FoMup FM24D-4

FoMup Under Counter Beverage Refrigerator with Dual Drawers

Model: FM24D-4 | Brand: FoMup

1. Introduction

This manual provides essential information for the safe and efficient operation of your FoMup Under Counter Beverage Refrigerator. Please read all instructions carefully before installation and use. Keep this manual for future reference.

2. Safety Instructions

WARNING: To reduce the risk of fire, electric shock, or injury, follow these basic precautions:

- Ensure proper grounding.
- Do not store explosive substances.
- Keep ventilation openings clear.
- Do not use mechanical devices or other means to accelerate the defrosting process.
- Do not damage the refrigerant circuit.
- Only qualified personnel should service the appliance.

3. Product Overview

The FoMup FM24D-4 is a 24-inch under counter beverage refrigerator featuring a dual-drawer design, precise temperature control, and a stainless steel finish. It is suitable for both indoor and outdoor use.

Key Features:

- **Large Capacity:** 4.9 Cubic Feet, holding up to 180 cans.
- **Dual-Drawer Design:** Easy access with strong load-bearing slide rails and automatic closing function.
- **Precise Temperature Control:** Touch panel for setting temperatures between 37-65°F.
- **Movable Grid Organizers:** Customizable storage space.
- **Under Counter Installation:** Designed for built-in or freestanding placement.
- **Durable Construction:** Stainless steel doors with high-density foam insulation.

4. Setup & Installation

4.1 Unpacking

- Remove all packaging materials, including the foam base and adhesive tape.
- Inspect the appliance for any damage. Report any damage to the retailer immediately.
- Keep packaging materials out of reach of children.

4.2 Placement

- Place the refrigerator on a flat, stable surface capable of supporting its weight when fully loaded.

- Ensure adequate ventilation. This model features front ventilation, allowing for built-in installation under a counter.
- Avoid direct sunlight or heat sources.
- Maintain a minimum of 1 inch (2.5 cm) clearance at the back and sides for proper air circulation if freestanding.

Figure 2: Product dimensions for built-in or freestanding installation.

4.3 Leveling

- The appliance is equipped with adjustable feet. Turn the leveling legs clockwise to raise the unit or counter-clockwise to lower it.
- Ensure the refrigerator is level to prevent vibrations and ensure proper door sealing.

Figure 3: Adjustable feet for stability and leveling.

4.4 Electrical Connection

- Plug the appliance into a dedicated, grounded 115V AC outlet.
- Do not use extension cords or adapter plugs.
- Allow the unit to stand upright for at least 2-4 hours before plugging it in to allow refrigerants to settle.

5. Operating Instructions

5.1 Control Panel

The control panel is located at the top of the upper drawer. It features touch controls for power, temperature adjustment, and lighting.

Figure 4: LCD Touch Control Panel with temperature range 37-65°F.

5.2 Setting Temperature

1. Press the **ON/OFF** button to power on the unit.
2. Use the **UP** and **DOWN** arrows to adjust the desired temperature. The range is 37-65°F.
3. The display will show the set temperature and then revert to the actual internal temperature.
4. Press the **Temperature Lock** button to prevent accidental changes.

5.3 Drawer Operation

- The drawers are equipped with smooth slide rails for easy opening and closing.
- They feature an automatic closing function to ensure proper sealing.
- Utilize the movable grid organizers to customize storage for various beverages and food items.

Figure 6: Movable grid organizers for flexible storage.

5.4 Internal Lighting

- Press the **LIGHT** button on the control panel to turn the interior LED lighting on or off.

6. Maintenance

6.1 Cleaning

- Always unplug the appliance before cleaning.
- Clean the interior with a mild detergent and warm water. Avoid abrasive cleaners.
- Wipe down the exterior stainless steel surfaces with a soft cloth and a stainless steel cleaner.
- Regularly clean the front ventilation grille to ensure proper airflow.

6.2 Defrosting

- This unit features a frost-free defrost system, minimizing manual defrosting.

- If excessive frost builds up, manually defrost by unplugging the unit and allowing the frost to melt naturally.

7. Troubleshooting

Problem	Possible Cause	Solution
Unit does not operate	Not plugged in; circuit breaker tripped; temperature set too high.	Check power connection; reset breaker; lower temperature setting.
Temperature is not cold enough	Door not closed properly; excessive door openings; poor ventilation; unit overloaded.	Ensure drawers are fully closed; reduce frequency of openings; check clearances; do not overload.
Excessive noise	Unit not level; loose parts; normal compressor operation.	Adjust leveling feet; check for loose components; some noise is normal.

8. Specifications

- **Model:** FM24D-4
- **Brand:** FoMup
- **Capacity:** 4.9 Cubic Feet
- **Dimensions (HxWxD):** 34.25" x 23.42" x 22.63"
- **Item Weight:** 111.8 pounds
- **Voltage:** 115 Volts (AC)
- **Temperature Range:** 37-65°F
- **Noise Level:** 35 Decibels
- **Defrost System:** Frost Free
- **Installation Type:** Built-In Under Counter/Freestanding
