YITAHOME MAYIHk8nrT

YITAHOME 10x12ft Hardtop Gazebo

INSTRUCTION MANUAL

Model: MAYIHk8nrT

INTRODUCTION

Thank you for choosing the YITAHOME 10x12ft Hardtop Gazebo. This manual provides essential information for the safe assembly, operation, and maintenance of your new outdoor structure. Designed for durability and comfort, this gazebo features a galvanized iron roof, a sturdy aluminum frame, and double-layered sidewalls with nettings and curtains, providing a versatile space for your patio, backyard, or lawn.

Please read these instructions carefully before beginning assembly and retain this manual for future reference.

IMPORTANT SAFETY INFORMATION

Your safety and the longevity of the gazebo are paramount. Adhere to the following safety guidelines:

- Always secure the gazebo to a stable foundation using ground nails or expansion screws to prevent tipping, especially in windy conditions.
- Assemble the gazebo with at least 2 people, ideally 2-4, following the detailed instructions and installation videos provided.
- Be cautious during assembly and disassembly to avoid potential injuries from falling parts or pinching.
- Do not hang heavy objects from the roof structure or frame, except for light fixtures or fans on the designated hook.
- Regularly inspect all connections and fasteners to ensure they remain tight and secure.
- Clear snow accumulation from the roof promptly to prevent structural damage. The roof is designed to hold up to 5 inches thick of snow.

SETUP AND ASSEMBLY

The YITAHOME Hardtop Gazebo is delivered in 3 separate packages, which may arrive at different times. Please ensure all packages have arrived before commencing assembly.

For optimal results and safety, we recommend assembling this gazebo with 2-4 people. The estimated assembly time is approximately 2-4 hours. Detailed instructions and installation videos are included to guide you through a smooth process.

Assembly Steps Overview:

1. **Unpack and Identify Parts:** Carefully unpack all components and verify against the parts list in your included manual.
2. **Assemble Frame:** Begin by assembling the main aluminum frame structure, ensuring all connections are secure.
3. **Install Roof Panels:** Attach the galvanized iron roof panels according to the instructions, ensuring proper alignment for water drainage.
4. **Attach Sidewalls:** Install the double-layered sidewalls (polyester curtains and mesh nettings) onto the double rail system.
5. **Secure to Ground:** Utilize the pre-drilled holes in the feet to install ground nails or expansion screws, reinforcing the pavilion's stability.

BLACK ROOF & BLACK COLUMNS

OPERATION

The YITAHOME Hardtop Gazebo is designed for versatile outdoor use, providing shade, privacy, and protection from elements.

Double-Layered Sidewalls:

The gazebo features a fully enclosed double-sided zipper system with a double trail for smooth operation of the sidewalls. It includes both brown polyester cloth curtains and black mesh nettings. The mesh nettings provide ventilation and protection from insects, while the polyester curtains offer privacy and additional protection from sun and rain. Both layers can be opened, closed, or tied back independently.

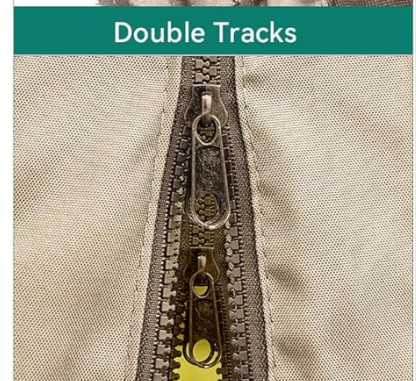

DOUBLE-LAYERED FABRIC

Thickened Nettings

Double Tracks

Double Zippers

Galvanized Iron Roof:

The galvanized iron roof provides excellent protection against sun and rain. The middle of the roof includes a hook, designed for hanging electric lights or fans, enhancing your comfort during outdoor activities.

SUNNY

Pre-drilled Aluminium Frame withstands Winds of up to 50 MPH

SNOW

High-quality Galvanized Steel Roof Holds up to 5"-thick

CARE AND MAINTENANCE

Proper care and maintenance will extend the life and appearance of your YITAHOME Hardtop Gazebo.

- **Roof:** Clean the galvanized iron roof periodically with a soft brush and mild soap solution. Rinse thoroughly with water. Avoid abrasive cleaners that could damage the finish.
- **Frame:** The powder-coated aluminum frame is weather-resistant. Clean with a damp cloth and mild detergent. Inspect for any signs of rust or corrosion, though unlikely, and address promptly.
- **Curtains and Nettings:** The polyester curtains and mesh nettings can be spot cleaned with mild soap and water. For deeper cleaning, they may be removed and hand washed. Ensure they are completely dry before reattaching to prevent mildew.
- **Hardware:** Periodically check all bolts, screws, and connections to ensure they are tight. Re-tighten as necessary to maintain structural integrity.
- **Winter Care:** While the roof is designed for snow, it is advisable to clear heavy snow accumulation to prevent excessive stress on the structure. If possible, remove curtains and nettings during harsh winter months to

prolong their lifespan.

TROUBLESHOOTING

Here are solutions to common issues you might encounter with your gazebo:

- **Gazebo feels unstable:** Ensure all ground nails or expansion screws are properly installed and secured into a stable foundation. Check all frame connections and tighten any loose bolts.
- **Water pooling on the roof:** Verify that the roof panels are installed correctly and aligned to allow for proper water runoff. Ensure no debris is blocking the drainage channels.
- **Curtains/Nettings not sliding smoothly:** Inspect the double track system for any obstructions or debris. Clean the tracks regularly. Ensure the zippers are not snagged or damaged.
- **Parts missing or damaged upon arrival:** Refer to the included parts list. Contact YITAHOME customer support immediately with details of the missing or damaged components.

PRODUCT SPECIFICATIONS

Feature	Detail
Brand	YITAHOME
Model Number	MAYIHk8nrT
Material	Aluminum, Polyester
Product Dimensions	144"L x 120"W x 108"H (12ft L x 10ft W x 9ft H)
Frame Material	Aluminum
Water Resistance Level	Waterproof
Ultraviolet Light Protection	UV-Resistant
Assembly Required	Yes
Occupancy	4-6 people
Color	Brown
Item Weight	136.4 pounds
