DEGNJU JZ-MGA19

DEGNJU A19 LED Light Bulbs Instruction Manual

Brand: DEGNJU | Model: JZ-MGA19

1. PRODUCT OVERVIEW

Thank you for choosing DEGNJU A19 LED Light Bulbs. These energy-efficient, non-dimmable bulbs are designed to provide a soft white 2700K light, equivalent to a traditional 60-watt incandescent bulb while consuming only 8 watts. They feature an E26 standard base for easy installation in most fixtures.

Brightness
800LM (Eqv. 60W)

Wattage

CRI 80+

DEGNJU A19 LED Light Bulbs provide soft white illumination for various indoor spaces.

2. SETUP AND INSTALLATION

Installing your DEGNJU A19 LED Light Bulbs is a straightforward process. Always ensure the power to the fixture is turned off before installation to prevent electrical shock.

1. **Turn off Power:** Locate the light switch or circuit breaker controlling the fixture and turn it off.
2. **Remove Old Bulb:** Carefully unscrew the old light bulb from the fixture. Allow it to cool if it has been recently in use.
3. **Install New Bulb:** Gently screw the DEGNJU A19 LED bulb into the E26 standard base socket until it is snug. Do not overtighten.
4. **Restore Power:** Turn the light switch or circuit breaker back on.

The DEGNJU A19 LED bulb features an E26 standard base for simple screw-in installation.

3. OPERATING INSTRUCTIONS

These DEGNJU A19 LED bulbs are designed for simple operation with standard light switches.

- **Turning On/Off:** Use your existing wall switch or fixture switch to turn the light bulb on or off.
- **Non-Dimmable:** Please note that these bulbs are **non-dimmable**. Do not use them with dimmer switches, as this may cause flickering or damage to the bulb.
- **Instant On:** The bulbs provide instant full brightness with no warm-up time.

4. MAINTENANCE

DEGNJU A19 LED Light Bulbs require minimal maintenance due to their long lifespan and durable design.

- **Cleaning:** Ensure the power is off before cleaning. Wipe the bulb with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- **Replacement:** These bulbs have an impressive lifespan of 15,000 hours. Replace the bulb when it reaches the end of its operational life.

5. TROUBLESHOOTING

If you encounter any issues with your DEGNJU A19 LED Light Bulbs, please refer to the following common troubleshooting steps:

- **Bulb Not Lighting Up:**

- Ensure the power to the fixture is on.
- Check that the bulb is screwed in securely into the socket.
- Test the bulb in another working fixture to confirm if the bulb or the fixture is the issue.

- **Flickering:**

- These bulbs are non-dimmable. Ensure they are not connected to a dimmer switch.
- Verify the bulb is screwed in tightly.

- **Reduced Brightness:**

- Ensure the bulb is clean and free from dust or debris.
- If the bulb is nearing the end of its lifespan, its brightness may gradually decrease.
