› Tablo 4th Gen 2-Tuner Over-The-Air (OTA) DVR + 35-Mile Indoor TV Antenna User Manual

Tablo TV TF1282B-AN-01-CN

Tablo 4th Gen 2-Tuner OTA DVR User Manual

Model: TF1282B-AN-01-CN

1. INTRODUCTION

The Tablo 4th Gen 2-Tuner Over-The-Air (OTA) DVR is designed to provide a comprehensive free TV experience. It allows you to watch, pause, and record live television broadcasts from major networks using an antenna, and also offers access to over 100 free streaming channels. With no monthly subscriptions or hidden fees, Tablo delivers flexible viewing options across multiple compatible devices in your home.

2. WHAT'S IN THE BOX

Your Tablo 4th Gen DVR package includes everything you need to get started:

- Tablo 2-Tuner DVR
- 35-Mile Indoor TV Antenna
- 6' Coaxial Cable
- Ethernet Cable
- Power Adapter

3. SETUP & INSTALLATION

Setting up your Tablo DVR is a straightforward process:

1. **Download the Tablo App:** Download the free Tablo app on your mobile device (smartphone or tablet) and create your account. This app will guide you through the setup process.
2. **Connect the TV Antenna:** Connect the included 35-mile indoor TV antenna to the Tablo DVR using the 6' coaxial cable. Position the TV antenna high with a clear line of sight to broadcast towers for optimal reception.

3. **Connect to Your Network:** Connect the Tablo DVR to your home network via Wi-Fi or using the included Ethernet cable. Ensure your Wi-Fi router provides a consistent high-speed internet connection.
4. **Power On and Scan:** Plug in your Tablo device using the power adapter. Follow the on-screen instructions in the Tablo app to scan for available over-the-air channels in your area.

For a detailed installation guide, please refer to the official Installation Manual (PDF) available online.

4. OPERATING INSTRUCTIONS & FEATURES

4.1. Watch, Pause, Record & Replay Live TV

Enjoy live TV from major networks (ABC, CBS, FOX, NBC) and a curated selection of free live streaming TV (FAST) channels. The Tablo DVR allows you to pause live TV, record your favorite shows, and replay them at your convenience. With two ATSC 1.0 tuners, you can record one live TV channel while watching another, or record two channels simultaneously.

**WATCH, RECORD,
AND REPLAY**

**Record 50+ Hours
of Content**

2 ATSC 1.0 Tuners

**With two tuners, you can watch and
record up to two channels at the same time.**

*Recording of some free streaming channels may be disabled due to licensing restrictions.

4.2. Whole-Home Access

One Tablo DVR and the included TV antenna enable you to watch TV on multiple devices simultaneously. Compatible devices include smartphones, tablets, smart TVs, and streaming players from Roku, Amazon Fire

TV, Apple TV, Android TV, Chromecast with Google TV, Samsung TV, and LG TV. Tablo is not compatible with non-smart TVs or personal computers.

4.3. Recording Storage

The Tablo DVR comes with 128GB of onboard recording storage, providing over 50 hours of recording capacity. For extended storage, you can add up to 8TB of external USB storage.

4.4. Expanded Channel Access

In addition to over-the-air channels, Tablo provides access to more than 100 free streaming channels, enhancing your free TV experience. Note that recording of some free streaming channels may be disabled due

to licensing restrictions.

5. SPECIFICATIONS

Feature	Detail
Brand Name	Tablo TV
Item Weight	1.87 pounds
Product Dimensions	5 x 5 x 1.38 inches
Item Model Number	TF1282B-AN-01-CN
Color	White
Compatible Devices	iPhone, Android Phone, Roku TV, Android TV, Amazon Fire TV, Apple TV
Connector Type	Coaxial
Connectivity Technology	Ethernet

6. TROUBLESHOOTING

If you encounter issues with your Tablo DVR, consider the following common troubleshooting steps:

- **No Channels Found / Poor Reception:** Ensure your TV antenna is positioned correctly and has a clear line of sight to broadcast towers. Try adjusting its orientation or relocating it to a higher position or near a window. Rescan for channels in the Tablo app after any adjustments.
- **App Connectivity Issues:** Verify that your Tablo DVR is properly connected to your home network via Wi-Fi or Ethernet. Check your router's status and ensure a stable internet connection. Restarting both your Tablo DVR and your router can often resolve connectivity problems.
- **Recording Problems:** Confirm that you have sufficient storage space on the internal 128GB drive or any connected external USB storage. Check for any licensing restrictions on streaming channels that might prevent recording.
- **App Performance:** If the Tablo app is slow or unresponsive, ensure your smart TV or streaming device has sufficient memory and processing power. Older devices may experience performance limitations. Try restarting the app or the device.
- **No Audio or Video:** Check all cable connections (coaxial, Ethernet, power). Ensure your TV's audio settings are correctly configured.

7. WARRANTY & SUPPORT

The Tablo 4th Gen DVR is designed for a subscription-free experience, meaning you pay once for the device and antenna without ongoing fees or contracts.
