XUJAIOLQP A23

XUJAIOLQP Behind The Head Headphones User Manual

Model: A23 | Brand: XUJAIOLQP

1. PRODUCT OVERVIEW

The XUJAIOLQP Behind The Head Headphones are designed for comfort and high-quality audio performance. Featuring Bluetooth 5.0 technology, these lightweight and foldable headphones offer clear stereo sound with super bass, making them suitable for various activities, including sports. Their ergonomic design ensures a secure and comfortable fit, even during extended use.

Key Features:

- **Bluetooth 5.0 Technology:** Ensures faster transmission and stable signal connection, compatible with all Bluetooth-enabled devices within approximately 10 meters (33ft).
- **High-Fidelity Stereo Sound:** Delivers clear audio with dynamic bass performance and effective background noise filtering for an immersive listening experience.
- **Ultra Comfort and Secure Fit:** Lightweight design with a behind-the-head structure for maximum comfort and stability, ideal for active use and sensitive ears.
- **Multi-functional Controls:** Easy-to-use buttons for volume adjustment, track switching, call management, and mode selection.
- **Long Battery Life:** Provides up to 6 hours of music playback, 7 hours of talk time, and 1200 hours of standby time on a single charge.
- **Portable Design:** Foldable and ultra-lightweight, allowing for easy carrying and storage in a pocket or small pouch.
- **Multiple Playback Modes:** Supports Bluetooth connection, TF card music playback (up to 32GB), and FM

radio.

2. WHAT'S IN THE BOX

Upon opening the package, please ensure all the following items are present:

- XUJAIOLQP Behind The Head Headphones
- Charging Cable
- User Manual (this document)

3. SETUP

3.1 Charging the Headphones

Before first use, it is recommended to fully charge the headphones. Use the provided charging cable to connect the headphones to a USB power source (e.g., computer USB port, USB wall adapter).

- Insert the small end of the charging cable into the charging port on the headphones.
- Connect the larger end of the charging cable to a USB power source.
- The indicator light will typically show red during charging and turn off or change color (e.g., blue) when fully charged.
- A full charge usually takes approximately 3 hours.

3.2 Bluetooth Pairing

To connect your headphones to a Bluetooth-enabled device (e.g., smartphone, tablet, computer), follow these steps:

1. Ensure the headphones are turned off.
2. Press and hold the multi-functional button (often the play/pause button) for approximately 3 seconds until the indicator light flashes red and blue alternately, indicating pairing mode.
3. On your device, enable Bluetooth and search for available devices.
4. Select "XUJAIOLQP" or a similar name from the list of found devices.
5. Once connected, the indicator light on the headphones will typically flash blue slowly or turn off, and a voice prompt may confirm the connection.
6. If prompted for a password, enter "0000".

Bluetooth 5.0

Compatible with All Bluetooth-Enabled Devices

4. OPERATING INSTRUCTIONS

4.1 Button Functions

The headphones feature intuitive controls for easy operation:

Sensitive Button Control

The control is responsive, convenient and fast,
and the experience is better

Image: Detailed diagram illustrating the control buttons on the headphone earcup and their corresponding functions.

Button/Action	Function
Multi-functional Button (Play/Pause icon)	Long press (3 seconds): Power on/off Click: Play/Pause music, Answer/Hang up call Double click: Switch between BT/Radio/TF mode
Previous Track Button (Left arrow icon)	Single press: Switch to the previous song/select the previous station Long press (TF mode): Rewind
Next Track Button (Right arrow icon)	Single press: Switch to the next song/select the next station Long press (TF mode): Fast forward
Volume Up Button (+)	Increase volume
Volume Down Button (-)	Decrease volume

4.2 Operating Modes

The headphones support three distinct operating modes: Bluetooth, TF Card, and FM Radio. You can switch between these modes by double-clicking the multi-functional button.

MULTIFUNCTIONAL Three Modes Switch

Mode1 BT Connection

Can be connected to devices with BT function, support listening to sings and talking

Mode2 Support TF Card

Maximum 32G memory card can be inserted, support MP3 format playback

Mode3 FM Radio

You can listen to the radio, single-press the middle button to automatically search store stations

Image: Visual representation of the three available modes: Bluetooth connection, TF card support, and FM radio.

4.2.1 Bluetooth (BT) Mode

In BT mode, the headphones connect wirelessly to your Bluetooth-enabled device. This mode allows you to listen to audio from your device and manage calls.

- Ensure the headphones are paired with your device (refer to Section 3.2).
- Audio from your connected device will play through the headphones.
- Use the multi-functional button to play/pause music or answer/end calls.
- Use the previous/next track buttons to skip songs.

4.2.2 TF Card Mode

The headphones support music playback directly from a Micro SD (TF) card up to 32GB. This allows you to listen to

music without needing a connected device.

Micro SD Card Support

Listen to music by the SD Card without carrying a mobile phone when running

32G Memory Card Support
4G 8G 16G 32G

Image: Close-up view of the headphone earcup showing the Micro SD card slot and indicating support for up to 32GB cards.

- Insert a TF card with MP3 format music files into the designated slot on the headphone earcup.
- Double-click the multi-functional button to switch to TF Card mode.
- The headphones will automatically begin playing music from the card.
- Use the previous/next track buttons for track navigation and long press for fast forward/rewind.

4.2.3 FM Radio Mode

You can listen to FM radio stations directly through the headphones.

- Double-click the multi-functional button to switch to FM Radio mode.
- Single press the multi-functional button to automatically search and store available FM stations.
- Use the previous/next track buttons to switch between stored stations.
- The frequency range for FM playback is 87.5-108Mhz.

5. MAINTENANCE

5.1 Cleaning

- Wipe the headphones with a soft, dry, lint-free cloth.
- Do not use abrasive cleaners, alcohol, or chemical solvents, as these may damage the surface.
- Keep the charging port free of dust and debris.

5.2 Storage

- Store the headphones in a cool, dry place away from direct sunlight and extreme temperatures.
- When not in use for extended periods, charge the headphones at least once every three months to preserve battery life.
- The foldable design allows for compact storage; utilize this feature to protect the headphones during transport.

6. TROUBLESHOOTING

If you encounter issues with your headphones, please refer to the following common problems and solutions:

Problem	Possible Solution
Headphones do not power on.	Ensure the headphones are charged. Connect them to a power source and try again after a few minutes. Press and hold the multi-functional button for at least 3 seconds.
Cannot pair with a Bluetooth device.	Ensure the headphones are in pairing mode (indicator light flashing red and blue). Make sure Bluetooth is enabled on your device and it is within 10 meters (33ft) of the headphones. Forget or remove previous "XUJAIOLQP" connections from your device's Bluetooth list and try pairing again. Restart both the headphones and your device.
No sound or low volume.	Increase the volume on both the headphones and your connected device. Ensure the headphones are properly connected to your device. If using TF card mode, ensure the audio files are in MP3 format and the card is inserted correctly.
Sound is distorted or cuts out.	Move closer to your connected device to reduce interference. Avoid obstacles between the headphones and your device. Ensure there are no other strong wireless signals nearby causing interference. Check the battery level of the headphones.

Problem	Possible Solution
FM radio not working or poor reception.	<p>Ensure you are in FM Radio mode.</p> <p>Perform an automatic station search by single pressing the multi-functional button.</p> <p>Move to an open area, away from buildings or electronic devices that may cause interference.</p>
