## SETUP & ASSEMBLY

---

The magnetic tiles are designed for easy connection, allowing for diverse structural creations. Follow these general guidelines for assembly:

1. **Unpack Components:** Carefully remove all magnetic tiles and accessory pieces from the packaging.
2. **Connect Tiles:** Bring the edges of two magnetic tiles together. The internal magnets will automatically align and connect, forming a secure bond.
3. **Build Structures:** Experiment with different shapes and configurations to construct castles, houses, or other imaginative designs. The included idea booklet provides various examples and inspiration.
4. **Integrate Special Pieces:** Insert the window and door pieces into the hollowed-out square tiles to add architectural details. Use the staircase pieces to create multi-level structures.
5. **Add Figures:** Place the magnetic prince and princess figures within your constructed castle to enhance play scenarios.

*A child actively engaged in building a structure with the magnetic tiles, demonstrating hands-on play.*

## OPERATING INSTRUCTIONS / USAGE

The Little Pi Magnetic Tiles are intended for open-ended creative play. There are no specific operating instructions beyond the assembly process. Encourage children to:

- **Explore and Experiment:** Allow children to freely connect tiles and discover different shapes and structures they can create.
- **Develop Storylines:** Use the prince and princess figures to create narratives and engage in imaginative role-playing within their constructed castles.
- **Follow Idea Booklet:** Refer to the included booklet for building ideas and challenges, which can help inspire new creations.
- **Collaborate:** Magnetic tiles are excellent for collaborative play, encouraging communication and teamwork among children.

## CARE & MAINTENANCE

---

To ensure the longevity and cleanliness of your Little Pi Magnetic Tiles, please follow these care instructions:

- **Cleaning:** Wipe the tiles with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the plastic.
- **Drying:** Ensure all tiles are completely dry before storing to prevent moisture buildup.
- **Storage:** Store the magnetic tiles in a cool, dry place away from direct sunlight and extreme temperatures. Keeping them in their original box or a designated storage container will help prevent loss and damage.
- **Avoid Impact:** While durable, excessive force or dropping from significant heights may cause damage to the tiles or internal magnets.

## TROUBLESHOOTING

---

If you encounter any issues with your magnetic tiles, consider the following:

- **Tiles Not Connecting:** Ensure the magnetic edges are clean and free from debris. Verify that the tiles are being brought together correctly. Strong magnets should provide a firm connection.
- **Damaged Pieces:** If any pieces are broken or show signs of wear that could pose a safety risk, discontinue use of those specific pieces.
- **Missing Pieces:** Refer to the package contents list. If pieces are missing upon initial inspection, please contact customer support.
