## PawHut D30-274CW

# PawHut Cat Scratching Tree User Manual

Model: D30-274CW | Brand: PawHut

## INTRODUCTION

Thank you for choosing the PawHut Cat Scratching Tree. This manual provides essential information for the safe assembly, proper usage, and effective maintenance of your new cat tree. Please read these instructions carefully before assembly and retain them for future reference. This multi-level cat tree offers various platforms, a cozy shelter, sisal scratching posts, and a hanging toy, designed to provide a stimulating and comfortable environment for your feline companions.

### IMPORTANT SAFETY INSTRUCTIONS

- Always ensure all components are securely fastened before allowing pets to use the tree.
- Place the cat tree on a flat, stable surface to prevent tipping.
- Regularly inspect the cat tree for loose parts, wear, or damage. Tighten screws and replace worn components as necessary.
- Keep small children away from the cat tree during assembly and supervise them when pets are using it.
- This product is designed for cats. Do not allow other animals or humans to climb on it.
- Maximum load capacity: 30 kg. Suitable for 1-2 cats up to 4.5 kg each. Do not exceed this weight limit.

### PACKAGE CONTENTS

Before beginning assembly, verify that all parts listed below are present and undamaged. If any parts

are missing or damaged, please contact customer support.

- 1 x Cat Scratching Tree (all structural components)
- 1 x Assembly Hardware Kit (screws, bolts, Allen wrench)
- 1 x Instruction Manual

## ASSEMBLY INSTRUCTIONS

Assembly is straightforward and requires minimal tools. An Allen wrench is typically included in the hardware kit. Follow these steps carefully:

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches.
2. **Attach Base:** Secure the lowest scratching posts to the main base platform using the provided screws and Allen wrench.
3. **Install First Platform:** Attach the first platform to the top of the initial posts.
4. **Assemble Shelter:** Construct the covered shelter (cat cave) and attach it to the designated platform.

5. **Add Upper Posts and Platforms:** Continue adding posts and platforms, working upwards, ensuring each connection is tight.
6. **Attach Top Bed:** Secure the top bed with the cat ear design to the uppermost posts.
7. **Attach Hanging Toy:** Fasten the hanging ball toy to its designated position, usually beneath a platform.
8. **Final Check:** Once fully assembled, gently shake the tree to ensure stability. Tighten any loose connections.

## ZONA DE DESCANSO MÚLTIPLE

Proporciona un espacio cómodo para que tus gatos se relajen

Cama

### USAGE GUIDELINES

To encourage your cat to use the scratching tree:

- **Placement:** Position the cat tree in a prominent area where your cat spends time, such as near a window or their favorite resting spot.
- **Introduction:** Gently place your cat on different levels of the tree. Use treats or catnip to attract them.
- **Scratching:** If your cat is not using the sisal posts, gently guide their paws to the scratching surface. Never force them.

- **Play:** Encourage play with the hanging toy to engage their natural hunting instincts.

## MAINTENANCE AND CARE

Regular maintenance will extend the life of your cat tree and ensure your pet's safety.

- **Cleaning:** Use a vacuum cleaner with a brush attachment to remove loose fur and debris from the plush surfaces. For spot cleaning, use a damp cloth with mild soap and water, then air dry thoroughly. Avoid harsh chemicals.
- **Sisal Posts:** The sisal rope is designed for scratching. Over time, it will show wear. Replace posts if the sisal becomes excessively frayed or detached.
- **Structural Integrity:** Periodically check all screws and bolts for tightness. Re-tighten as needed to maintain stability.
- **Damage Inspection:** Inspect for any tears in the fabric, cracks in the wood chipboard, or damage to the hanging toy. Repair or replace damaged parts immediately.

## TROUBLESHOOTING

Issue	Possible Cause	Solution
Cat tree is wobbly/unstable	Loose screws; uneven surface	Tighten all screws. Ensure the tree is on a flat, level floor.
Cat not using the tree	Unfamiliarity; preferred scratching elsewhere	Place catnip on the tree. Use treats to encourage exploration. Place near a window or favorite spot.
Sisal rope is fraying excessively	Normal wear and tear; aggressive scratching	This is expected. Replace the sisal post if it becomes too worn to be effective.
Hanging toy detached	Vigorous play; loose attachment	Re-attach securely. If broken, replace with a pet-safe toy.

## PRODUCT SPECIFICATIONS

Feature	Detail
Model Number	D30-274CW
Overall Dimensions	Ø48 x 104 cm (Diameter x Height) / 18.9 x 18.9 x 40.94 inches
