## Setup and Assembly

---

Your Tajsoon Laundry Cart is designed for easy assembly. All necessary parts and tools are included. Follow these steps for a smooth setup:

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify that all components listed in the parts diagram are present and undamaged.

## Operating Instructions

The Tajsoon Laundry Cart is designed for versatile use in your home. Here's how to maximize its functionality:

- **Using the Hanging Rack:** The top bar is ideal for hanging wet clothes to air dry, freshly ironed garments, or clothes that need to be put away. The rack features anti-slip beads to prevent hangers from sliding off.

- **Using the Bottom Shelf:** The lower shelf provides additional storage space for laundry essentials like detergent, fabric softener, or folded items.
- **Mobility and Locking Wheels:** The four smooth-rolling wheels allow you to easily move the cart between rooms. Two of the wheels are equipped with locks. Press down on the lever to engage the lock and keep the cart stationary. Lift the lever to unlock and move the cart.

## Maintenance

---

To ensure your Tajsoon Laundry Cart remains in optimal condition, follow these simple maintenance guidelines:

- **Cleaning:** Wipe down the metal frame and basket with a soft, damp cloth. For stubborn dirt, a mild soap solution can be used, followed by drying with a clean cloth. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Wheel Care:** Periodically check the wheels for any lint, hair, or debris that may hinder smooth movement. Clean as necessary.
- **Fastener Check:** Occasionally inspect all screws and connections to ensure they remain tight. Tighten any loose fasteners to maintain stability.
- **Weight Capacity:** Do not exceed the recommended weight capacity of 66 pounds to prevent damage to the cart.

## Troubleshooting

---

If you encounter any issues with your laundry cart, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Cart is unstable or wobbly.	Loose fasteners or uneven assembly.	Check all screws and connections; tighten as needed. Ensure the cart is assembled on a flat surface.
Wheels do not roll smoothly.	Debris in wheels or engaged wheel locks.	Clear any debris from the wheels. Ensure wheel locks are disengaged.
Hangers slide off the rack.	Excessive weight or improper hanger type.	Ensure weight is within capacity. Use hangers with good grip or consider non-slip hangers. The rack has anti-slip beads to help.

## Specifications
