UPBRIGHT Dolphin Model SP-17RBT Power Supply

UpBright AC/DC Adapter User Manual

Compatible with Dolphin SP-17RBT SP17RBT 7.4V 7.5V 2200mAh Li-ion Battery WaveSync Rechargeable Trolley
Portable Bluetooth Party Speaker Sound System

INTRODUCTION

This manual provides essential information for the safe and effective use of your UpBright AC/DC Adapter. This power supply is designed to provide reliable power to compatible devices, specifically the Dolphin SP-17RBT series of portable Bluetooth party speakers.

SAFETY INFORMATION

Please read and understand all safety instructions before using this product. Failure to follow these instructions may result in electric shock, fire, or other hazards.

- **Over Voltage Protection (OVP):** The adapter is designed to protect connected devices from excessive voltage.
- **Over Current Protection (OCP):** The adapter is designed to prevent damage from excessive current draw.
- **Short Circuit Protection (SCP):** The adapter is designed to protect against short circuits.
- Do not expose the adapter to water, rain, or excessive moisture.
- Do not disassemble or modify the adapter.
- Ensure the adapter is used within its specified input and output voltage/current ranges.
- Keep out of reach of children.

SETUP

Follow these steps to properly connect your UpBright AC/DC Adapter to your Dolphin SP-17RBT speaker.

1. **Identify the Speaker's Power Input:** Locate the DC power input port on your Dolphin SP-17RBT speaker. This is typically a circular port designed for a barrel connector.
2. **Connect the Adapter to the Speaker:** Insert the barrel connector end of the UpBright AC/DC Adapter cable firmly into the speaker's DC power input port.
3. **Connect to Power Outlet:** Plug the AC prongs of the adapter into a standard wall power outlet (100-240VAC, 50/60Hz).
4. **Verify Connection:** Ensure both connections are secure. The speaker should indicate that it is receiving power or charging, typically via an LED indicator.

UpBright AC Adapter Power Supply Compatible with:

(Machine not Included)

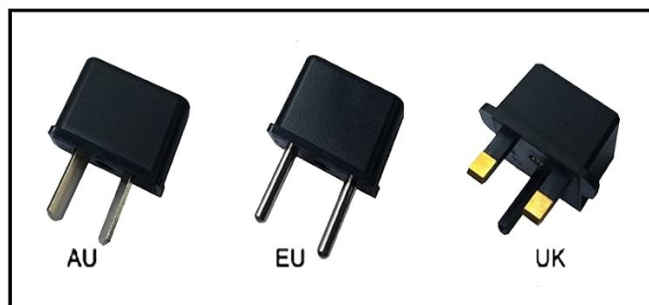

Image: The UpBright AC/DC Adapter shown in context with two Dolphin SP-17RBT portable speakers, illustrating its intended use for powering or charging the device. The speakers themselves are not included with the adapter.

International Use

For international orders, a suitable outlet adapter (AU, EU, or UK type) may be included to fit your country's power outlets. Ensure you use the correct adapter for your region.

OPERATING

Once connected, the adapter will supply power to your Dolphin SP-17RBT speaker or charge its internal battery.

- The adapter is designed for continuous use within its specified operating parameters.
- Monitor the speaker's charging indicator (if available) to determine battery status.
- **Battery Life Consideration:** Rechargeable batteries have a finite lifespan, typically 1 to 3 years. An old or dead battery may not accept a charge, which is a battery issue, not an adapter malfunction.

MAINTENANCE

Proper care will extend the life of your AC/DC adapter.

- **Cleaning:** Disconnect the adapter from the power outlet and the device before cleaning. Use a dry, soft cloth to wipe the surface. Do not use liquid cleaners.
- **Storage:** Store the adapter in a cool, dry place away from direct sunlight and extreme temperatures when not in use.
- **Cable Care:** Avoid bending or crimping the power cord excessively, especially near the connectors, to prevent internal wire damage.

TROUBLESHOOTING

If you encounter issues with your adapter, refer to the following common troubleshooting steps:

- **No Power to Speaker:**

- Ensure the adapter is securely plugged into both the wall outlet and the speaker.
- Test the wall outlet with another device to confirm it is functional.
- Check the adapter cable for any visible damage.

- **Speaker Not Charging:**

- As rechargeable batteries degrade over time (1-3 years average lifespan), an old or dead battery may no longer accept a charge. This is a battery issue, not an adapter fault.
- To verify if the charger is working, a voltmeter is required to test its output voltage.

- **Adapter Overheating:** Disconnect the adapter immediately. Ensure it is used in a well-ventilated area and not covered. If overheating persists, discontinue use and contact support.

SPECIFICATIONS

Feature	Specification
Input Voltage	100-240VAC, 50/60Hz
Output Voltage	7.4V / 7.5V DC
Output Current	2200mAh (2.2Ah)
Wattage	24 watts
Connector Type	Barrel Connector
Protection Features	OVP (Over Voltage Protection), OCP (Over Current Protection), SCP (Short Circuit Protection)
Compatible Devices	Dolphin SP-17RBT Speaker
Product Dimensions	4 x 3 x 2 inches
Item Weight	3 ounces
Manufacturer	UpBright

WARRANTY AND SUPPORT

Your UpBright AC/DC Adapter comes with the following warranty:

- **30 Days Refund:** If you are not satisfied with the product, you may be eligible for a refund within 30 days of purchase.
- **24 Months Exchange:** The product is covered by a 24-month exchange policy for manufacturing defects.

For warranty claims or technical support, please refer to the contact information provided with your purchase documentation or visit the official UpBright website.
