### Devoko B0CC4FF4BF

# Devoko 10x30 FT Waterproof White Canopy Tent

Model: B0CC4FF4BF

## 1. INTRODUCTION

The Devoko 10x30 FT Waterproof White Canopy Tent is designed for various outdoor events, providing shelter and a spacious area for gatherings. This heavy-duty tent is suitable for weddings, parties, backyard events, and patio use. It features a rust-proof metal frame, high-density polyethylene top, and reinforced side ropes for stability. This manual provides essential information for the safe and effective setup, operation, and maintenance of your canopy tent.

## 2. SAFETY INFORMATION

Please read and understand all safety warnings before assembling or using the canopy tent. Failure to follow these instructions may result in injury or damage to the product.

- **Weather Conditions:** This tent is **not suitable for extreme weather conditions**, including heavy winds, severe rain, snow, or thunderstorms. Disassemble and store the tent during adverse weather to prevent damage and ensure safety.

- **Fire Hazard:** Keep the tent away from all flame and heat sources. The tent material is not fireproof.
- **Assembly:** Always assemble the tent with at least 2-4 people. Ensure all connections are secure and the tent is properly anchored to the ground using the provided stakes and ropes.
- **Site Selection:** Choose a level, clear area free from overhead obstructions (e.g., power lines, tree branches) and sharp objects on the ground.
- **Ventilation:** Ensure adequate ventilation, especially if using heating or cooking appliances nearby (though not recommended inside the tent).

### 3. PACKAGE CONTENTS

Before beginning assembly, verify that all components listed below are present and undamaged. If any parts are missing or damaged, contact customer support immediately.

- Rust-proof metal frame poles
- Reinforced connectors
- High-density polyethylene canopy top
- 6 Ventilated sidewalls with dual zipper doors
- Ground nails/stakes
- Reinforced side ropes
- Assembly instructions (this manual)

#### 4. SETUP INSTRUCTIONS

The Devoko canopy tent is designed for effortless, tool-free assembly. Follow these steps for quick and efficient setup:

1. **Unpack and Sort:** Lay out all components on a clean, flat surface. Identify and separate frame poles, connectors, canopy top, and sidewalls.
2. **Assemble the Frame:** Connect the metal frame poles using the reinforced connectors. Ensure each connection is fully inserted and secure. The intuitive design allows for fast assembly without screws.
3. **Attach the Canopy Top:** Carefully drape the high-density polyethylene canopy top over the assembled frame. Ensure it is centered and evenly distributed.
4. **Install Sidewalls:** Attach the 6 ventilated sidewalls to the frame. These can be installed or removed as needed, offering flexibility for different events.
5. **Secure to Ground:** Use the provided ground nails/stakes and reinforced side ropes to firmly anchor the tent to the ground. This is crucial for stability, especially in light wind conditions.

## 5. OPERATING THE TENT

The Devoko canopy tent is versatile and designed for various outdoor uses. Its spacious 10x30 FT dimensions can

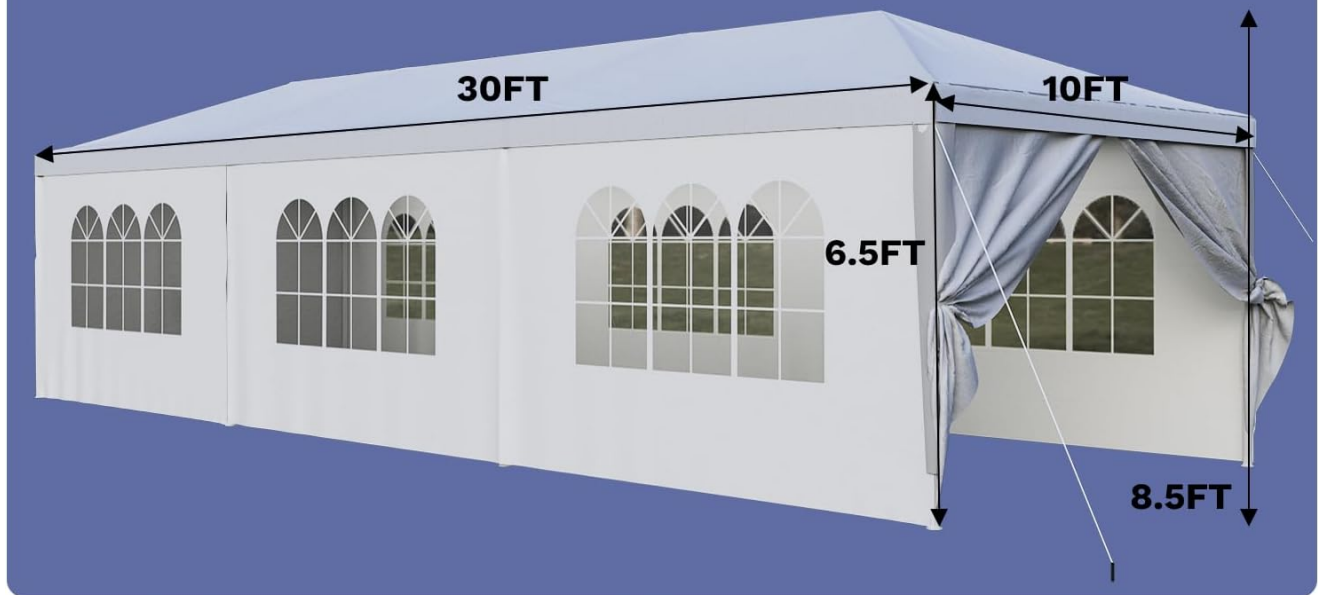

accommodate over 50 guests, making it ideal for large gatherings.

- **Event Versatility:** Perfect for weddings, BBQ events, parties, camping, and other outdoor activities.
- **Weather Protection:** The tent offers UV-resistant and waterproof properties, providing protection from sun and light rain.
- **Ventilation and Access:** Utilize the 6 ventilated sidewalls and dual zipper doors to control airflow and access points as needed for your event.

## 6. MAINTENANCE

Proper maintenance will extend the lifespan of your Devoko canopy tent.

- **Cleaning:** Clean the canopy and sidewalls with mild soap and water. Do not use harsh chemicals or abrasive cleaners. Allow all parts to dry completely before storage to prevent mildew.
- **Inspection:** Regularly inspect the frame poles for rust or damage, and the canopy/sidewalls for tears or excessive wear. Address any issues promptly.
- **Storage:** When not in use, disassemble the tent and store all components in a dry, cool place, away from direct sunlight and extreme temperatures.

## 7. TROUBLESHOOTING

Below are common issues and their potential solutions:

**Issue: Tent instability or collapse in wind.**

**Solution:** Ensure all ground nails/stakes are fully inserted and ropes are taut. Verify that all frame connections are secure. This tent is not designed for strong winds; disassemble if high winds are expected.

**Issue: Water pooling on the canopy top.**

**Solution:** This can occur during heavy rain. Regularly push up on the canopy from underneath to shed accumulated water. Ensure the tent is pitched on level ground to allow for proper water runoff.

**Issue: Tears in the canopy or sidewalls during setup.**

**Solution:** Handle the fabric components with care during assembly. Avoid dragging them over rough surfaces or sharp objects. Ensure poles are fully inserted into connectors to prevent stress points on the fabric.

**Issue: Frame poles bending or connectors not fitting.**

**Solution:** Ensure you are using the correct poles and connectors for each section as per the assembly diagram. Do not force connections. If a pole or connector is damaged, contact customer support for replacement parts.

## 8. SPECIFICATIONS
