## 1. SAFETY INFORMATION

This NOVAMAISON Narrow Shoe Storage Cabinet includes anti-tipping devices for secure mounting to the wall. It is highly recommended to mount the cabinet to prevent tipping, especially if children or pets are present. Always ensure the cabinet is securely fastened to a stable wall surface.

The cabinet can hold up to 10 pairs of shoes (when stacked up and down) or 2 pairs of adult shoes and 1 pair of children's shoes per rack when placed normally. Exceeding the weight capacity may cause damage or injury. Always ensure the cabinet is securely fastened and never exceed the recommended weight limit of 30 pounds.

**WARNING:** This entryway shoe cabinet does not fit men's shoes size 10 or larger. Attempting to force larger shoes may damage the cabinet or the shoes.

## 2. PACKAGE CONTENTS

Please verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact customer service.

- Cabinet Panels (Engineered Wood)
- 3 Flip Drawers with Mechanisms
- Hardware Pack (screws, dowels, anti-tipping kit)
- Instruction Manual x 1

## 3. ASSEMBLY INSTRUCTIONS

This shoe cabinet is designed for easy assembly. All parts are labeled, and clear instructions are provided. We recommend assembling the unit on a soft, clean surface to prevent scratches.

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out and compare them against the parts list in the included instruction manual.
2. **Assemble the Main Frame:** Attach the side panels to the top and bottom panels using the provided hardware. Ensure all connections are secure.
3. **Install Flip Drawer Mechanisms:** Secure the flip drawer mechanisms to the interior of the cabinet frame according to the manual.
4. **Assemble and Insert Drawers:** Assemble each of the three flip drawers. Once assembled, carefully insert them into their respective mechanisms within the cabinet.
5. **Attach Handles:** Secure the golden metal handles to the front of each flip drawer.
6. **Install Anti-Tipping Device:** For safety, attach the anti-tipping device to the top rear of the cabinet and secure it to a wall stud using appropriate wall anchors (included).

**Image 1:** Product dimensions showing the cabinet is 7"D x 23"W x 41"H. This image illustrates the compact size of the shoe cabinet, ideal for narrow spaces.

# Space-Saving Flip Drawers

**Image 2:** Side view of the cabinet demonstrating its ultra-thin thickness (6.7") when closed and how the drawers open without taking up excessive space.

## 4. OPERATING INSTRUCTIONS

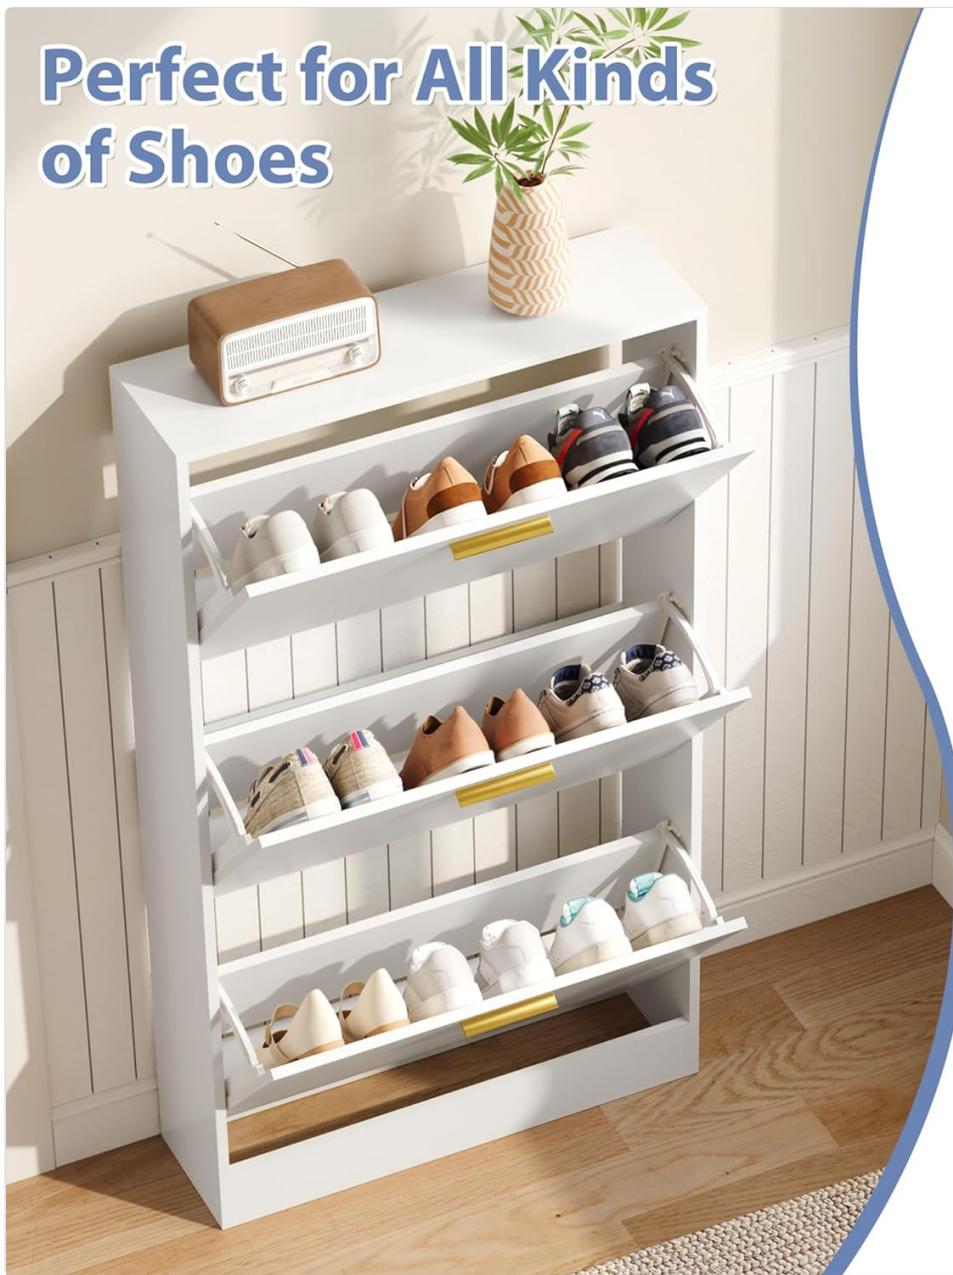

The NOVAMAISON shoe cabinet is designed for convenient and space-saving shoe storage.

- **Opening Drawers:** Gently pull the golden metal handle on each flip drawer to open it. The drawer will tilt forward, revealing the shoe compartments.
- **Storing Shoes:** Place shoes into the compartments. Each compartment can typically hold 2 pairs of adult shoes or 1 pair of children's shoes when placed normally. Shoes can be stacked to maximize space, accommodating up to 10 pairs in total across the three drawers.
- **Closing Drawers:** Push the drawer back into the cabinet until it clicks securely into place.
- **Top Storage Space:** The top surface of the cabinet provides a convenient shelf for keys, wallets, decorative items, or small plants.

**Image 3:** The shoe cabinet positioned in an entryway, showcasing its three flip drawers open with various shoes stored inside, demonstrating its storage capability.

# Perfect for All Kinds of Shoes

leather shoes

high heels

sneakers

slippers

loafers

boots

**Video 2:** A short seller-provided video showcasing the shoe cabinet's display and how shoes are stored within its flip drawers.

## 5. MAINTENANCE

- **Cleaning:** The wood shoe cabinet is made of high-quality, waterproof engineered wood. Wipe surfaces with a damp cloth and mild cleaner. Avoid abrasive cleaners.
- **Odor Control:** The back of this cabinet is open, which helps shoes dissipate odors quickly. For persistent odors, consider using shoe deodorizers.
- **Hardware Check:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.

## 6. TROUBLESHOOTING

- **Shoes Not Fitting:** This cabinet is designed for a narrow profile. Men's shoes size 10 or larger may not fit comfortably. For larger shoes, try placing them sideways or consider removing one of the internal dividers if applicable (refer to assembly manual for details on removable panels).
- **Cabinet Instability:** Ensure the anti-tipping device is properly installed and secured to a wall stud. If the cabinet feels wobbly, check all assembly connections.
- **Drawers Sticking:** Ensure no shoes or debris are obstructing the drawer mechanism. Check that the drawer is correctly aligned within its tracks.
