# Redragon GS511 Wireless RGB Desktop Speakers User Manual

Model: GS511

## 1. INTRODUCTION

Thank you for purchasing the Redragon GS511 Wireless RGB Desktop Speakers. This manual provides detailed instructions for setting up, operating, and maintaining your speakers to ensure optimal performance and longevity. Please read this manual thoroughly before use.

## 2. PRODUCT FEATURES

- **Wireless Connectivity:** Bluetooth 5.3 for stable, low-latency audio transmission from compatible devices.
- **Enhanced Audio:** Equipped with 2-inch full-range drivers and a 2.0 channel stereo core for clear and rich sound.
- **Dual-Play Design:** Can be configured as two separate vertical speakers or combined into a single horizontal soundbar.
- **Dynamic RGB Backlight:** Customizable RGB lighting effects to enhance your gaming or listening experience.
- **Integrated Control:** All-in-one volume knob with power on/off, RGB mode, and connection mode adjustments.
- **USB Powered:** Convenient power supply via USB connection.

## 3. PACKAGE CONTENTS

Verify that all items are present in the package:

- Redragon GS511 Speakers (Left and Right units)
- USB Power/Audio Cable

- User Manual (this document)

## 4. SETUP INSTRUCTIONS

---

### 4.1 Physical Configuration

The Redragon GS511 speakers offer two primary configurations:

1. **Split Speaker Mode:** Place the left and right speaker units separately on either side of your monitor or desired listening area. Ensure the cable connecting the two units is not strained.
2. **Soundbar Mode:** Connect the two speaker units together to form a single soundbar. Align the connection points and gently push them together until they lock securely. This configuration is ideal for placement directly under a monitor or TV.

## 4.2 Power Connection

Connect the provided USB cable to the speaker unit and then to a powered USB port on your computer, gaming console, or a USB wall adapter (not included). The speakers require a constant USB power source to function, including for Bluetooth mode.

## 5. OPERATING INSTRUCTIONS

### 5.1 Power On/Off and Volume Control

The main control knob is located on the right speaker unit (or the right side of the soundbar).

- **Power On/Off:** Press and hold the control knob for approximately 3 seconds to turn the speakers on or off.
- **Volume Adjustment:** Rotate the control knob clockwise to increase volume and counter-clockwise to decrease volume.

## 5.2 Connectivity Modes

The GS511 supports both USB audio and Bluetooth 5.3 connectivity.

- **Switching Modes:** Briefly press the control knob to cycle between USB audio mode and Bluetooth mode. An indicator light or audio cue will confirm the selected mode.
- **Bluetooth Pairing:** In Bluetooth mode, the speakers will automatically enter pairing mode (indicated by a flashing light). On your device (smartphone, tablet, laptop), search for "Redragon GS511" in the Bluetooth settings and select it to pair.
- **USB Audio:** When connected via USB, the speakers will function as a standard USB audio device. Ensure your computer's audio output is set to the Redragon GS511.

## 5.3 RGB Lighting Control

The speakers feature customizable RGB lighting.

- **Changing RGB Modes:** Press the dedicated RGB button (usually located near the control knob) to cycle through various lighting effects and colors.
- **Turning RGB Off:** Continue pressing the RGB button until the lights turn off, or refer to specific instructions for a dedicated off function if available.

## 6. MAINTENANCE

To maintain the performance and appearance of your Redragon GS511 speakers:

- **Cleaning:** Use a soft, dry cloth to wipe the exterior surfaces. Do not use liquid cleaners or abrasive materials.
- **Storage:** Store the speakers in a cool, dry place away from direct sunlight and extreme temperatures when not in use for extended periods.
- **Avoid Moisture:** The speakers are not waterproof. Keep them away from water and high humidity.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound	Speakers are off. Incorrect audio source selected. Volume is too low. USB cable not properly connected. Bluetooth not paired or disconnected.	Press and hold the control knob to power on. Press the control knob to cycle to the correct mode (USB/Bluetooth). Rotate the control knob clockwise to increase volume. Ensure USB cable is securely connected to a powered port. Re-pair Bluetooth device.
Low volume output	Speaker volume too low. Source device volume too low. Audio settings on device.	Increase volume using the speaker control knob. Increase volume on your connected device. Check audio output settings on your computer/device.
Bluetooth pairing issues	Speakers not in pairing mode. Device too far from speakers. Interference.	Ensure speakers are in Bluetooth mode and flashing for pairing. Move device closer to speakers. Turn off other Bluetooth devices nearby.
RGB lights not working	RGB feature turned off. Power issue.	Press the RGB button to cycle through modes. Ensure speakers are powered on via USB.
