FEATURES

The GOBOULT X1 Pro Wired Earphones come equipped with several key features to enhance your audio experience:

- **10mm BoomX Bass Drivers:** Large drivers deliver deep, rich, and resonant audio.
- **Type-C Wired Connectivity:** Ensures a seamless and uninterrupted listening experience with convenient Type-C connection.
- **Inline Controls:** Easily manage music playback, calls, and volume without accessing your device.
- **IPX5 Water Resistance:** Repels water and sweat, making them suitable for workouts and outdoor activities.
- **Comfort Fit:** Ergonomically designed for a secure and comfortable fit that lasts all day.
- **Pro+ Calling Mic:** Provides crisp and clear audio for calls.
- **Voice Assistant Support:** Compatible with voice assistants like Siri and Google Assistant.

SETUP

1. **Select Ear Tips:** Choose the ear tips that provide the most comfortable and secure fit for your ears. A proper seal is crucial for optimal sound quality and bass response. Gently attach them to the earphone nozzles.
2. **Connect to Device:** Insert the Type-C connector of the earphones into the Type-C port of your smartphone, tablet, laptop, or other compatible device.
3. **Adjust Fit:** Place the earphones in your ears. The ergonomic design with ear hooks helps ensure a stable and comfortable fit, especially during movement.

OPERATING INSTRUCTIONS

Using Inline Controls

The inline control unit allows for easy management of your audio and calls:

- **Play/Pause:** Press the center button once to play or pause music.
- **Next Track:** Double-press the center button to skip to the next song.
- **Previous Track:** Triple-press the center button to go back to the previous song.
- **Answer/End Call:** Press the center button once to answer an incoming call or end an ongoing call.
- **Reject Call:** Press and hold the center button for approximately 2 seconds to reject an incoming call.
- **Volume Control:** Use the dedicated volume up (+) and volume down (-) buttons to adjust the audio level.

Voice Assistant

To activate your device's voice assistant (e.g., Siri, Google Assistant), press and hold the center button on the inline control unit for a few seconds until the assistant activates.

MAINTENANCE

- **Cleaning:** Regularly clean the ear tips and earphone body with a soft, dry cloth. For ear tips, you may gently remove them and wash with mild soap and water, ensuring they are completely dry before reattaching.
- **Storage:** When not in use, store the earphones in a clean, dry place, preferably in a protective pouch, to prevent tangling and damage.
- **Water Resistance:** While the earphones are IPX5 water-resistant, meaning they can withstand splashes and sweat, they are not designed for submersion in water. Avoid exposing them to heavy rain or prolonged water contact. Ensure the Type-C port is dry before connecting to a device.

TROUBLESHOOTING

| Problem | Solution |
|------------------------------|---|
| No sound or low volume | <ul style="list-style-type: none">◦ Ensure the Type-C connector is fully inserted into your device.◦ Check the volume level on both your device and the earphones' inline controls.◦ Test with another audio source or device to rule out device-specific issues.◦ Ensure ear tips are properly seated and forming a seal in your ear. |
| Microphone not working | <ul style="list-style-type: none">◦ Ensure the earphones are fully connected.◦ Check your device's audio input settings to confirm the earphone microphone is selected.◦ Clean the microphone port if it appears obstructed. |
| Inline controls unresponsive | <ul style="list-style-type: none">◦ Ensure the earphones are securely connected to your device.◦ Some devices may have limited compatibility with inline controls; check your device's manual. |
