ELEMARA Toyota FJ40 Ride On Car Instruction Manual

Model: WJL008MLN0X

INTRODUCTION

Thank you for choosing the ELEMARA Toyota FJ40 Ride On Car. This manual provides essential information for the safe assembly, operation, and maintenance of your new ride-on toy. Please read this manual thoroughly before use and retain it for future reference.

Important Safety Information

WARNING: CHOKING HAZARD - Small parts. Not suitable for children under 36 months. The product contains small parts; keep children away when assembling.

Always supervise children during operation. Ensure all safety precautions are followed to prevent injury.

PRODUCT OVERVIEW

The ELEMARA Toyota FJ40 Ride On Car is designed for children aged 3-8 years, offering a fun and safe driving experience. It features a 12V 7AH battery, multiple speed options, LED lights, Bluetooth connectivity, and two control modes: independent driving and parental remote control.

Key Features:

- 12V 7AH Battery for extended playtime.
- Low-battery voice prompt for timely charging reminders.
- Adjustable 3-speed options (2.5 mph, 3.1 mph, 4 mph).
- Slow start function for enhanced safety.
- Independent driving mode for child control.
- Parental remote control for added supervision and guidance.
- Integrated LED lights and Bluetooth connectivity.

SETUP AND ASSEMBLY

Before first use, ensure all components are present and undamaged. Assembly is required. Please follow the detailed instructions provided in the included manual for proper and safe assembly.

What's in the Box:

- Ride On Car (main components) x 1
- Remote Control x 1
- Instruction Manual x 1

Image: Illustration of various replaceable parts, including switches, charger, power button, steering column, audio hub, motor, battery, LED strip, control board, and wiring harness.

Ensure all connections are secure and the battery is fully charged before the first ride. Refer to the charging section for details.

OPERATING INSTRUCTIONS

Battery and Charging:

The vehicle is equipped with a 12V 7AH battery. For optimal performance and longevity, charge the battery for 8-12 hours before the first use and after each use. Do not overcharge. A low-battery voice prompt will alert you when charging is needed.

TWO CONTROL MODES

INDEPENDENT CONTROL

With 2 Speeds

PARENT REMOTE CONTROL

With 3 Speeds

Recommend Using the Remote Control Within 25m

Control Modes:

The ELEMARA Toyota FJ40 Ride On Car offers two primary control methods:

1. **Independent Driving:** The child can operate the vehicle using the steering wheel and foot pedal. This mode typically offers two speeds.

2. **Parental Remote Control:** An adult can control the vehicle's movement (forward, reverse, left, right), speed (high/mid/low), and apply the brake using the provided remote control. The remote control is recommended for use within 25 meters.

MAINTENANCE

Regular maintenance ensures the longevity and safe operation of your ride-on car.

Battery Care:

- Always charge the battery fully after each use.
- If the vehicle will not be used for an extended period, charge the battery at least once a month to prevent deep discharge and damage.
- Store the battery in a cool, dry place.
- If the battery appears swollen or does not hold a charge, it may need replacement. Use only approved replacement batteries.

General Care:

- Clean the vehicle with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Keep the vehicle dry and avoid exposure to rain or excessive moisture.
- Regularly check all screws, nuts, and connections to ensure they are tight and secure.
- Inspect wheels and tires for wear and tear.

TROUBLESHOOTING

If you encounter issues with your ELEMARA Toyota FJ40 Ride On Car, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Vehicle does not move or has low power.	Battery is low or not charged.	Charge the battery for 8-12 hours. Ensure charger is properly connected.
Lights flicker but vehicle does not operate.	Loose wiring connection or faulty battery.	Check all wiring connections. If battery is old or swollen, consider replacing it with an approved 12V 7AH battery.
Remote control not working.	Remote batteries are dead or not paired.	Replace remote control batteries. Refer to the main manual for remote pairing instructions.
Vehicle stops suddenly during operation.	Overload protection activated or battery low.	Reduce load (e.g., remove extra weight). Allow vehicle to cool down if motor is hot. Charge battery.

SPECIFICATIONS

Feature	Detail
