YiJYi XF-C02

YiJYi 3-in-1 Wireless Charging Station with Digital Clock

Model: XF-C02

1. INTRODUCTION

Thank you for choosing the YiJYi 3-in-1 Wireless Charging Station. This device is designed to efficiently charge your compatible iPhone, Apple Watch, and AirPods simultaneously, while also featuring a digital clock display. This manual provides detailed instructions for setup, operation, and maintenance to ensure optimal performance and longevity of your charging station.

Image 1.1: The YiJYi 3-in-1 Wireless Charging Station with connected devices.

2. WHAT'S IN THE BOX

Please verify that all items are present in your package:

- 1 x YiJYi 3-in-1 Wireless Charging Station
- 1 x Type-C USB Cable
- 1 x 15W Power Adapter
- 1 x User Manual

3. SETUP INSTRUCTIONS

1. **Unpack the Device:** Carefully remove all components from the packaging.
2. **Connect Power:** Insert the Type-C USB cable into the charging port on the back of the charging station. Connect the other end of the cable to the provided 15W power adapter.
3. **Plug into Outlet:** Plug the power adapter into a standard wall outlet. The digital clock display on the charging station

should illuminate, indicating it is powered on.

Image 3.1: Comparison of a cluttered charging setup versus an organized setup with the YiJYi charging station.

4. OPERATING INSTRUCTIONS

4.1 Charging Your Devices

The YiJYi charging station features three dedicated wireless charging areas:

- **Smartphone Charging Pad:** Place your compatible smartphone on the upright charging stand. It supports both vertical and horizontal charging orientations.
- **Apple Watch Charging Stand:** Place your Apple Watch on the designated magnetic charging module. Ensure the watch is properly aligned for charging.
- **AirPods Charging Pad:** Place your AirPods (with wireless charging case) on the flat charging pad at the base.

A charging indicator light will confirm when a device is actively charging.

Two Charging States

Vertical and Horizontal Charging

Image 4.1: Charging a smartphone in both vertical and horizontal orientations.

4.2 Digital Clock and Light Features

The charging station includes a digital clock with adjustable brightness and a built-in memory battery to maintain time settings. It is not an alarm clock.

- **Time Synchronization:** The clock automatically synchronizes and updates the time.
- **Brightness Adjustment:** Press the light icon button on the base of the unit to cycle through three levels of indicator brightness (High, Medium, Low) or to turn the display off completely.

High-definition display

Night friendly:

*Three levels of brightness adjustment;

*Time display can be turned off for better sleep.

Press the base  to open the clock!

6. SAFETY INFORMATION

The YiJYi charging station incorporates multiple safety features to protect your devices:

- **Temperature Control:** Prevents overheating during charging.
- **Surge Protection:** Protects against power fluctuations.
- **Short-Circuit Prevention:** Safeguards against electrical shorts.
- **Foreign Object Detection:** Detects metallic objects on the charging surface to prevent damage.

Important Notes:

- The charging station supports phone cases up to 5 mm (0.2 inches) thick.
- Magnetic cards, metal accessories, or thick cases (e.g., Otterbox defender series) may interfere with charging. Remove these before placing your device on the charger.
- Cooling holes on the back and bottom of the charger ensure safe and cool operation.

Safety & Fast Charging

Multiple protections ensure safe charging

Full charge about 2h-3h

7. MAINTENANCE

To maintain the performance and appearance of your charging station:

- **Cleaning:** Disconnect the power before cleaning. Use a soft, dry cloth to wipe the surface. Do not use abrasive cleaners or immerse the device in water.
- **Storage:** When not in use for extended periods, store the charging station in a cool, dry place away from direct sunlight.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Device not charging	• Improper device placement • Non-compatible device/case • Power issue • Foreign object detected	• Ensure device is centered on the charging pad. • Verify device compatibility and remove thick/metal cases or accessories. • Check power adapter and cable connections. Ensure the adapter is 15W. • Remove any foreign objects from the charging surface.
Charging is slow	• Using a low-power adapter • Device case is too thick • Background apps consuming power	• Use the provided 15W power adapter. • Remove the phone case or use a thinner one (max 5mm). • Close unnecessary background applications on your device.
Digital clock not displaying or incorrect time	• No power • Clock display turned off	• Ensure the charging station is properly connected to power. • Press the light icon button on the base to adjust brightness or turn on the display.
Device or charger getting warm	Normal during wireless charging	Slight warmth is normal. If it becomes excessively hot, discontinue use and contact support. Ensure proper ventilation around the unit.
