## Selgo ZU62 Hose

# Selgo Replacement Hose Handle User Manual

FOR SHARK VACUUMS MODELS ZU62, ZU62C, ZU60, ZU102

## 1. Introduction

---

This manual provides comprehensive instructions for the installation, operation, and maintenance of your new Selgo Replacement Hose Handle. This product is designed to restore the functionality of your compatible Shark vacuum cleaner. Please read this manual thoroughly before installation and use to ensure proper function and longevity of the product.

## 2. Product Compatibility

---

This replacement hose handle is specifically engineered for the following Shark vacuum models:

- Shark Navigator Lift-Away models: **ZU62, ZU62C, ZU60**
- Shark Rotator Professional Lift-Away model: **ZU102**

**Important:** Do not purchase or attempt to install this handle if your vacuum model number is not listed above. Incorrect compatibility may lead to improper fit or damage.

# PERFECT FIT

Designed for Shark models ZU62,  
ZU62C, ZU60, and ZU102.

Figure 1: Compatible Shark Vacuum Models. This image displays four different Shark vacuum models, highlighting the specific designs for which this replacement hose handle is suitable.

## 3. Safety Information

---

Always observe basic safety precautions when handling vacuum cleaner parts:

- Ensure the vacuum cleaner is unplugged from the power outlet before attempting any installation or maintenance.
- Keep hands and fingers clear of moving parts or openings during installation.
- Do not use the vacuum if the hose handle is damaged or improperly installed.
- This product is for household use only.

## 4. Package Contents

---

Your package should contain the following item:

- 1 x Selgo Replacement Hose Handle (Model ZU62 Hose)

Figure 2: Selgo Replacement Hose Handle. This image shows the complete replacement hose handle, including the ergonomic grip and the flexible hose section.

## 5. Installation Instructions

---

Follow these steps to replace your vacuum's hose handle:

1. **Unplug the Vacuum:** Ensure your Shark vacuum cleaner is completely unplugged from the electrical outlet before proceeding.
2. **Remove the Old Handle:** Locate the connection points where the old hose handle attaches to the vacuum body and the main hose. Typically, these involve release buttons or clips. Press any release buttons and gently pull the old handle away from the vacuum.
3. **Connect the New Handle to the Hose:** Take the new Selgo Replacement Hose Handle. Align the end of the flexible hose section with the main vacuum hose. Push firmly until it clicks securely into place.
4. **Connect the Handle to the Vacuum Body:** Align the handle's base with the corresponding port on your vacuum cleaner's main body. Push the handle firmly into the port until it locks into position. You should hear a click, indicating a secure connection.
5. **Verify Connection:** Gently tug on both connection points to ensure the handle is securely attached and will not detach during use.

# EASY TO INSTALL

Snaps into place for a secure, hassle-free fit.

Figure 3: Easy Installation Steps. This diagram illustrates the simple snap-in-place mechanism for attaching the replacement hose handle to the vacuum cleaner.

## 6. Operating Instructions

---

Once the replacement hose handle is securely installed, you can resume normal operation of your Shark vacuum cleaner. The ergonomic design provides a comfortable grip, allowing for efficient maneuvering during cleaning tasks.

- **Power On:** Plug in your vacuum cleaner and turn it on according to your vacuum's specific power instructions.
- **Maneuver:** Use the handle to guide the vacuum across various surfaces. The flexible hose allows for reaching different areas and using attachments.
- **Attachments:** Attach any compatible cleaning tools (e.g., crevice tool, upholstery tool) directly to the end of the hose handle for specialized cleaning.

# POWERFUL PERFORMANCE

Restores full suction for deep cleaning anywhere.

Carpet

Tiles

Hardwood

Figure 4: Powerful Performance. This image demonstrates the vacuum's ability to clean various floor types, including carpet, tiles, and hardwood, with the new hose handle.

## 7. Maintenance

---

To ensure the longevity and optimal performance of your replacement hose handle:

- **Regular Inspection:** Periodically inspect the hose for any signs of wear, cracks, or blockages.
- **Cleaning:** If dust or debris accumulates on the handle or inside the hose, gently wipe the exterior with a damp cloth. For internal blockages, carefully remove the hose and clear the obstruction.
- **Storage:** Store the vacuum and its components in a clean, dry place away from extreme temperatures.

## 8. Troubleshooting

---

If you encounter issues with your replacement hose handle, refer to the following table:

Problem	Possible Cause	Solution
Handle does not fit or is loose.	Incorrect model compatibility. Not fully engaged.	Verify your vacuum model number against the compatibility list. Ensure the handle is pushed firmly until it clicks into place at both connection points.
Loss of suction through the hose.	Hose blockage. Improper connection.	Inspect the hose for any obstructions and clear them. Re-check that the handle is securely connected to both the main hose and the vacuum body.
Hose appears damaged (cracks, tears).	Wear and tear. Physical damage.	The hose may need to be replaced if damage is significant. Contact customer support for assistance.

## 9. Specifications

Feature	Detail
Brand	Selgo
Model Number	ZU62 Hose
Compatible Models	Shark ZU62, ZU62C, ZU60, ZU102
Item Weight	0.94 Kilograms (2.07 pounds)
