

Dexnor iPad 10.2 (7th/8th/9th Generation)

Dexnor iPad 10.2-inch Case (7th, 8th, 9th Generation) Instruction Manual

Model: iPad 10.2 (7th/8th/9th Generation)

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Dexnor heavy-duty protective case for the Apple iPad 10.2-inch (7th, 8th, and 9th Generation). Designed for full-body protection, this case features a built-in screen protector, a multi-angle kickstand, and a convenient pen holder to safeguard your device against drops, scratches, and daily wear.

2. COMPATIBILITY

This Dexnor protective case is exclusively designed for the following Apple iPad models:

- **iPad 9th Generation (2021):** 10.2 Inch (Models A2602, A2603, A2604, A2605)
- **iPad 8th Generation (2020):** 10.2 Inch (Models A2270, A2428, A2429, A2430)
- **iPad 7th Generation (2019):** 10.2 Inch (Models A2197, A2198, A2200)

Please verify your iPad model number before installation to ensure proper fit and protection. You can find your model number in your iPad's Settings under "About Tablet".

Compatible With

Apple iPad 9th/8th/7th Generation

Three 10.2 inch iPads are shown side-by-side. The first is silver (9th Gen), the second is gold (8th Gen), and the third is black (7th Gen). Each screen displays a dashed diagonal line and the text '10.2\"/>

3. KEY FEATURES

- **Dual-layer Hybrid Military Grade Drop Protection:** Constructed with a shock-absorbing TPU inner layer and a hard, drop-resistant polycarbonate outer shell, providing robust protection against impacts. Reinforced corners offer additional cushioning.
- **Built-in Screen Protector:** An integrated screen protector prevents scratches and damage to your

iPad's display without compromising touch sensitivity.

- **Multi-Angle Kickstand:** The specially designed kickstand allows for multiple viewing angles, suitable for watching videos, typing, or video calls. It can also serve as a handle for easy carrying.
- **Integrated Pen Holder:** A convenient slot on the back of the case securely stores your stylus pen, ensuring it's always accessible for notes or drawing.
- **Precise Cutouts:** Ensures easy access to all buttons, ports, and the camera without removing the case.
- **Hollow Back Design:** Facilitates heat dissipation to maintain optimal device performance.

4. SETUP AND INSTALLATION

Follow these steps to correctly install your iPad into the Dexnor protective case:

1. **Separate the Case Components:** The case consists of two main parts: an inner hard plastic frame (with the built-in screen protector) and an outer soft silicone layer. Carefully peel back the soft silicone layer from the hard plastic frame, starting from the corners.
2. **Open the Hard Frame:** The hard plastic frame itself is typically two pieces that snap together. Use a thin, non-abrasive tool (like a guitar pick or the provided tool, if any) to gently pry open the tabs along the edges of the hard plastic frame. Separate the front frame (with screen protector) from the back hard shell.
3. **Clean Your iPad:** Ensure your iPad screen and back are clean and free of dust or smudges before placing it in the case. This prevents trapped particles from scratching the device or affecting screen protector adhesion.
4. **Place iPad into Back Hard Shell:** Carefully align your iPad with the back hard plastic shell. Ensure

all ports and buttons align with the corresponding cutouts.

5. **Attach Front Frame:** Place the front hard plastic frame (with the built-in screen protector) over your iPad. Align the edges and gently press around the perimeter until it snaps securely into place. Ensure there are no gaps and the screen protector lies flat against your iPad's screen.
6. **Apply Outer Silicone Layer:** Once the hard plastic frame is securely closed around your iPad, carefully wrap the soft silicone outer layer around the entire assembly. Start from one corner and work your way around, ensuring all edges and corners are fully covered and sealed.

Your Dexnor iPad case is now fully installed and ready for use.

5. OPERATING INSTRUCTIONS

5.1 Using the Multi-Angle Kickstand

The integrated kickstand on the back of the case provides versatile viewing options:

- **To Deploy:** Locate the kickstand on the back of the case. Gently pull it outwards until it clicks into an open position.
- **Adjusting Angle:** The kickstand can be adjusted to various angles for comfortable viewing in both landscape and portrait orientations. Experiment with different positions to find your preferred angle.
- **To Retract:** Push the kickstand back into its recessed slot until it lies flush with the case.
- **Using as a Handle:** When fully extended, the kickstand can also be used as a secure handle for carrying your iPad.

Image 5: Multi-angle kickstand in use.

5.2 Using the Pen Holder

The case includes a dedicated pen holder for your stylus:

- **To Insert:** Slide your stylus pen into the designated slot on the side of the case until it is securely held.
- **To Remove:** Gently pull the stylus pen out of the holder when needed.

6. MAINTENANCE

To keep your Dexnor iPad case in optimal condition:

- **Cleaning:** Use a soft, damp cloth to wipe down the exterior of the case. For the built-in screen protector, use a microfiber cloth and a screen-safe cleaning solution. Avoid harsh chemicals or abrasive materials.
- **Regular Inspection:** Periodically check the case for any signs of wear or damage, especially around the corners and port covers. Ensure all components are securely fitted.
- **Avoid Excessive Removal:** While the case is designed for durability, frequent removal and reinstallation may loosen the fit over time. Only remove the case when necessary.

7. TROUBLESHOOTING

If you encounter any issues with your Dexnor iPad case, consider the following:

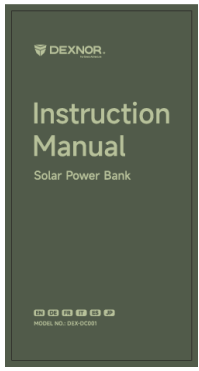

- **Screen Protector Sensitivity Issues:** Ensure the screen protector is free of dust or air bubbles. Reinstall the case, making sure the screen protector is perfectly aligned and pressed firmly against the iPad screen.
- **Loose Fit:** Double-check that all tabs and clips of the hard plastic frame are securely snapped into place. Ensure the silicone outer layer is fully wrapped around the entire case.
- **Port Access Issues:** Verify that your iPad model is compatible with the case. Ensure no debris is obstructing the port covers or cutouts.

8. SPECIFICATIONS

Product Dimensions	10.41 x 7.8 x 0.7 inches
