3. SETUP GUIDE

3.1 Battery, SIM Card, and Memory Card Installation

Before using the phone, install the battery, SIM card(s), and an optional memory card.

1. **Remove the Back Cover:** Gently pry open the back cover of the phone.

2. **Insert SIM Card(s):** Locate the SIM card slots. This phone supports dual SIM cards. Carefully slide your 2G GSM SIM card(s) into the designated slots with the gold contacts facing down.

Ensure they are securely seated.

3. **Insert Memory Card (Optional):** If you wish to expand storage, insert a microSD card (up to 16GB, not included) into the memory card slot.

4. **Insert Battery:** Align the battery contacts with the phone's terminals and gently press the battery into place.

5. **Replace Back Cover:** Snap the back cover firmly onto the phone until it clicks into place.

3.3 Powering On/Off

- **To Power On:** Press and hold the Power/End Call button (usually red) until the screen lights up.
- **To Power Off:** Press and hold the Power/End Call button until the power-off options appear, then select 'Power off'.

3.4 Network Compatibility

This phone supports GSM 850/900/1800/1900 networks. Please confirm with your SIM card carrier that they support 2G networks in your area for optimal functionality. The phone is unlocked, but carrier network support is essential.

4. OPERATING INSTRUCTIONS

4.1 Making and Receiving Calls

- **To Make a Call:** Enter the phone number using the keypad and press the Call button (usually green).
- **To Receive a Call:** When the phone rings, press the Call button to answer.
- **To End a Call:** Press the End Call button (usually red).

4.2 Keypad and Display

The phone features large, backlit keys for easy dialing and navigation, especially in low-light conditions. The 1.77-inch color display provides clear visibility for numbers, text, and menu options.

7. TROUBLESHOOTING

If you encounter issues with your Tangxi flip phone, refer to the following common problems and solutions:

- **Phone does not power on:**

  - Ensure the battery is correctly installed and fully charged.
  - Try charging the phone for at least 30 minutes before attempting to power it on again.

- **Cannot make or receive calls:**

  - Check if the SIM card(s) are properly inserted.
  - Verify that your SIM card carrier supports 2G GSM networks in your location.
  - Ensure you have sufficient credit or an active plan with your carrier.
  - Check for network signal strength.

- **Battery drains quickly:**

  - Reduce screen brightness.
  - Close unused applications.
  - Ensure the phone is not in an area with very poor signal, as this can increase battery consumption.
  - Consider replacing the battery if it is old or damaged.

- **No network signal:**

  - Move to an open area or near a window.
  - Restart the phone.
  - Confirm with your carrier about network coverage in your current location.
