

G TALECO GEAR CSWL

G TALECO GEAR Bed Rail for Toddlers

MODEL: CSWL (78.7 INCH) - INSTRUCTION MANUAL

1. Introduction

This manual provides essential instructions for the safe installation, operation, and maintenance of your G TALECO GEAR Bed Rail for Toddlers, Model CSWL. Please read this manual thoroughly before assembly and use to ensure the safety of your child and the proper function of the product. Keep this manual for future reference.

2. Safety Information

Your child's safety is paramount. This bed rail is designed with safety as a top priority and has passed rigorous testing, holding a Children's Product Certificate. Adhere to the following safety guidelines:

- Always ensure the bed rail is securely installed according to the instructions.
- Regularly check all components for wear, damage, or loose connections. Discontinue use if any part is damaged.
- The bed rail features a **double-sided child safety lock**. Always engage the lock when the rail is in the upright position to prevent accidental lowering by the child.
- The strong steel frame is wrapped in foam, and the upper pipe is equipped with a thick EPE pearl cotton tube to prevent injuries. Do not remove these protective coverings.
- Ensure there is no gap between the bed rail and the mattress to prevent entrapment. The bottom bar is designed to securely press against the mattress.
- This product is intended for toddlers. Do not use for infants or children who can climb over the rail.
- Do not use the bed rail as a substitute for adult supervision.

For additional safety information, please refer to the included safety test report and CPSC certification details.

MEET Baby Product Safety and Quality Standards

Passed the CPSC Certification in the US
Baby Safety Test Report

4. Setup and Installation

Follow these steps to assemble and install your bed rail. It is recommended to perform this on a flat surface before placing it on the bed.

1. **Identify Components:** Separate the top and bottom connection tubes and lifting rods. Note that the middle tube of the top rod is shorter, and the middle tube of the bottom rod is longer. Ensure the longer intermediate tube is used in the bottom rod section.
2. **Assemble Frame:** Connect the top and bottom connection tubes to form the rectangular frame.
3. **Attach Fence Net Cover:** Slide the fence net cover onto the assembled frame. Ensure the zipper is accessible for later use.

4. **Insert Lifting Rods:** Install the lifting rods into the designated slots on the frame.
5. **Secure Bases:** Attach the bases to the bottom of the lifting rods.
6. **Lock Components:** Pull the fence net cover zipper and lock the lifting rod into the base.
7. **Position on Bed:** Place the assembled bed rail on your bed, ensuring the bases are positioned securely between the mattress and the bed frame. The bottom bar should firmly press the mattress to eliminate gaps.
8. **Final Check:** Verify that all connections are secure and the rail is stable.

5. Operating Instructions

The G TALECO GEAR Bed Rail is designed for ease of use while maintaining high safety standards.

- **Double-Sided Child Safety Lock:** The bed rail is equipped with a double-sided child safety lock. To operate, press the buttons on both sides simultaneously to unlock and adjust the rail. This prevents children from accidentally lowering the rail.
- **Single-Hand Operation:** Parents can effortlessly lift or lower each side of the bed rail using the single-hand lock button, allowing for easy entry and exit from the bed without inconvenience.
- **Seamless Design:** The bottom bar of the bed rail securely presses against the mattress, ensuring there is no gap between the guardrail and the bed, which enhances stability and safety.
- **Breathable Mesh and Storage:** The high-quality linen and breathable mesh padding offer comfort and visibility. A large storage pocket is integrated for convenience.

6. Maintenance

To maintain the cleanliness and longevity of your G TALECO GEAR Bed Rail, follow these simple care instructions:

- **Cleaning:** Wipe the bed rail with a damp cloth. Use mild soap if necessary, then wipe with a clean, damp cloth to remove any soap residue.
- **Drying:** Allow the bed rail to air dry completely before re-use or storage.
- **Inspection:** Periodically inspect the fabric, mesh, and frame for any signs of wear, tears, or damage. Ensure all connection points remain secure.

7. Troubleshooting

If you encounter any issues with your bed rail, refer to the following common solutions:

- **Rail not stable/wobbling:** Ensure the bases are correctly positioned under the mattress and that the bottom bar is pressing firmly against the mattress. Verify all connection tubes are fully inserted and secured.
- **Difficulty with assembly (rods):** Remember that the railings are designed with shorter tubes for the top rod's middle section and longer tubes for the bottom rod's middle section. Ensure the longer intermediate tube is placed in the bottom tube section during installation.
- **Rail not locking/unlocking smoothly:** Check for any obstructions around the safety lock mechanism. Ensure the buttons are pressed simultaneously and fully. Clean any debris from the mechanism if necessary.
- **Gap between rail and mattress:** Re-adjust the bed rail to ensure the bottom bar is tightly pressed against the mattress. If the mattress is too thin or the bed frame design prevents a snug fit, consider using additional padding under the mattress to raise it slightly.

8. Specifications

Feature	Detail
Brand	G TALECO GEAR
Model Number	CSWL
Size	78.7 Inch (1 side)
Color	Grey
Product Dimensions	78.7"W x 26"H
Material Type	Metal, Nylon
Item Weight	7 Pounds
Age Range (Description)	Toddler

Adjustable Length	No
Product Care Instructions	Wipe With Damp Cloth
