EKSA EKSA-H1PLUS

EKSA H1 Plus Bluetooth Trucker Headset Instruction Manual

Model: EKSA-H1PLUS | Brand: EKSA

INTRODUCTION

This manual provides detailed instructions for the EKSA H1 Plus Bluetooth Trucker Headset. Please read thoroughly to ensure proper setup, operation, and maintenance of your device. This headset is designed for clear communication in various environments, featuring advanced noise-cancelling technology and versatile connectivity options.

PACKAGE CONTENTS

- H1 Plus Headset
- Protective Case
- Replacement Ear Pad (Mesh breathable)
- Type-C Charging Cable
- USB Dongle (PC Adapter)

50 METERS/ 164 FEET OPERATION

Connection Distance with Bluetooth 5.0

SETUP

1. Charging the Headset

Before first use, fully charge the headset. Connect the provided Type-C charging cable to the headset's charging port and the other end to a USB power source. The charging indicator will show the charging status. A full charge takes approximately 1.5 hours.

Image: Visual representation of the headset's battery life and charging duration.

2. Powering On/Off

Press and hold the Multi-Function Button (MFB) for 3 seconds to power on or off the headset. A voice prompt will indicate the status.

3. Bluetooth Pairing (for Mobile Devices)

1. Ensure the headset is powered off.
2. Press and hold the MFB for 5-7 seconds until the LED indicator flashes blue and red alternately, indicating pairing mode.
3. On your mobile device, enable Bluetooth and search for "EKSA-H1PLUS".
4. Select "EKSA-H1PLUS" to connect. The LED will turn solid blue once connected.

4. Connecting with USB Dongle (for PC/Mac without Bluetooth)

1. Plug the USB dongle into an available USB port on your computer.
2. Power on the headset. It will automatically attempt to connect to the dongle.
3. The LED on the dongle and headset will turn solid blue when connected.

OPERATING INSTRUCTIONS

1. Controls Overview

The headset features intuitive controls located on the earcup:

- **Multi-Function Button (MFB):** Power on/off, play/pause music, answer/end calls.
- **Volume Up (+):** Increase volume.
- **Volume Down (-):** Decrease volume.
- **Mute Button:** Mute/unmute the microphone during calls.
- **AI Assistant Button:** Activate your device's voice assistant.

Image: Close-up view of the headset's control buttons and ports.

2. Making and Receiving Calls

- **Answer/End Call:** Short press the MFB.
- **Reject Call:** Press and hold the MFB for 2 seconds.
- **Redial Last Number:** Double-press the MFB.
- **Mute/Unmute Microphone:** Short press the dedicated mute button on the microphone arm.

3. Microphone and Wearing Adjustments

The headset is designed for comfort and versatility:

- **Adjustable Headband:** Extend or retract the headband to fit your head comfortably.
- **Rotatable Microphone:** The microphone arm can rotate 270 degrees, allowing it to be worn on either the left or right ear. Position the microphone close to your mouth for optimal voice pickup.
- **Comfortable Earcups:** The over-ear design with soft ear pads ensures comfort during extended use.

MAINTENANCE

- Cleaning:** Use a soft, dry cloth to clean the headset. Avoid using harsh chemicals or abrasive materials.
- Ear Pad Replacement:** The headset comes with a replacement mesh breathable ear pad. To replace, gently twist and pull off the existing ear pad, then align and press the new ear pad into place.
- Storage:** Store the headset in its protective case when not in use to prevent damage.

TROUBLESHOOTING

Problem	Solution
Headset does not power on.	Ensure the headset is fully charged. Press and hold the MFB for 3 seconds.
Cannot pair via Bluetooth.	Ensure the headset is in pairing mode (flashing blue/red LED). Turn off and on Bluetooth on your device. Move closer to the device.
No sound or poor audio quality.	Check volume levels on both the headset and connected device. Ensure the headset is selected as the audio output device. Re-pair the headset.

Problem	Solution
Microphone not working.	Ensure the microphone is not muted. Check microphone settings on your connected device. Adjust microphone position.
USB dongle not connecting.	Ensure the dongle is fully inserted. Try a different USB port. Restart your computer.
