NGHTMRE 5304511738 LED Refrigerator Bulb Instruction Manual

Comprehensive guide for installation, operation, and maintenance of your replacement refrigerator light bulb.

PRODUCT OVERVIEW

The NGHTMRE 5304511738 LED Light Bulb is a high-quality replacement part designed to illuminate the interior of your refrigerator or freezer. This bulb offers a wide voltage design, making it suitable for 110V to 240V electrical systems, and operates at 3.5 watts.

It is a direct replacement for part numbers 5304511738, PS12364857, AP6278388, and is compatible with various refrigerator brands including Frigidaire, Kenmore, and Electrolux, provided your light socket matches the E27 base type.

INSTALLATION INSTRUCTIONS

Before beginning the installation, ensure the refrigerator is unplugged from the power outlet to prevent electrical shock. Always handle the new bulb carefully to avoid damage.

1. **Disconnect Power:** Unplug the refrigerator from the wall outlet.
2. **Locate Old Bulb:** Open the refrigerator door and locate the existing light bulb, typically found in the upper section or behind a protective cover.
3. **Remove Protective Cover (if applicable):** Some refrigerators have a plastic cover over the bulb. Gently unclip or unscrew this cover to access the bulb.
4. **Remove Old Bulb:** Carefully unscrew the old bulb counter-clockwise until it is free from the socket.

5. **Install New Bulb:** Screw the new NGHTMRE 5304511738 LED bulb clockwise into the socket until it is finger-tight. Do not overtighten.
6. **Replace Protective Cover (if applicable):** Reattach any protective covers removed in step 3.
7. **Restore Power:** Plug the refrigerator back into the wall outlet.
8. **Test:** Open and close the refrigerator door to confirm the new LED bulb illuminates properly.

OPERATION

The NGHTMRE 5304511738 LED refrigerator bulb operates automatically in conjunction with your refrigerator's door switch. It will illuminate when the refrigerator door is opened and turn off when the door is closed. No manual operation is required for the bulb itself.

MAINTENANCE

This LED bulb is designed for long-lasting performance and requires minimal maintenance. If the bulb becomes dusty, you may gently wipe it with a dry, soft cloth after ensuring the refrigerator is unplugged from the power source.

Do not use liquid cleaners or abrasive materials on the bulb. The LED technology ensures a significantly longer lifespan compared to traditional incandescent bulbs, reducing the need for frequent replacements.

TROUBLESHOOTING

If the LED refrigerator bulb does not illuminate after installation, consider the following troubleshooting steps:

- **Check Power Connection:** Ensure the refrigerator is securely plugged into a working electrical outlet.
- **Verify Bulb Installation:** Confirm the bulb is screwed in tightly and correctly into the socket.
- **Inspect Refrigerator Door Switch:** The light is controlled by the refrigerator door switch. If the switch is faulty, the light may not turn on. Consult your refrigerator's manual for troubleshooting its door switch.
- **Test with Another Bulb (if available):** If you have another compatible bulb, try installing it to determine if the issue is with the bulb or the refrigerator's electrical system.
- **Contact Support:** If the issue persists after these steps, refer to the "Customer Support" section for further assistance.

SPECIFICATIONS

Feature	Detail
Part Number	5304511738
Replaces Part Numbers	PS12364857, AP6278388, KEI D34L
Brand	NGHTMRE
Product Type	LED Refrigerator Bulb
Wattage	3.5 Watts
Working Voltage	110V to 240V (Wide Voltage Design)
Base Type	E27
Shape	Tubular (T)
Unit Count	2.0 Count (typically sold as a pair)
