WUYJTIF Anti-Gravity Humidifier B0CC5VMZLR

WUYJTIF Anti-Gravity Humidifier 800ml User Manual

Model: Anti-Gravity Humidifier B0CC5VMZLR

1. INTRODUCTION

Thank you for choosing the WUYJTIF Anti-Gravity Humidifier. This device is designed to enhance your indoor environment by providing cool mist humidification with a unique anti-gravity water droplet effect. Please read this manual thoroughly before use to ensure proper operation and maintenance.

This humidifier features an 800ml water tank, two operating modes, and a 4-hour automatic power-off protection for safety. It operates quietly, making it suitable for bedrooms and other quiet spaces.

2. SAFETY INFORMATION

- Always place the humidifier on a flat, stable surface.
- Do not immerse the unit in water or other liquids.
- Ensure the power cord is not damaged and is properly connected to a 5V USB power source.
- Do not add essential oils or other additives directly into the water tank, as this may damage the unit.
- Keep out of reach of children and pets.
- Unplug the humidifier before cleaning or refilling.
- The device features a 4-hour automatic power-off protection. If continuous operation is desired, restart the device after it automatically shuts off.
- Use only clean tap water or distilled water. Do not use hot water.

3. PACKAGE CONTENTS

Please check the package for the following items:

- WUYJTIF Anti-Gravity Humidifier Unit
- USB Type-C Cable
- User Manual

4. PRODUCT OVERVIEW

The WUYJTIF Anti-Gravity Humidifier features a unique design that creates the illusion of water droplets flowing upwards, combined with a cool mist output. It includes an LED smart display for real-time information.

Figure 4.1: Front view of the WUYJTIF Anti-Gravity Humidifier, illustrating the upward-flowing water droplet effect and the digital display.

5. SETUP

1. **Unpack the Humidifier:** Carefully remove all components from the packaging.
2. **Place the Unit:** Position the humidifier on a flat, stable, and water-resistant surface, away from direct sunlight or heat sources.
3. **Fill the Water Tank:**
 - Remove the top cover of the humidifier.
 - Fill the 800ml water tank with clean tap water or distilled water. Do not exceed the maximum fill line.
 - Replace the top cover securely.
4. **Connect Power:** Insert the USB Type-C cable into the humidifier's power port and connect the other end to a 5V USB power adapter (not included) or a compatible USB port.

6. OPERATING INSTRUCTIONS

The humidifier features a simple one-button control for ease of use.

1. **Power On/Off:** Press the power button once to turn the humidifier on. Press it again to turn it off.
2. **Switch Modes:** The humidifier offers two modes:
 - **Lighting Mode:** Provides soft ambient lighting along with humidification and the anti-gravity water droplet effect.
 - **Sleep Mode:** Turns off the ambient light while continuing humidification. The gentle gurgling sound of water droplets remains.

To switch between modes, press the power button briefly while the unit is on.

3. **Automatic Shut-off:** The humidifier will automatically turn off after 4 hours of continuous operation as a safety feature. To continue humidification, simply press the power button to restart the device.

7. MAINTENANCE

Regular cleaning and maintenance will ensure optimal performance and extend the lifespan of your humidifier.

1. Daily Maintenance:

- Empty any remaining water from the tank and wipe it dry with a clean cloth.
- Refill with fresh water before each use.

2. Weekly Cleaning:

- Unplug the humidifier and empty the water tank.
- Gently wipe the inside of the water tank and the base with a soft cloth and mild detergent. Rinse thoroughly to remove any soap residue.
- Clean the mist outlet with a soft brush or cotton swab to remove any mineral deposits.
- Wipe the exterior of the unit with a soft, damp cloth.
- Ensure all parts are completely dry before reassembling and storing or reusing.

3. **Filter Maintenance:** The humidifier features a double filter system. While specific replacement

instructions are not provided, regular cleaning of the water tank and mist outlet helps maintain filter effectiveness. If you notice a decrease in mist output or unusual odors, consider contacting customer support for filter-related inquiries.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
No mist or low mist output	Water tank is empty. Mineral buildup on the mist outlet. Unit not properly assembled.	Refill the water tank. Clean the mist outlet as per maintenance instructions. Ensure the top cover is securely placed.
Humidifier does not turn on	No power supply. USB cable not connected properly. Automatic 4-hour shut-off activated.	Check power source and USB connection. Press the power button to restart the unit.
Unusual odor from mist	Stagnant water in the tank. Dirty water tank or mist outlet.	Empty and clean the water tank thoroughly. Use fresh water daily.
