Viconor light-therapy-products Face Toning Belts

Viconor Red Light Therapy Belt for Neck

Model: light-therapy-products Face Toning Belts

1. Product Overview

The Viconor Red Light Therapy Belt is designed to provide targeted red light and near-infrared light therapy. Red light therapy is known for its ability to improve skin issues, while near-infrared light penetrates deeper tissues to aid in muscle repair and joint stiffness. This wearable belt is suitable for various body parts, including the neck, chin, legs, arms, ankles, hands, and wrists.

The device features multiple light modes and an automatic timer for controlled treatment sessions. Its flexible and hands-free design allows for comfortable use while sitting, lying down, or performing other activities.

2. Safety Information

Important Reminders:

- Not for use by individuals with heart disease or pacemakers.
- Not for use by pregnant women.
- Not for use by individuals with bleeding skin conditions.

Usage Recommendations:

- Pulse mode provides a brief buffer for the skin to avoid burns.
- When using on sensitive areas such as the chin or neck, use Mode 1, Mode 2, or Mode 4 to prevent burns.

- For areas like arms or back, Mode 3 can be selected based on individual tolerance.
- First-time users of red light therapy products should begin with a low power mode.

3. Setup and Power Supply

The Viconor Red Light Therapy Belt is not a rechargeable product and requires a continuous power source during use.

3.1 Connecting to Power

Connect the provided USB cable to the belt's power input. The other end of the USB cable can be connected using one of the following methods:

1. **Method 1: Wall Outlet**
   Connect the USB cable to a charging head (wall adapter) and then plug it into a standard wall socket.
2. **Method 2: Mobile Power Bank**
   Connect the USB cable to a mobile power bank (not included) for portable use.

Figure 2: Power supply options for the Viconor Red Light Therapy Belt.

3.2 Adjusting the Straps

The belt features adjustable and detachable Velcro straps, allowing you to customize the fit for different body areas. Secure the belt comfortably around the desired treatment area.

4. Operating Instructions

4.1 Power On/Off

To power on the device, press and hold the power button for 3 seconds. The indicator light will illuminate, and the red lights will activate. To power off, press and hold the power button again for 3 seconds.

4.2 Mode Selection

The device offers 4 different modes, each with varying light intensity, wattage, color, temperature, and absorbed energy. Briefly press the power button to cycle through the modes:

Mode	Light Intensity	Watts	Light Color	Temperature	Absorbed Energy
1	Low	2W	Red	97°F	25%

Mode	Light Intensity	Watts	Light Color	Temperature	Absorbed Energy
2	Medium	4W	Blue	110°F	75%
3	High	6W	Green	115°F	100%
4	Pulse	3W	Purple	108°F	Pulse mode

Figure 3: Mode settings and corresponding temperatures.

4.3 Automatic Timer

The device features a 20-minute automatic timer. After 20 minutes of continuous operation, the belt will automatically shut off to ensure safe and precise treatment duration.

5. Application Areas

The flexible design of the Viconor Red Light Therapy Belt allows it to be applied to various parts of the body for targeted therapy.

- **Neck & Chin:** For muscle relaxation and potential skin benefits.
- **Wrist & Hand:** To aid in pain relief and circulation.
- **Arm & Elbow:** For muscle repair and stiffness.
- **Legs & Ankles:** To reduce pain and improve blood circulation.
- **Pets:** Can be used on pets for pain relief, such as for joint discomfort. Consult a veterinarian before use.

6. Maintenance

To ensure the longevity and hygiene of your Viconor Red Light Therapy Belt, follow these maintenance guidelines:

- **Cleaning:** Gently wipe the surface of the belt with a soft, damp cloth. Do not immerse the device in water or use harsh cleaning agents.
- **Storage:** Store the belt in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid bending or creasing the light panel excessively to prevent damage to the LEDs.

7. Troubleshooting

If you encounter any issues with your Viconor Red Light Therapy Belt, please refer to the following common solutions:

- **Device Not Turning On:**
  Ensure the USB cable is securely connected to both the belt and a functioning power source (wall adapter or power bank). Verify the power source is active.

- **Lights Not Illuminating:**
  Check the power connection. If the device is powered on but lights are off, try cycling through the modes by briefly pressing the power button.
- **Device Feels Too Hot/Not Hot Enough:**
  Adjust the mode setting. Lower modes (Mode 1, Mode 2) provide less heat, while Mode 3 provides the highest heat. Mode 4 is a pulse mode with moderate heat. Refer to the 'Mode Selection' table for temperature details.
- **Inconsistent Heat/Light:**
  Ensure the belt is lying flat against the skin and not bunched up, which can affect heat distribution.

If the issue persists after attempting these steps, please contact customer service.

8. Specifications

Feature	Detail
Product Dimensions	0.1 x 0.1 x 0.1 inches
