EU-SOURCING ADP-65SD B

EU-SOURCING 65W USB-C Laptop Charger User Manual

Model: ADP-65SD B

1. PRODUCT OVERVIEW

This manual provides essential information for the safe and efficient use of your EU-SOURCING 65W USB-C Laptop Charger. This high-quality power adapter is designed to provide reliable charging for a wide range of compatible devices, including laptops, tablets, and smartphones that utilize a USB-C port.

Image 1.1: The EU-SOURCING 65W USB-C Laptop Charger, showcasing its compact design and integrated USB-C cable.

The charger features auto-adjustable voltage output, supporting 5V/3A, 9V/3A, 15V/3A, and 20V/3.25A, delivering up to 65W of power. It is an authentic Delta Electronics product, ensuring high quality and performance.

2. SAFETY INFORMATION

Please read and understand all safety instructions before using this product. Failure to follow these instructions may result in electric shock, fire, or damage to the charger or your device.

- Use only the provided power cord and ensure it is fully inserted into the charger and the wall outlet.
- Do not expose the charger to water, moisture, or extreme temperatures.
- Avoid dropping or subjecting the charger to strong impacts.
- Do not attempt to disassemble or modify the charger. Refer all servicing to qualified personnel.
- Always verify the compatibility of the charger with your device's power requirements before connecting. While this charger is auto-adjustable, ensure your device supports USB Power Delivery (PD) via its USB-C port.

ADAPTERS

SAFETY CERTIFICATIONS

- CE:** EU product safety compliance.
- UKCA:** UK product safety compliance.
- UL:** Global safety certification.
- EAC:** Eurasian Customs Union compliance.
- Safety Mark:** Singapore safety compliance.

OTHER REPLACEMENTS

NO CERTIFICATIONS

Image 2.1: This image highlights the safety certifications of genuine Delta Electronics adapters (CE, UKCA, UL, EAC, Safety Mark) compared to uncertified replacements. Always prioritize certified products for safety.

3. SETUP

Follow these steps to set up your EU-SOURCING 65W USB-C Laptop Charger:

1. **Connect the Power Cord:** Take the included power cord and connect its figure-8 end firmly into the AC input port on the charger block.

Image 3.1: The detachable power cord, which connects the charger to the wall outlet.

2. **Plug into Wall Outlet:** Insert the other end of the power cord (the wall plug) into a standard electrical wall

outlet.

3. **Connect to Device:** Plug the USB-C connector from the charger's integrated cable into the USB-C charging port of your laptop, tablet, or smartphone.

Ensure all connections are secure before use.

4. OPERATING INSTRUCTIONS

Once properly connected, the charger will automatically detect your device's power requirements and deliver the appropriate voltage and current (5V/3A, 9V/3A, 15V/3A, or 20V/3.25A) up to 65W. The charger is equipped with a charge indicator to show its operational status.

- **Charging:** When connected to a compatible device and a power source, the charger will begin charging your device. The charge indicator light will illuminate to confirm power delivery.
- **Disconnecting:** To disconnect, first unplug the USB-C connector from your device, then unplug the power cord from the wall outlet.

5. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your charger:

- **Cleaning:** Disconnect the charger from all power sources and devices before cleaning. Use a soft, dry cloth to wipe the surface. Do not use liquid cleaners or aerosols.
- **Storage:** Store the charger in a cool, dry place away from direct sunlight and extreme temperatures. When storing, coil the cables loosely to prevent damage.
- **Handling:** Avoid bending or crimping the cables excessively, especially near the connectors, as this can damage internal wires.

6. TROUBLESHOOTING

If you encounter issues with your charger, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Charger not powering on / No charge indicator light	Loose connection, faulty outlet, damaged charger/cable	Ensure power cord is securely connected to charger and wall outlet. Try a different wall outlet. Inspect charger and cables for visible damage.
Device not charging or charging slowly	Incompatible device, device drawing too much power, faulty device port, cable issue	Verify device compatibility with 65W USB-C PD. Ensure device's USB-C port is clean and undamaged. Try restarting your device.
Charger feels hot during use	Normal operation under load, poor ventilation, excessive load	It is normal for chargers to warm up during use. Ensure adequate ventilation around the charger. If excessively hot, disconnect and allow to cool. Ensure device is compatible and not drawing more than 65W.

If the problem persists after trying these solutions, please contact customer support.

7. SPECIFICATIONS

Detailed technical specifications for the EU-SOURCING 65W USB-C Laptop Charger:

Image 7.1: The underside of the charger, displaying the model number (ADP-65KE B, which is similar to ADP-65SD B, and 60GQ42704BV) and detailed electrical input/output specifications.

Feature	Detail
Model Number	ADP-65SD B
Brand	EU-SOURCING (Delta Electronics)
Input	100-240V ~ 1.7A, 50-60Hz
Output	5.0V/3.0A, 9.0V/3.0A, 12.0V/3.0A, 15.0V/3.0A, 20.0V/3.25A (Auto-adjustable)
Max Power Output	65W
Connector Type	USB-C (Type-C)
Special Features	Charge Indicator, Portable
Compatible Devices	Samsung Galaxy Book Pro 360 (NP950QDB-KB2US, NP950QDB-KA2US), HP Chromebook X360 series (e.g., 11-AE, 14-CA), HP Google Chromebook series (e.g., 11 G1 EE, 14 G5), HP Spectre X360 series (e.g., X2 12-A000), and other laptops, tablets, and smartphones supporting USB-C Power Delivery (18W-65W).

8. WARRANTY AND SUPPORT
