ASSEMBLY INSTRUCTIONS

Assembly is designed to be straightforward. Follow these steps carefully:

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface. Refer to the package contents list to ensure all items are present.
2. **Assemble the Base:** Attach the main support posts to the base plate using the provided screws and wrench. Ensure they are securely tightened.
3. **Install the Cat House:** Position the cat house cube onto the base and secure it to the appropriate support posts.
4. **Attach Hammock and Platforms:** Connect the hammock and upper platform to the designated support posts. The design ensures a smooth climbing path for cats of all ages.
5. **Add Accessories:** Attach the cactus decoration and any hanging toys to their respective locations.
6. **Final Check:** Ensure all screws are tightened and the structure is stable.

FEATURES AND USAGE

The PAWZ Road Mini Cat Tower offers multiple activity zones for your cat's enjoyment and comfort.

Top Platform (Observation Deck)

The elevated top platform provides a comfortable spot for your cat to rest, observe its surroundings, or simply relax. Its plush surface ensures maximum comfort.

Scratching Posts

Multiple posts are wrapped with natural sisal rope, providing a durable and satisfying surface for your cat to scratch. This helps maintain claw health and protects your furniture.

爪とぎポール

SAFETY GUIDELINES

To ensure the safety of your pet and household, please adhere to the following guidelines:

- Place the cat tower on a flat, stable surface.
- Regularly check all connections and tighten screws as needed to maintain stability.
- Keep the cat tower away from open flames or heat sources.
- Supervise your pet during initial use to ensure they adapt safely to the new structure.

Anti-Tip Belt Installation

For enhanced stability and to prevent accidental tipping, especially with active cats, it is highly recommended to use the included anti-tip belt.

1. Locate a suitable wall stud or use appropriate wall anchors (not included if stud is unavailable) near the desired placement of the cat tower.
2. Attach one end of the anti-tip strap to the designated point on the cat tower (usually near the top platform).
3. Secure the other end of the strap to the wall using the provided screw or a suitable wall anchor. Ensure the strap is taut.

MAINTENANCE

Regular cleaning and maintenance will prolong the life of your cat tower and ensure a hygienic environment for your pet.

- **Spot Cleaning:** For minor spills or dirt, use a damp cloth with mild soap to spot clean the plush surfaces.
- **Vacuuming:** Regularly vacuum the cat tower to remove loose fur and dust.
- **Sisal Rope:** The sisal scratching posts are durable. If they become worn, they can often be replaced (replacement parts may be available separately).
- **Inspection:** Periodically inspect the entire structure for any signs of wear, loose parts, or damage. Address any issues promptly.

TROUBLESHOOTING

If you encounter any issues with your PAWZ Road Mini Cat Tower, please refer to the following common solutions:

- **Instability:** Ensure all screws are securely tightened. Verify the cat tower is placed on a level surface. Install the anti-tip belt if not already in use.
- **Parts Not Fitting:** Double-check the assembly instructions to ensure parts are oriented correctly. Do not force components together.
- **Cat Not Using Tower:** Encourage your cat with treats or toys. Place the tower in a favorite spot. Some cats may need time to adjust to new furniture.
