checking compatibility can lead to the kit not functioning. Ensure your e-bike's firmware is compatible with the kit.
- **Physical Damage:** Inspect the kit for any signs of physical damage, moisture ingress, or exposure to excessive heat. Such damage may void the warranty.

For persistent issues, please contact Eplus customer support.

WARRANTY AND SUPPORT

Warranty Information:

The Eplus Mini Speed Unlock Kit comes with a **24-month warranty** from the date of purchase. This warranty covers manufacturing defects. Please retain your proof of purchase for warranty claims.

The warranty does not cover damage due to incorrect installation, exposure to humidity or excessive heat, or any alterations to the product or the e-bike's original system. Any firmware updates to the e-bike that cause incompatibility with the kit are not covered under warranty.

Customer Support:

For further assistance, technical support, or warranty claims, please visit the official Eplus website or contact their customer service directly. Refer to the warranty certificate included with your product for specific contact details or visit www.eplus.bike.
