# Explore Warriors Portable Air Compressor with Jump Starter (Model B0CBWMQMZZ) User Manual

Your comprehensive guide to safe and effective operation.

## 1. INTRODUCTION

Thank you for choosing the Explore Warriors Portable Air Compressor with Jump Starter. This multifunctional device combines a tire inflator, a 12V battery jump starter, a power bank, and an emergency light into one compact unit. This manual provides essential information for the safe and efficient use of your device. Please read it thoroughly before operation and retain it for future reference.

## 2. IMPORTANT SAFETY INSTRUCTIONS

Always observe the following safety precautions to prevent injury or damage to the device.

- **Do not disassemble the product.** Maintenance must be carried out by qualified personnel only.
- **Charging time:** Ensure the device is fully charged before first use.
- **Inflation:** After 10 minutes of continuous inflation, allow the device to rest for 15 minutes before inflating again to prevent overheating.
- **Temperature Warning:** If the inflator pump temperature is too high, exercise caution when handling the device.
- Keep out of reach of children.
- Do not expose the device to rain or extreme temperatures.
- Ensure proper ventilation during use, especially when inflating or jump-starting.

### 3. PRODUCT OVERVIEW

The Explore Warriors multifunctional device is designed for convenience and reliability. Familiarize yourself with its components and features.

#### 3.1 Components

Image: A diagram illustrating all components included with the product, such as the main unit, manual, carrying case, jump starter clamps, inflation hose, charging cable, and various nozzle adapters.

- **Host Unit:** The main device housing the air compressor, jump starter, power bank, and emergency light.
- **Nylon Packaging Box:** For convenient storage and transport.
- **Manual:** This instruction guide.
- **Smart Start Power Clip:** Reinforced clamps for jump-starting vehicles.
- **Inflatable Tube:** Connects the device to tire valves for inflation.
- **Charging Cable:** For recharging the device.
- **Inflatable Mouth Conversion Joint:** Various nozzles for different inflation needs (e.g., balls, bicycles).

#### 3.2 Device Features and Ports

Image: A detailed view of the device, highlighting its dimensions (Length 195mm, Width 100mm, Thickness 48.8mm) and labeling key ports such as DC 5V Output, DC 5V Input, On/Off switch, Emergency light, 12V Power Supply, and the Air Pump port.

- **Digital Display:** Shows current pressure, preset pressure, and battery level.
- **Control Buttons:** For setting pressure, changing units, and operating functions.
- **DC 5V Output:** USB port for charging external devices (Power Bank function).
- **DC 5V Input:** Port for charging the device itself.
- **On/Off Switch:** Main power control.
- **Emergency Light:** Integrated LED light with multiple modes.
- **12V Power Supply Port:** For connecting the smart start power clips.
- **Air Pump Port:** For connecting the inflatable tube.

## 4. SETUP

Before using your device for the first time, ensure it is fully charged.

1. **Charge the Device:** Connect the provided charging cable to the DC 5V Input port on the device and to a suitable USB power adapter (not included). The digital display will indicate charging status. Charge until the battery indicator shows full.
2. **Familiarize Yourself:** Review the location of all ports, buttons, and the digital display as outlined in the Product Overview section.
3. **Prepare Accessories:** Ensure all necessary accessories (inflatable tube, nozzles, smart start power clips) are readily accessible.

## 5. OPERATING INSTRUCTIONS

### 5.1 Air Compressor (Tire Inflator)

This function allows you to inflate tires and other inflatable items with a preset pressure.

Image: The portable air compressor connected to a car tire valve, actively inflating. The digital display clearly shows both the preset target pressure and the current real-time air pressure.

1. **Connect the Tube:** Screw the inflatable tube securely onto the air pump port of the device.

2. **Attach Nozzle:** If inflating items other than standard car tires, attach the appropriate inflatable mouth conversion joint to the end of the tube.
3. **Connect to Item:** Securely attach the other end of the inflatable tube to the valve stem of the item you wish to inflate.
4. **Power On:** Turn on the device using the On/Off switch. The digital display will show the current pressure.
5. **Set Pressure:** Use the '+' and '-' buttons to set your desired target pressure. The 'M' button can be used to cycle through pressure units (Psi, Bar, Kpa, Kgf).
6. **Start Inflation:** Press the power button (often the same as the 'M' button or a dedicated start button) to begin inflation. The device will automatically stop once the preset pressure is reached.
7. **Disconnect:** Carefully disconnect the tube from the valve stem and the device.

## 5.2 Jump Starter

Use this function to jump-start 12V vehicles with a dead battery.

Image: The portable jump starter unit positioned near a car engine, with its smart start power clips securely connected to the vehicle's battery terminals, ready to provide a boost.

1. **Ensure Device is Charged:** The jump starter must have sufficient charge to operate effectively.

2. **Connect Smart Clips:** Plug the smart start power clips into the 12V Power Supply Port on the device.
3. **Connect to Battery:** Attach the **red (+) clamp** to the positive terminal of the vehicle's battery and the **black (-) clamp** to the negative terminal. Ensure a secure connection.
4. **Start Vehicle:** Once connected, attempt to start your vehicle. If it doesn't start immediately, wait a few minutes and try again. Do not crank for more than 3 seconds at a time.
5. **Disconnect:** Once the vehicle starts, immediately disconnect the smart clips from the vehicle battery (black first, then red) and then from the jump starter device.

### 5.3 Power Bank

The built-in 8000mAh battery can charge your digital devices.

1. **Connect Device:** Use a USB charging cable (not included) to connect your mobile phone or other digital device to the DC 5V Output port on the Explore Warriors unit.
2. **Start Charging:** The device should automatically begin charging your connected device. Monitor the charging status on your digital device.

### 5.4 Emergency Light

The integrated LED light provides illumination for various situations.

1. **Activate Light:** Locate the dedicated button for the emergency light (refer to Product Overview for location). Press it to turn on the light.
2. **Change Modes:** Press the button repeatedly to cycle through different lighting modes (e.g., steady on, SOS flashing).
3. **Turn Off:** Continue pressing the button until the light turns off, or hold the button down for a few seconds.

## 6. MAINTENANCE

Proper maintenance ensures the longevity and performance of your device.

- **Cleaning:** Wipe the device with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the device in a cool, dry place, away from direct sunlight and extreme temperatures. Use the provided nylon packaging box for protection.
- **Battery Care:** For optimal battery life, recharge the device every 3-6 months, even if not in use, to prevent deep discharge.
- **Accessory Inspection:** Regularly check the inflatable tube, nozzles, and smart start power clips for any signs of wear or damage. Replace if necessary.

## 7. TROUBLESHOOTING

If you encounter issues, refer to the following common problems and solutions.

- **Device not turning on:** Ensure the device is charged. If not, connect it to a charger.
- **Air compressor not inflating:** Check if the inflatable tube is securely connected to both the device and the item. Ensure the preset pressure is higher than the current pressure.
- **Jump starter not working:** Ensure the device is fully charged. Check that the smart clips are correctly and securely connected to the vehicle battery terminals (red to positive, black to negative).

- **Overheating during inflation:** The device has built-in protection. Allow it to cool down for 15 minutes after 10 minutes of continuous use.
- **Digital display not working:** Try restarting the device. If the issue persists, ensure the battery is charged.

If problems persist after attempting these solutions, please contact customer support.

## 8. SPECIFICATIONS

Feature	Specification
Brand	Explore Warriors
Model	B0CBWMQMZZ
Color	Blue
Material	Plastic
Item Weight	830 Grams
Product Dimensions (L x W x H)	3.93" x 1.92" x 7.67"
Jump Starter Peak Current	600A
Power Bank Capacity	8000mAh
Emergency Light Duration	Up to 48 hours (continuous lighting)

## 9. WARRANTY AND SUPPORT

This product comes with a standard manufacturer's warranty. For specific warranty details, please refer to the documentation included with your purchase or contact the seller directly. For technical support, troubleshooting assistance, or to inquire about replacement parts, please reach out to Explore Warriors customer service through your purchase platform or the contact information provided with the product packaging.
