

## Makartt Builder Nail Gel 15ml 5 in 1 Multifunctional Clear Gel Nail Polish Bundle

# Makartt Builder Nail Gel 5-in-1 Multifunctional Clear Gel User Manual

Model: Builder Nail Gel 15ml 5 in 1 Multifunctional Clear Gel Nail Polish Bundle

## 1. INTRODUCTION

---

The Makartt Builder Nail Gel is a versatile 5-in-1 product designed for various nail art applications. This clear gel can function as a gel nail polish, base coat, reinforcement gel, rhinestone gel, and is suitable for nail extensions, broken nail repair, building nail apex, and as a protective overlay for natural nails. Its self-leveling properties and moderate thickness facilitate ease of use for both beginners and experienced users. This bundle also includes components for 3D painting and chrome nail powder application.

## 2. SAFETY PRECAUTIONS

---

- **For Professional Use Only:** This product is intended for use by trained nail technicians or individuals familiar with gel nail application.
- **Skin Contact:** Avoid direct contact with skin. If contact occurs, wash thoroughly with soap and water.
- **Ventilation:** Use in a well-ventilated area to minimize inhalation of fumes.
- **Eye Contact:** In case of eye contact, flush immediately with plenty of water and seek medical advice.
- **Keep Out of Reach:** Store out of reach of children.
- **Patch Test:** Perform a patch test on a small area of skin 24 hours before full application to check for allergic reactions. Discontinue use if irritation occurs.
- **Flammability:** Keep away from heat and open flame.

## 3. PRODUCT COMPONENTS

---

This bundle typically includes:

- Makartt Builder Nail Gel (Clear, 15ml)

- Micro 3D Sculpting Gel / Painting Gel
- Chrome Nail Powder

## 4. PREPARATION

---

Proper nail preparation is crucial for optimal adhesion and longevity of the gel.

1. **Clean Nails:** Ensure nails are clean, dry, and free of any oils or previous polish.
2. **File and Shape:** File nails to the desired shape.
3. **Push Cuticles:** Gently push back cuticles.
4. **Buff Nail Surface:** Lightly buff the natural nail surface to remove shine and create a porous surface for better adhesion.
5. **Dehydrate:** Apply a nail dehydrator or cleanser to remove any remaining dust and oils.

## 5. APPLICATION INSTRUCTIONS

---

The Makartt Builder Nail Gel offers multiple application methods:

### 5.1. As a Clear Gel Nail Polish

1. After preparation, apply a thin, even layer of the Builder Nail Gel to the nail surface.
2. Cure under a UV/LED lamp (refer to Curing Times section).
3. Apply a second thin layer if desired and cure.
4. Finish with a top coat and cure.

### 5.2. As a Base Coat

1. After preparation, apply a thin layer of the Builder Nail Gel to the nail.
2. Cure under a UV/LED lamp.
3. Proceed with your chosen color gel polish application.

# MULTIFUNCTIONAL BUILDER NAIL GEL

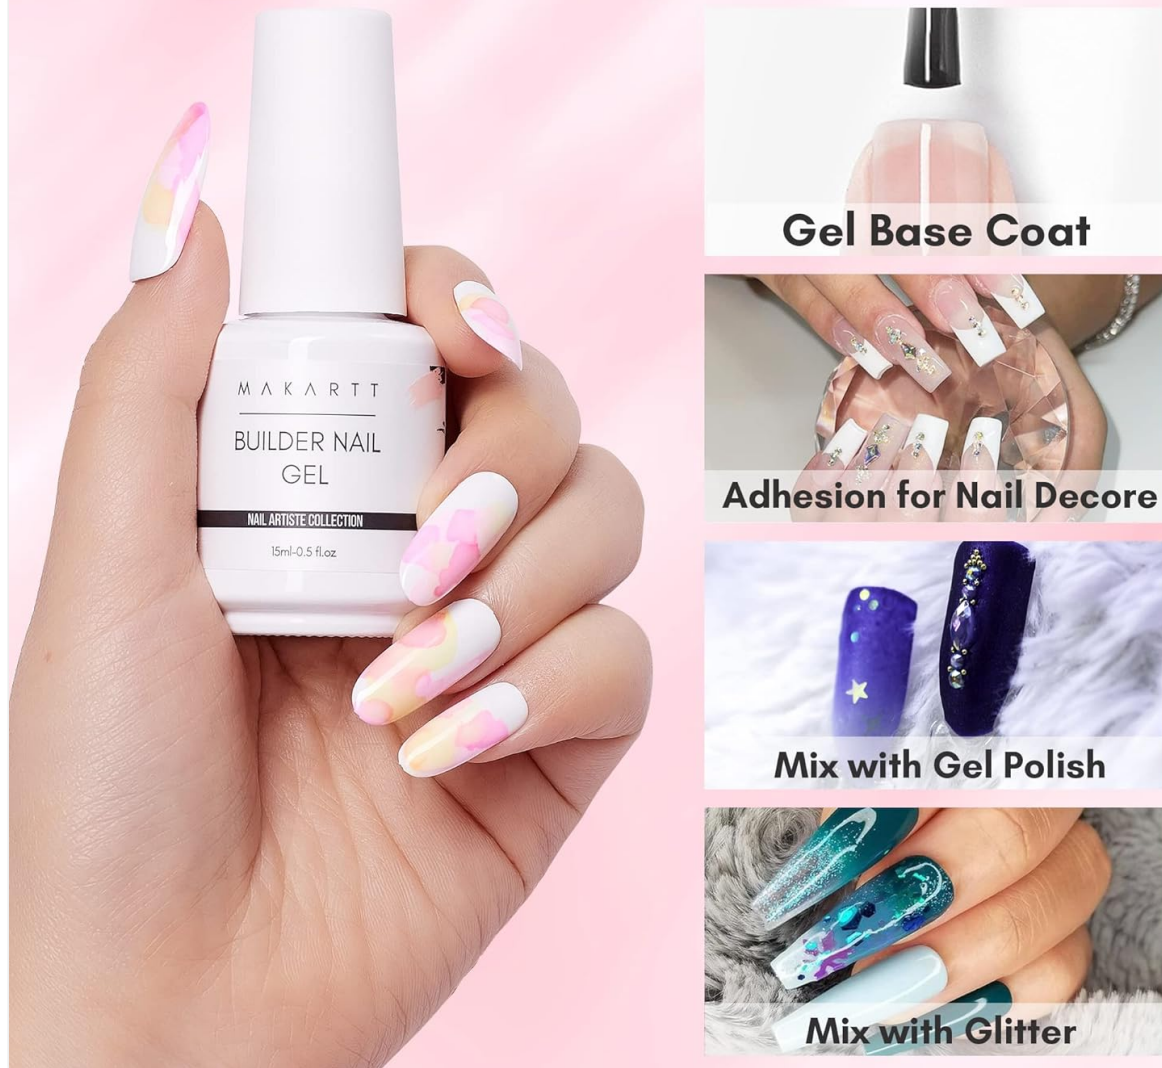

Image 5.1: Demonstrations of Builder Nail Gel as a base coat, for adhering nail decorations, and for mixing with colored gel polish or glitter.

## 5.3. For Nail Reinforcement and Protection

1. After preparation, apply a slightly thicker layer of Builder Nail Gel to the natural nail, ensuring even coverage.
2. If desired, gently float the gel to create a slight apex for added strength.
3. Cure under a UV/LED lamp.
4. Apply a top coat and cure.

## 5.4. For Nail Extension and Apex Building

1. After preparation, apply a nail form securely under the free edge of the natural nail.
2. Apply a thin layer of Builder Nail Gel as a base and cure.
3. Apply a bead of Builder Nail Gel to the nail, extending it onto the form to create the desired length and shape. Build the apex for strength.
4. Cure under a UV/LED lamp.
5. Remove the nail form and gently file and shape the extended nail.
6. Apply a top coat and cure.

## 5.5. For Broken Nail Repair

1. Clean and prepare the broken nail area.
2. Apply a small amount of Builder Nail Gel over the break, ensuring it covers and reinforces the damaged area.
3. Shape the gel to blend with the natural nail.
4. Cure under a UV/LED lamp.
5. Gently file and buff the repaired area for a smooth finish.
6. Apply a top coat and cure.

Image 5.2: Visual guide demonstrating the Builder Nail Gel's application for nail extension, building a nail apex, nail protection/reinforcement, and repairing broken nails.

## 5.6. Using 3D Painting Gel

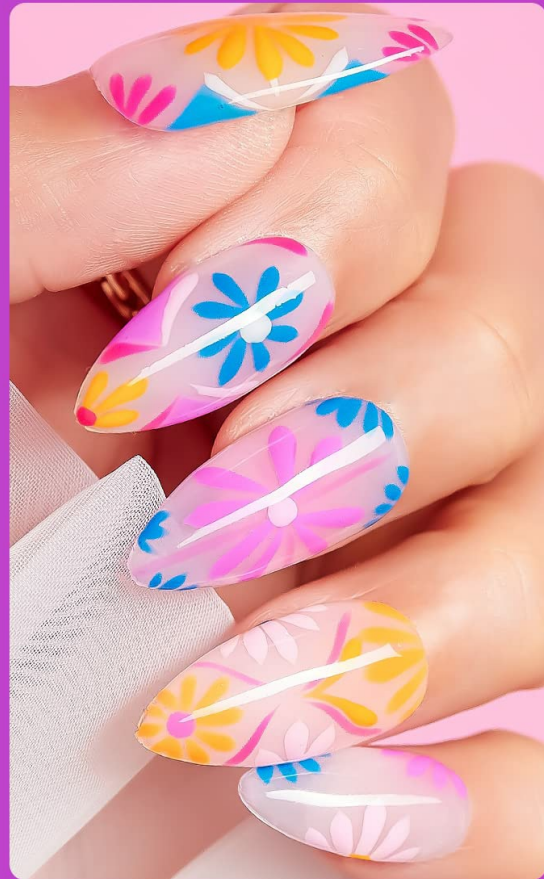

The transparent micro 3D painting gel allows for creative nail art designs.

1. Apply a base color gel and cure.
2. Dispense a small amount of 3D Painting Gel onto a palette.
3. **Optional:** Mix with various color gel nail polishes to create custom colored 3D designs.
4. Using a fine nail art brush, create desired patterns, lines, or 3D sculptures on the nail surface. The gel's

strong ductility allows for smooth, complete lines.

5. Cure under a UV/LED lamp.
6. Apply a top coat and cure.

## TRANSPARENT PAINTING GEL, STRONGER CREATIVITY

mixed with various **color nail polish gel**, create various patterns - flowers, butterflies, leaves, lines

Image 5.3: Illustration of transparent painting gel being mixed with different color gels to create intricate nail art designs like flowers and leaves.

## NOT STICK TO NAIL BRUSH STRONG DUCTILITY

Can Smooth draw complete long lines in one go, and control the thickness of lines

Image 5.4: A nail art brush applying the painting gel, highlighting its strong ductility for creating smooth and precise lines without sticking to the brush.

### 5.7. Applying Chrome Nail Powder

Achieve mesmerizing and futuristic nail art designs by combining with chrome nail powder.

1. Apply a base color gel and cure.
2. Apply a no-wipe top coat and cure for the recommended time (usually 30-60 seconds LED, 60-120 seconds UV), ensuring it's fully cured but still has a slight tacky feel for powder adhesion.
3. Using an applicator or silicone tool, pick up a small amount of chrome nail powder.
4. Rub the powder onto the cured no-wipe top coat until a smooth, reflective chrome effect is achieved.
5. Brush off any excess powder.
6. Apply a final layer of no-wipe top coat to seal the chrome effect and cure.

## DIY WITH VARIOUS COLORS CHROME NAIL POWDER

Perfect for using with **chrome nail powder** to create a bright and charming nail art designs.

Image 5.5: Example of nail art created using chrome nail powder, showcasing bright and charming designs.

### 5.8. Curing Times

- **LED Lamp:** 90-120 seconds
- **UV Lamp:** 2-3 minutes

*Note: Curing times may vary based on lamp wattage and gel thickness. Ensure full cure to prevent lifting or allergic reactions.*

## 6. REMOVAL

---

To remove the Builder Nail Gel:

1. **File Top Coat:** Gently file off the top coat and any thick layers of the builder gel using a coarse grit file (e.g., 100/180 grit). Be careful not to file into the natural nail.
2. **Soak:** Soak cotton pads in acetone, place them on each nail, and wrap with aluminum foil.
3. **Wait:** Allow nails to soak for 10-15 minutes.
4. **Scrape:** Gently push off the softened gel with a cuticle pusher. Do not force it. If necessary, re-soak for a few more minutes.
5. **Buff:** Lightly buff any remaining residue from the natural nail.

6. **Hydrate:** Apply cuticle oil to rehydrate the nails and cuticles.

## 7. MAINTENANCE AND LONGEVITY

The Makartt Builder Nail Gel is designed for strong, durable, and long-lasting wear, typically exceeding 4 weeks when applied correctly.

- **Proper Application:** Ensure thorough nail preparation and correct application techniques to prevent lifting or chipping.
- **Avoid Harsh Chemicals:** Wear gloves when performing household chores involving strong cleaning agents.
- **Regular Fills:** For extensions, schedule regular fills every 2-3 weeks to maintain strength and appearance as your natural nails grow.
- **Moisturize:** Keep cuticles and nails hydrated with cuticle oil to promote nail health.

**LONG LASTING MORE THAN 4 WEEKS  
NO CRACKING, LIFTING, PEELING OFF**

Image 7.1: Visual representation of the gel's durability, showing minimal cracking, lifting, or peeling over a period of 1 to 28 days.

## 8. TROUBLESHOOTING

- **Gel Not Curing:** Ensure your UV/LED lamp is functioning correctly and has sufficient wattage. Apply thinner layers of gel. Check curing times.

- **Lifting/Chipping:** Improper nail preparation (not buffing enough, oils on nail), applying gel too thick, or not capping the free edge can cause lifting. Ensure full cure.
- **Bubbles in Gel:** Avoid over-mixing or shaking the gel bottle. Apply gel smoothly without excessive brushing.
- **Allergic Reaction:** Discontinue use immediately. Consult a medical professional. Ensure proper ventilation and avoid skin contact during application.
