FoMup FM24WS

FoMup 173-Bottle 24-Inch Wine Cooler Refrigerator Instruction Manual

Model: FM24WS

1. Important Safety Information

Please read all instructions carefully before using this appliance to reduce the risk of fire, electric shock, or injury.

- Always unplug the appliance from the power outlet before cleaning or performing any maintenance.
- Ensure the appliance is properly grounded. Improper grounding can result in electric shock.
- Do not operate the appliance if the power cord is damaged. Contact qualified service personnel for repair.
- Keep ventilation openings clear of obstruction.
- Do not allow children to climb, stand, or hang on the shelves or doors of the appliance.
- This appliance is equipped with a safety lock to prevent unauthorized access, especially by children. Always use the lock when the appliance is unattended.
- After receiving the machine, allow it to stand upright for more than 24 hours before plugging it in and starting operation. This allows refrigerants to settle.

2. Product Overview

The FoMup 173-Bottle Wine Cooler Refrigerator is designed to provide optimal storage conditions for your wine collection. Featuring advanced cooling technology and user-friendly controls, it ensures your wines are perfectly preserved.

Key Features:

- **Large Capacity:** Stores up to 173 standard Bordeaux wine bottles (750 ml), with upgraded top and bottom tiers for larger bottles and scratch prevention.
- **Smart Digital Touch Temperature Control:** Maintain optimal temperatures between 40-65°F (4-18°C) with a memory function that restores settings after a power failure.
- **Powerful Cooling System:** Equipped with an energy-efficient, ultra-quiet compressor and two internal fans for even cool air distribution.
- **Upgraded Design:** Features an upgraded door handle for enhanced safety and 14 smooth-gliding sliding rail shelves for easy access.
- **Reversible Door:** The door can be reversed to open from either the left or right, adapting to your space.

- **Soft Blue LED Lighting:** Interior blue LED lighting enhances visibility without generating excessive heat.

Product Specifications:

3. Setup and Installation

3.1 Unpacking

Carefully remove all packaging materials. Inspect the appliance for any shipping damage. Keep packaging materials until you are satisfied with the product's condition.

3.2 Placement

This wine cooler is designed for both built-in and freestanding installation. Ensure adequate ventilation around the unit, especially at the front and rear. Avoid placing the appliance in direct sunlight or near heat sources.

Figure 3.1: Built-in and Freestanding Installation Options.

3.3 Leveling

The appliance must be level for proper operation. Adjust the adjustable bottom feet to ensure the unit is stable and level on the floor.

3.4 Door Handle Installation

Attach the door handle using the provided hardware. Refer to the video below for detailed instructions.

Your browser does not support the video tag.

Video 3.1: Instructions on how to install the door handle on the wine cooler.

3.5 Door Reversal

The door is reversible to accommodate different layouts. If you need to change the opening direction, please follow the instructions in the video below.

Video 3.2: Instructions on how to reverse the door opening direction.

3.6 Initial Power-On

After installation, wait at least 24 hours before plugging the unit into a power outlet. This allows the compressor oils to settle. Once plugged in, the unit will begin cooling to the default temperature settings.

4. Operating Instructions

4.1 Control Panel

The wine cooler features an intelligent LCD touch control panel located at the top of the interior. This panel allows you to adjust temperature, control lighting, and power the unit on or off.

Figure 4.1: Intelligent LCD Touch Control Panel.

4.2 Temperature Settings

The temperature can be set between 40°F and 65°F (4°C and 18°C). Use the UP and DOWN arrows on the control panel to adjust the desired temperature. The unit has a memory function that will retain your last set temperature in case of a power interruption.

4.3 LED Lighting

The interior is illuminated with soft blue LED lights. These lights can be turned on or off using the light control button on the panel. The low heat emission of the LEDs minimizes impact on wine temperature.

4.4 Sliding Rail Shelves

The wine cooler is equipped with 14 sliding rail shelves made of wood and wire. These shelves allow for easy access to your

wine collection. They are also removable to accommodate larger bottles or different storage configurations.

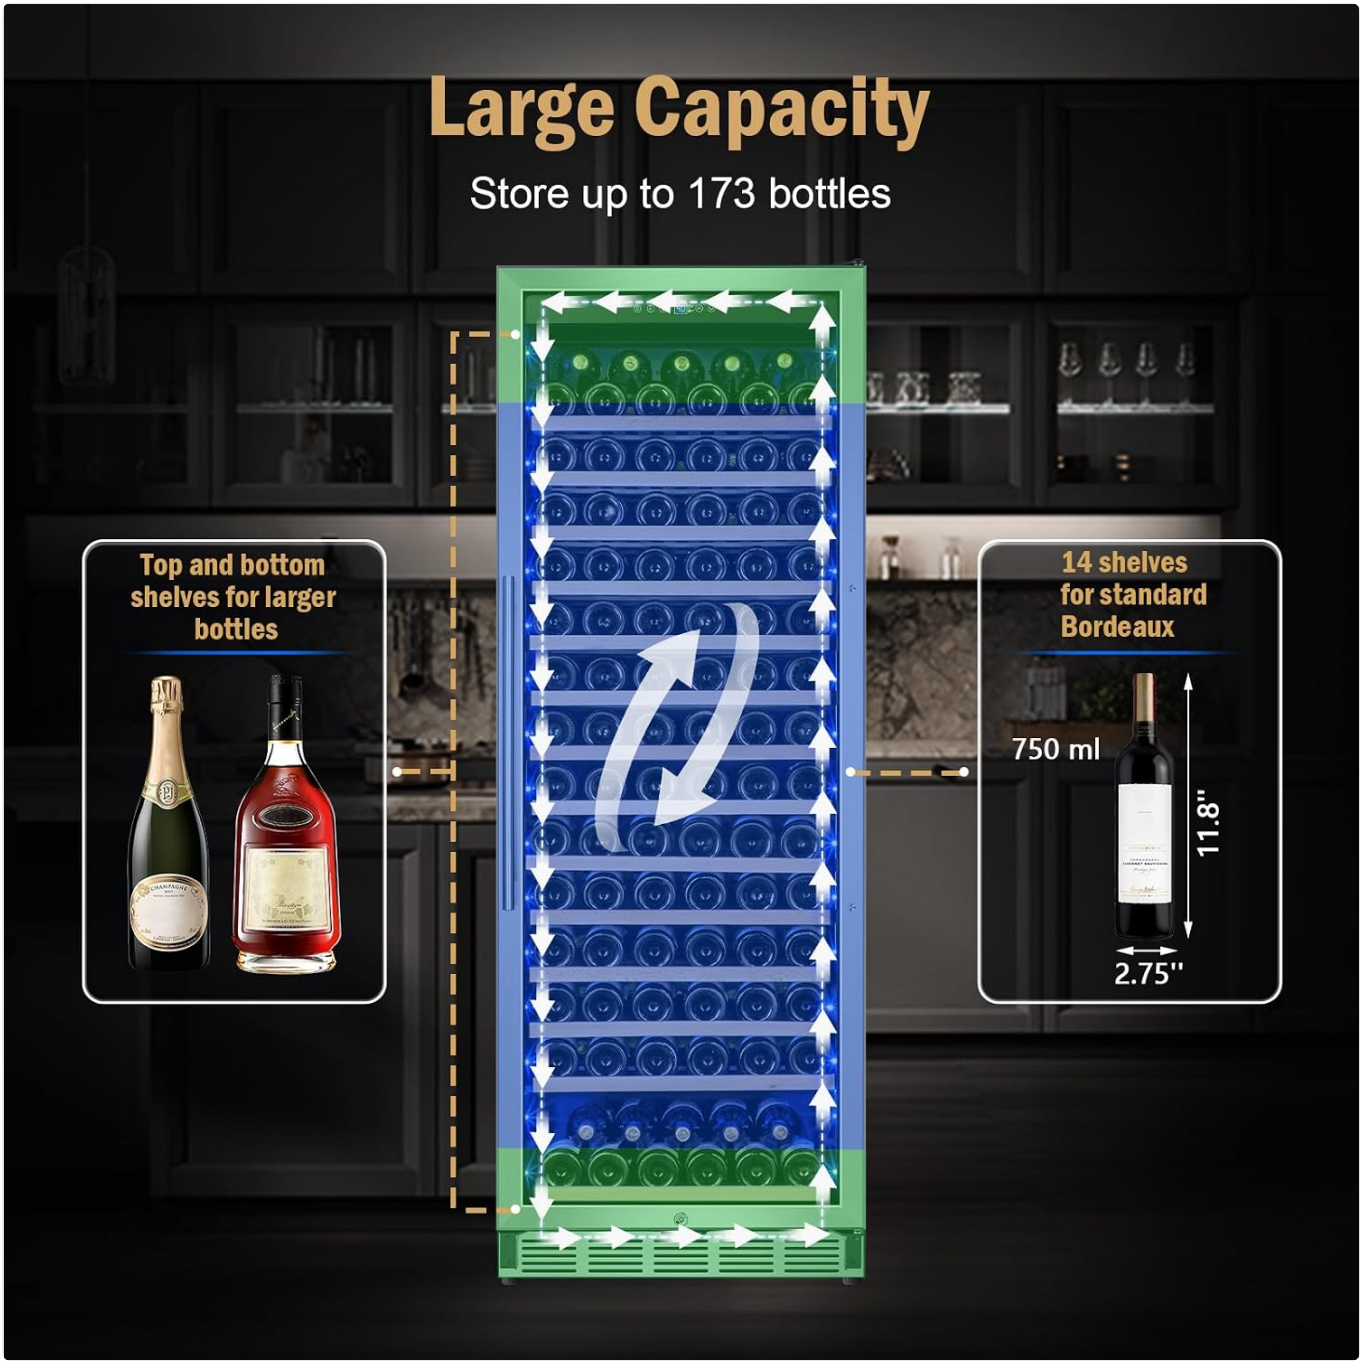

Figure 4.3: Large Capacity and Shelf Configuration.

4.5 Cooling System

The advanced compressor and dual fan system ensure rapid cooling and consistent temperature throughout the cabinet, maintaining optimal conditions for your wine.

Figure 4.4: Advanced Compressor Cooling & Circulation Technology.

4.6 Double-Layer Tempered Glass Door

The door features double-layer tempered glass, which effectively blocks harmful UV rays and helps maintain internal humidity, protecting your wine collection.

5. Maintenance and Care

5.1 Cleaning

- Always unplug the appliance before cleaning.
- Clean the interior with a soft cloth and a mild, non-abrasive detergent.
- Wipe down the exterior with a soft cloth and a stainless steel cleaner (if applicable) or mild soap and water.
- Do not use harsh chemicals or abrasive cleaners as they may damage the surfaces.

5.2 Activated Carbon Filter

The wine cooler includes an activated carbon filter for deodorization, helping to maintain a fresh environment for your wines.

Replace the filter periodically as recommended in the full user manual (not provided here).

5.3 Defrosting

This appliance features a frost-free defrost system, minimizing ice buildup and reducing the need for manual defrosting.

5.4 Power Outage

In the event of a power outage, the unit's memory function will automatically reset the temperature to your preset value once power is restored.

6. Troubleshooting

If you experience issues with your wine cooler, please consult the following common troubleshooting tips. For more complex problems, contact customer support.

Problem	Possible Cause	Solution
Appliance does not operate	Not plugged in; circuit breaker tripped; temperature set too high.	Check power connection; reset circuit breaker; lower temperature setting.
Temperature is not cold enough	Door not closed properly; excessive door openings; warm items added; poor ventilation.	Ensure door is sealed; minimize door openings; allow warm items to cool before storing; ensure proper airflow.
Excessive vibration	Appliance not level.	Adjust leveling feet.
Noise from appliance	Normal compressor operation; fan noise.	This is normal. Ensure unit is level and not touching walls.

7. Warranty and Support

FoMup provides 12 months of technical support for this wine fridge. If you have any questions or require assistance, please contact our professional after-sales service staff.
For warranty claims or technical assistance, please refer to the contact information provided with your purchase documentation or visit the official FoMup website.
