

UBeesize TBC001

UBeesize 12" RGB Selfie Ring Light Instruction Manual

Model: TBC001 | Brand: UBeesize

INTRODUCTION

This instruction manual provides detailed guidance for the proper setup, operation, maintenance, and troubleshooting of your UBeesize 12" RGB Selfie Ring Light. Please read this manual thoroughly before using the product to ensure optimal performance and safety. This device is designed to provide versatile lighting solutions for video recording, live streaming, photography, and other content creation needs, compatible with various phones, cameras, and webcams.

Figure 1: UBeeSize 12-inch RGB Selfie Ring Light with 62-inch Tripod Stand, showing the ring light, phone holder, and adjustable tripod.

SAFETY INFORMATION

- Do not expose the ring light to water or excessive moisture.
- Avoid direct eye exposure to the LED light, especially at high brightness settings.
- Ensure the tripod is stable on a flat surface before attaching devices to prevent tipping.
- Do not attempt to disassemble or modify the product. Repairs should only be performed by authorized personnel.

- Keep out of reach of children.
- Use only the provided USB cable for power.
- Unplug the device from the power source when not in use or before cleaning.

PACKAGE CONTENTS

Please verify that all items are present in the package:

- 1 x 12-inch RGB Ring Light
- 1 x 62-inch Adjustable Tripod Stand
- 1 x Universal Phone Holder
- 1 x Bluetooth Remote Shutter
- 1 x USB Power Cable
- 1 x User Manual (this document)

SETUP INSTRUCTIONS

1. Tripod Stand Assembly:

Unfold the tripod legs and extend them to a stable position. Adjust the height by loosening the locking clips on each section of the stand, extending the pole to the desired height (from 18 to 62 inches), and then securely tightening the clips. Ensure all clips are firmly locked to prevent collapse.

Adjustable Height 17"-62"

17"-62"

Figure 2: The tripod stand extended to its maximum height, demonstrating its adjustable feature.

2. Attaching the Ring Light:

Locate the 1/4-inch screw on top of the tripod stand. Align the ring light's mounting hole with this screw and rotate the ring light clockwise until it is securely fastened. Do not overtighten.

Figure 3: Close-up view of the 1/4-inch screw attachment point on the tripod head, illustrating compatibility with various devices.

3. Installing the Phone Holder:

The universal phone holder can be attached to the center of the ring light. Securely screw the phone holder into the designated slot on the ring light. The holder fits screen sizes up to 5 inches and can be rotated 180°.

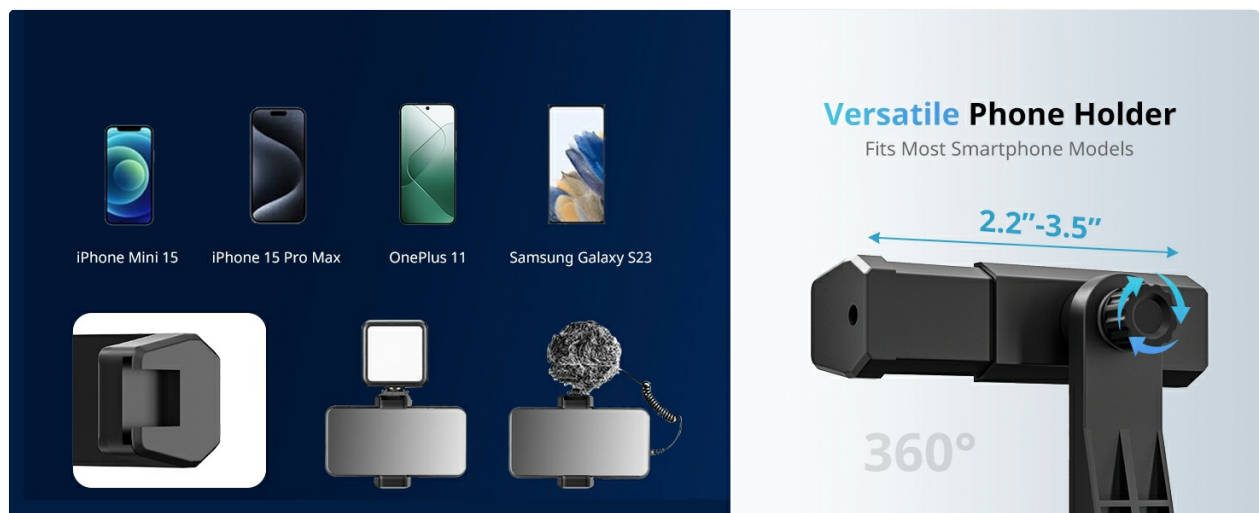

Figure 4: The versatile phone holder, showing its adjustable width (2.2"-3.5") and 360° rotation capability, compatible with various smartphone models.

4. Power Connection:

Connect the USB power cable from the ring light to a standard USB port (e.g., laptop, PC, power bank, USB charger, AC adapter). The ring light is powered by USB.

OPERATING INSTRUCTIONS

Ring Light Control (Touch Pad)

The ring light features an intelligent touchpad for easy control. The touchpad has four buttons:

- **Power On/Off Button:** Press to turn the light on or off.
- **Mode Switch Button:** Cycles through different lighting modes (white light modes and RGB color modes).
- **Brightness Up Button (+):** Increases the brightness level.
- **Brightness Down Button (-):** Decreases the brightness level.

Touch Control

Facilitate Your Daily Operations

Figure 5: Close-up of the ring light's touch control panel, showing the power, mode, and brightness adjustment buttons.

White Light Modes

There are 3 white light modes available, each with 10 adjustable brightness levels:

- **Warm Light:** Provides a soft, warm glow.
- **Cool Light:** Offers a bright, cool white illumination.
- **Natural Light:** A balanced blend of warm and cool light.

Press the Mode Switch button to cycle through these white light modes. Use the '+' and '-' buttons to adjust the

brightness to your preference.

Figure 6: Visual representation of the three white light modes (3000K-6000K) and various RGB color effects.

RGB Color Effect Modes

Beyond the white light modes, the ring light offers 12 playful RGB color effect modes, including:

- **7 Monochromatic Modes:** Red, Yellow, Green, Blue, Sky-blue, Purple, Pink.
- **Dynamic Modes:** Various dynamic effects such as Rainbow Rotation and Flash.

Continue pressing the Mode Switch button to access these RGB modes. These modes are ideal for creating specific moods or enhancing your content for platforms like TikTok.

7 RGB Colorful Lights + Auto Cycle

Figure 7: Display of the 7 monochromatic RGB colors and an auto-cycle feature, demonstrating the vibrant lighting options.

Bluetooth Remote Shutter

The included Bluetooth remote shutter allows for convenient photo and video recording from a distance (up to 30ft/10m).

1. **Pairing:** Turn on the remote shutter. On your phone, go to Bluetooth settings and search for "UBeesize" or a similar device name. Select it to pair.
2. **Usage:** Once paired, open your camera or video recording app. Press the corresponding button on the remote (iOS or Android) to trigger the shutter or start/stop recording.

Adjusting Shooting Angles

The tripod and ring light assembly allow for multiple shooting angles to enhance your content:

- **Landscape Mode:** Standard horizontal orientation.
- **Portrait Mode:** Vertical orientation for phone.
- **Low Angle Shot:** Position the tripod low to the ground.
- **High Angle Shot:** Extend the tripod to its maximum height.
- **360° Panoramic Shooting:** The ring light and phone holder can be rotated 360 degrees horizontally and 180 degrees vertically to capture wide or dynamic shots. Loosen the adjustment knobs on the tripod head and ring light to achieve desired angles, then tighten securely.

Dimmable Ring Light

Adjust to the suitable angle

Capturing Breathtaking Perspectives from Every Angle

Figure 11: Examples of various shooting perspectives, including landscape, portrait, and angled shots, achievable with the adjustable tripod and phone holder.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to wipe down the ring light and tripod. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use, collapse the tripod to its minimum size and store the ring light and accessories in a dry, cool place, away from direct sunlight and extreme temperatures.
- **Cable Care:** Avoid bending or crimping the USB power cable excessively. Always grasp the plug, not the cable, when disconnecting.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Ring light does not turn on.	No power, loose connection, faulty USB port.	<ul style="list-style-type: none">◦ Ensure the USB cable is securely connected to both the ring light and the power source.◦ Try a different USB port or power adapter.◦ Verify the power source is active.
Light flickers or is unstable.	Insufficient power, loose connection, internal issue.	<ul style="list-style-type: none">◦ Use a power adapter with sufficient output (e.g., 5V/2A).◦ Check all cable connections.◦ If the issue persists, contact customer support.

Problem	Possible Cause	Solution
Tripod or ring light feels wobbly.	Loose locking clips, improper assembly, uneven surface.	<ul style="list-style-type: none">◦ Ensure all tripod leg locking clips are fully tightened.◦ Verify the ring light is securely screwed onto the tripod's 1/4-inch screw.◦ Place the tripod on a flat, stable surface.
Bluetooth remote does not pair or function.	Remote battery low, not in pairing mode, Bluetooth interference.	<ul style="list-style-type: none">◦ Ensure the remote is turned on and in pairing mode.◦ Check the remote's battery and replace if necessary.◦ Disable and re-enable Bluetooth on your phone.◦ Move closer to the remote and away from other wireless devices.
