

DICTAC Metal Medicine Cabinets

DICTAC Medicine Cabinet with Mirror and LED Light

Model: Metal Medicine Cabinets (39.4"x23.6")

1. PRODUCT OVERVIEW

The DICTAC Medicine Cabinet is a wall-mounted bathroom storage solution featuring a mirror with integrated LED lighting. It is designed to provide both functional storage and enhanced illumination for your bathroom or dressing area. This model includes three mirrored doors, adjustable glass shelves, and a built-in charging station.

Key Features:

- **LED Lighting:** Dimmable 3-color temperature LED lights (warm/cold/natural) with memory function.
- **Charging Station:** Two AC outlets located inside the cabinet for convenient charging of electric toothbrushes, shavers, and other devices.
- **Storage:** Multi-layer storage space with adjustable glass shelves to accommodate various items.
- **Durability:** Constructed from metal and glass with a varnish treatment for resistance to rust and corrosion. IP44 protection level for humid environments.
- **Design:** Three mirrored doors with a hidden design to prevent dust and protect privacy.

2. SAFETY INFORMATION

- Ensure the cabinet is securely mounted to a sturdy wall structure to prevent falling.
- All electrical connections should be performed by a qualified electrician if hardwiring is chosen.
- Do not overload the internal AC outlets. Refer to the product specifications for maximum current.
- Avoid using abrasive cleaners on the mirror or cabinet surfaces. Use a soft, damp cloth for cleaning.
- This product has an IP44 bathroom protection level, making it suitable for humid environments. However, avoid direct water spray onto electrical components.

3. PACKAGE CONTENTS

Verify that all components are present and undamaged before beginning assembly. If any parts are missing or damaged, contact customer support.

- Mirror Cabinet Unit
- Assembly Instructions
- Simple Assembly Tools
- Adjustable Glass Shelves (2)
- Mounting Hardware (screws, anchors)

For a visual guide to the package contents and assembly steps, please refer to the official assembly video below.

4. SETUP AND INSTALLATION

The DICTAC Medicine Cabinet is designed for wall-mounted installation. Ensure the mounting surface is capable of supporting the weight of the cabinet and its contents.

Installation Steps:

1. **Prepare the Wall:** Mark the desired mounting location on the wall. Ensure the location is clear of electrical wires or plumbing.
2. **Mount the Cabinet:** Follow the detailed instructions in the included assembly manual to securely attach the cabinet frame to the wall using the provided mounting hardware.
3. **Install Doors:** Attach the mirrored doors to the cabinet frame using the hinges. Ensure the wiring for the LED lights passes through the designated channels.
4. **Connect Electrical:** Plug the cabinet into a standard AC outlet. For a hardwired installation, connect the mirror power cable to the wall's reserved wiring. This should be done by a qualified professional.
5. **Install Shelves:** Insert the adjustable glass shelves into the desired positions within the cabinet.

5. OPERATING INSTRUCTIONS

LED Light Operation:

- **Power On/Off:** Touch the blue switch on the mirror surface to turn the LED lights on or off.
- **Change Color Temperature:** A single click on the blue switch cycles through the three color temperatures: Warm (3000K), Natural (4500K), and Cold (6400K).
- **Adjust Brightness:** Long press the blue switch to adjust the light brightness. The memory function will retain the last brightness setting used.

Using the Charging Station:

The cabinet includes two AC outlets located in the upper right corner inside the cabinet. These outlets provide convenient power for small bathroom appliances.

- Open the cabinet door to access the outlets.
- Plug in electric toothbrushes, shavers, or other compatible devices.
- Ensure devices are unplugged when not in use.

6. MAINTENANCE

Cleaning:

- To clean the mirror and cabinet surfaces, use a soft, lint-free cloth dampened with water or a mild, non-abrasive glass cleaner.
- Avoid spraying cleaning solutions directly onto the mirror or electrical components. Apply cleaner to the cloth first.
- Wipe dry immediately to prevent water spots.

General Care:

- Regularly check hinges and mounting screws for tightness. Adjust if necessary to ensure proper door alignment and security.
- The metal and glass construction is designed for durability and resistance to corrosion in humid environments.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
LED light cycles through colors before turning off.	This is normal operation for the touch switch. A single click changes color temperature, a long press adjusts brightness. To turn off, continue cycling until the light turns off, or long press to dim to off.	Understand the touch switch functionality. A quick tap changes color, a long press dims. Continue tapping to cycle through colors and then off.
Doors are difficult to align or close properly.	Hinges may not be properly adjusted or screws are loose.	Check all hinge screws and adjust as needed. Refer to the assembly instructions for hinge adjustment details.
Power cable is visible or not neatly managed.	The cabinet comes with a plug-in power cord. For a cleaner look, hardwiring is an option.	Consider hardwiring the unit by a qualified electrician to conceal the power cable within the wall. Ensure proper electrical codes are followed.
LED lights do not turn on.	No power supply, loose connection, or faulty switch.	Check if the cabinet is properly plugged into a working outlet or if hardwired, ensure the wall switch is on. Verify all internal connections are secure. If the issue persists, contact customer support.

8. SPECIFICATIONS

Feature	Detail
Brand	DICTAC
Model Name	39.4"x23.6"
Item Model Number	Metal Medicine Cabinets
Product Dimensions	5.11"D x 39.4"W x 23.62"H
