SETUP GUIDE

1. Charging the Device

Before initial use, fully charge your HOCO Smart Watch Y5. Connect the provided charging cable to the charging port on the back of the watch and to a USB power source. A full charge takes approximately 1 hour.

The watch boasts a 240mAh battery, providing up to 7 days of usage in single Bluetooth mode or 3-4 days with dual Bluetooth enabled.

2. App Installation and Pairing

To unlock the full potential of your smartwatch, download the companion application on your smartphone. The HOCO Smart Watch Y5 is compatible with both iOS and Android devices.

1. Scan the QR code in the watch's settings or search for the official HOCO smartwatch app in your device's app store (App Store for iOS, Google Play Store for Android).
2. Install the application and open it.

3. Ensure Bluetooth is enabled on your smartphone.
4. Follow the in-app instructions to search for and pair with your HOCO Smart Watch Y5. The watch will typically appear as "HOCO Y5" or similar in the Bluetooth device list.
5. Confirm the pairing request on both your watch and smartphone.

OPERATING INSTRUCTIONS

Basic Controls

- **Touchscreen:** Navigate menus, select options, and interact with apps by swiping and tapping the 1.96-inch AMOLED display.
- **Side Button/Dial:** Press to wake/sleep the screen, return to the home screen, or access the app menu. Rotate the dial for scrolling through lists or adjusting settings.

Key Features and Functions

- **Health Tracking:** Monitor your heart rate, blood oxygen levels, steps taken, calories burned, and sleep patterns. Access detailed reports via the companion app.

Figure 5: The HOCO Smart Watch Y5 displaying various health metrics, including heart rate and step count.

- **Multiple Sports Modes:** Select from various sports modes to accurately track your workouts, including running, walking, cycling, and more.
- **Smart Notifications:** Receive real-time alerts for incoming calls, messages, and social media notifications directly on your wrist.
- **Remote Photography:** Use your watch as a remote shutter for your smartphone camera.
- **Split Screen Display:** Access frequently used functions quickly with the split-screen feature.
- **Weather Information:** Get current weather updates directly on your watch.
- **Voice Assistant Support:** Interact with Siri or Google Assistant through your watch (requires smartphone connection).
- **Personalized Watch Faces:** Customize your watch's appearance by choosing from a variety of pre-installed watch faces or downloading new ones via the app.

MAINTENANCE

Cleaning Your Smart Watch

Regularly clean your watch to ensure optimal performance and hygiene. Use a soft, lint-free cloth to wipe the screen and body. For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive materials.

Water and Sweat Resistance (IP68)

The HOCO Smart Watch Y5 is IP68 rated, meaning it is resistant to dust and can withstand immersion in water up to 1.5 meters for 30 minutes. It is suitable for swimming and showering. However, it is not recommended for diving or high-pressure water activities. Always dry the watch thoroughly after exposure to water, especially the charging contacts.

Battery Care

- Avoid exposing the watch to extreme temperatures (hot or cold) as this can degrade battery life.
- Charge the watch using only the provided charging cable.
- Do not leave the watch uncharged for extended periods.

Figure 6: The rear view of the HOCO Smart Watch Y5, highlighting the optical heart rate sensors and charging contacts.

Problem	Possible Solution
Watch does not turn on.	Ensure the watch is fully charged. Connect it to the charger for at least 15 minutes.
Cannot pair with smartphone.	Make sure Bluetooth is enabled on your phone and watch. Ensure the watch is within range of your phone. Restart both the watch and your smartphone. Forget the device in your phone's Bluetooth settings and try pairing again. Ensure the companion app is installed and running.
Notifications are not received.	Check notification permissions in the companion app and your phone's settings. Ensure the watch is connected via Bluetooth. Verify that "Do Not Disturb" mode is not active on either device.
Heart rate/blood oxygen readings are inaccurate.	Ensure the watch is worn snugly on your wrist, not too loose or too tight. Clean the sensors on the back of the watch. Avoid excessive movement during readings.
