

MiLi HD-P16

MiLi MiTag Smart Bluetooth Tracker User Manual

Model: HD-P16

Brand: MiLi

INTRODUCTION

The MiLi MiTag is a versatile Bluetooth item finder designed to help you keep track of your personal belongings. Compatible exclusively with Apple iOS devices, it integrates seamlessly with the "Find My" app, allowing you to locate items such as keys, wallets, luggage, and even pets. This manual provides detailed instructions for setting up, operating, and maintaining your MiLi MiTag.

Image: Three MiLi MiTag trackers. These compact, black, circular devices feature the MiLi logo and a small hole for attachment, designed for easy portability and discreet tracking.

SETUP GUIDE

Follow these steps to set up your MiLi MiTag with your iOS device:

1. **Prepare your iOS device:** Ensure your iPhone or iPad is running the latest iOS version and has Bluetooth enabled.
2. **Open the "Find My" app:** This app is pre-installed on all compatible Apple devices.
3. **Add a new item:**
 - In the "Find My" app, navigate to the "Items" tab.
 - Tap the "+" icon (Add Item).
 - Select "Other Supported Item."
4. **Pair the MiTag:** Your iOS device will begin searching for nearby compatible items. Bring your MiLi MiTag close to your device. The pairing process should complete within 30 seconds.
5. **Name your MiTag:** Once detected, you will be prompted to name your MiTag (e.g., "Keys," "Wallet," "Luggage") and assign an emoji.
6. **Confirm setup:** Follow any on-screen prompts to finalize the setup. Your MiTag is now ready for use.

Locating Your Item

The MiLi MiTag leverages the Apple "Find My" network to help you locate your belongings.

- **Within Bluetooth Range (up to 100m / 400ft):**

If your item is nearby, open the "Find My" app, select your MiTag, and tap "Play Sound." The MiTag will emit a loud sound (80-100dB) to help you pinpoint its exact location. You can also use the "Find Nearby" feature for more precise location guidance.

Image: Locating an item when nearby. The MiLi MiTag, attached to a set of keys, is shown emitting "Beep Beep" sounds, while a smartphone displays the "Find My" app interface, indicating the tracker's location on a map and offering options to "Stop Sound" or "Find Nearby."

- **Outside Bluetooth Range:**

If your item is out of Bluetooth range, the "Find My" app will display its last known location on a map. The vast Apple "Find My" network (hundreds of millions of Apple devices) can anonymously and securely detect your MiTag's location and relay it to you, even if it's far away.

Left-Behind Reminder

The MiLi MiTag can notify you if you leave your item behind:

- **Enable Notifications:** To receive left-behind reminders, ensure that notifications are enabled for the "Find My" app on your iOS device.
- **Automatic Alerts:** If your MiTag moves out of Bluetooth range from your iOS device, the "Find My" app will send you a reminder notification within approximately 10 minutes, prompting you to retrieve your item.

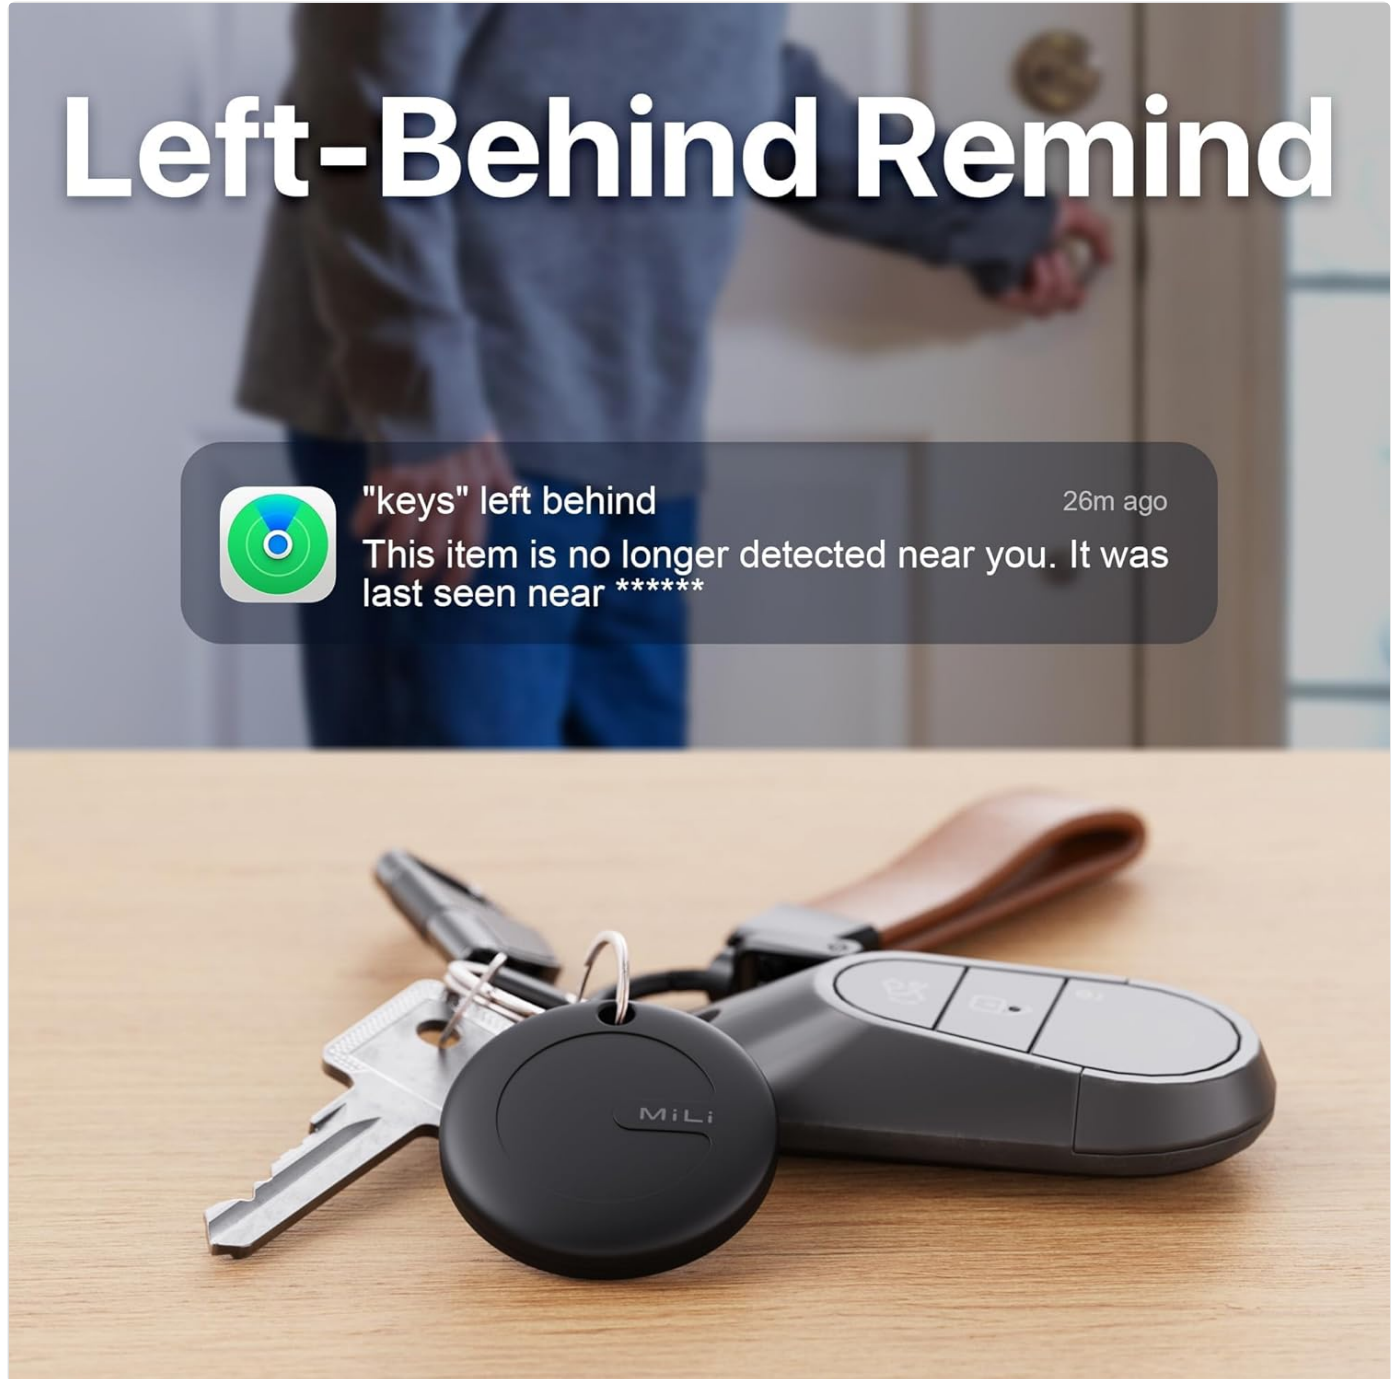

Image: Left-Behind Reminder notification. A smartphone displays a notification from the "Find My" app stating "'keys' left behind. This item is no longer detected near you. It was last seen near *****." This feature helps prevent loss by alerting you when you move away from your tagged items.

MAINTENANCE

Battery Replacement

The MiLi MiTag uses a replaceable CR2032 coin cell battery, which typically lasts up to 12 months. You can check the battery status within the "Find My" app.

To replace the battery:

1. Locate the battery compartment on the MiTag.
2. Use a small tool (e.g., a coin or a flat-head screwdriver) to gently twist open the back cover of the MiTag.
3. Remove the old CR2032 battery.
4. Insert a new CR2032 battery with the positive (+) side facing up.
5. Align the back cover and twist it back into place until it is securely closed.

Note: Dispose of old batteries responsibly according to local regulations.

TROUBLESHOOTING

Problem	Possible Cause	Solution
MiTag not connecting or pairing	Bluetooth is off; MiTag battery is low/dead; MiTag is out of range; Interference.	Ensure Bluetooth is enabled on your iOS device. Check MiTag battery status in the "Find My" app and replace if necessary. Bring MiTag closer to your device. Move away from sources of strong electromagnetic interference.
"Play Sound" feature not working	MiTag is out of Bluetooth range; Battery is low/dead; Speaker obstruction.	Ensure MiTag is within 100m (400ft) of your device. Replace battery if low. Check for any physical obstructions blocking the sound output.
Left-Behind Reminder not received	Notifications for "Find My" app are disabled; MiTag is still within range.	Go to your iOS device settings, then "Notifications," and ensure "Find My" app notifications are enabled. Confirm the MiTag has actually moved out of range.
Inaccurate location tracking	Limited "Find My" network coverage in the area; GPS/location services issues on iOS device.	Location accuracy depends on the density of Apple devices in the vicinity. Ensure location services are enabled for the "Find My" app on your iOS device.

SPECIFICATIONS

Brand	MiLi
Model Number	HD-P16
Connectivity Technology	Bluetooth
Compatible Devices	Smartphone (iOS only)
Special Features	Bluetooth, Water Resistant (IP67)
Battery Type	CR2032 Coin Cell (replaceable)
Battery Life	Up to 12 months
Sound Level	80-100dB

Bluetooth Range	Up to 100m / 400ft
Water Resistance Rating	IP67 (Can withstand immersion in water up to 1 meter for 30 minutes)
Dimensions (Approx.)	38.5mm / 1.51in (Diameter), 9.0mm / 0.35in (Thickness)
Recommended Uses	Keys, luggage, suitcases, handbags, backpacks, wallets, pet collars

Image: MiLi MiTag dimensions and key features. This graphic illustrates the compact size of the tracker (38.5mm diameter, 9.0mm thickness) and highlights its main attributes: a loud sound output for easy finding, extended Bluetooth range, IP67 water resistance, and a user-replaceable battery.

IP67 WATERPROOF

Can withstand immersion in water up to 1 meter for 30 minutes.

Image: MiLi MiTag demonstrating IP67 waterproof rating. The image shows the tracker submerged in water, illustrating its ability to withstand immersion up to 1 meter for 30 minutes, making it durable for various environments.

WARRANTY AND SUPPORT

For warranty information and customer support, please refer to the official MiLi website or contact their customer service directly. Details regarding specific warranty periods and support channels are typically provided with your product packaging or on the manufacturer's official online resources.

Online Resources: For the most up-to-date information, FAQs, and additional support, visit the official MiLi website: www.milicase.com

USAGE SCENARIOS

The MiLi MiTag is designed for a wide range of applications to help you keep track of valuable items:

- **Keys:** Attach to your house keys, car keys, or office keys.
- **Luggage & Bags:** Secure to suitcases, backpacks, handbags, or camera bags for travel or daily commutes.

- **Wallets:** Slip into your wallet or purse.
- **Pets:** Attach to pet collars (ensure secure attachment and comfort for the pet).
- **Other Valuables:** Can be used with earphones cases, small electronic devices, or any item you wish to track.
