FoMup FM24WS

FoMup 24-Inch 190-Bottle Wine Fridge User Manual

Model: FM24WS

1. Introduction

Thank you for choosing the FoMup 24-inch 190-bottle wine fridge. This appliance is designed to provide optimal storage conditions for your wine collection, ensuring proper temperature and humidity control. Please read this manual thoroughly before installation and use to ensure safe operation and maximum performance.

2. Safety Information

To reduce the risk of fire, electric shock, or injury when using your wine fridge, follow these basic precautions:

- Read all instructions before using the appliance.
- Do not touch cold surfaces with wet hands.
- Never clean appliance parts with flammable fluids. The fumes can create a fire hazard or explosion.
- Do not store or use gasoline or any other flammable vapors and liquids in the vicinity of this or any other appliance.
- Unplug the appliance before cleaning or making any repairs.
- Ensure the appliance is properly grounded.
- Keep ventilation openings clear of obstruction.
- Do not damage the refrigerant circuit.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

3. Product Features

The FoMup wine fridge offers advanced features for superior wine preservation:

- **Smooth Sliding Shelves:** Equipped with sliding tracks for easy access to your wine collection.
- **Large Capacity:** Accommodates up to 190 Bordeaux bottles.
- **Reversible Door:** Allows for flexible placement as a freestanding unit or integrated into cabinetry.
- **Temperature Control:** User-friendly touch control panel to adjust temperature between 40-65°F (4-18°C) with a

memory function.

- **Efficient Cooling System:** Features a wind cooling system and an energy-efficient compressor for optimal temperature stability.
- **Enhanced Protection:** Double-layer tempered glass door insulates against heat and harmful light. An activated carbon filter eliminates odors.
- **Safety Lock:** Integrated lock to secure your wine collection.
- **Blue LED Lighting:** Upgraded blue LED lighting creates an upscale ambiance inside the cooler.

4. Setup

4.1 Unpacking

Carefully remove all packaging materials. Keep the original packaging in case you need to transport the appliance in the future. Ensure all components are present and undamaged. After receiving the machine, please leave it for more than 24 hours before starting the machine to allow refrigerants to settle.

4.2 Placement

This wine fridge can be used as a freestanding unit or built into existing cabinetry. Ensure adequate ventilation around the unit. The reversible door allows for flexible placement to suit your specific needs. If you need to change the door opening direction, please contact customer support for guidance and related accessories.

4.3 Handle Installation

The stainless steel door handle needs to be installed. Follow the instructions in the video below for proper installation.

6. Maintenance

6.1 Cleaning

Regularly clean the interior and exterior of your wine fridge. Use a soft cloth with a mild detergent and water. Avoid abrasive cleaners or solvents that could damage surfaces. Ensure the appliance is unplugged before cleaning.

6.2 Defrosting

This wine fridge features an automatic defrost system, minimizing the need for manual defrosting. If excessive frost builds up, unplug the unit and allow it to defrost naturally, then wipe away any melted water.

6.3 Activated Carbon Filter

The activated carbon filter helps eliminate odors within the wine fridge. Replace the filter periodically (refer to product documentation for recommended intervals) to maintain optimal odor control.

7. Troubleshooting

If you experience issues with your wine fridge, consult the following common troubleshooting steps:

- **Appliance does not operate:** Check if the power cord is properly plugged into an electrical outlet. Ensure the circuit breaker has not tripped.
- **Temperature is not cold enough:** Verify that the temperature setting is correct. Ensure the door is closed properly and not opened too frequently. Check for obstructions around the ventilation grilles.
- **Excessive noise:** Ensure the appliance is level. Check if any objects are vibrating against the unit.
- **Door does not close properly:** Check if shelves are properly inserted. Ensure the appliance is level.

If the problem persists after checking these points, please contact customer support.
