Hamron ecrcombo

Hamron 6-IN-1 Ear Wax Cleaner and Eyebrow Painless Facial Hair Remover Razor User Manual

Model: ecrcombo | Brand: Hamron

INTRODUCTION

This user manual provides detailed instructions for the safe and effective use of your Hamron 6-IN-1 Ear Wax Cleaner and Eyebrow Painless Facial Hair Remover Razor. This versatile kit is designed for personal grooming, offering tools for ear wax removal and facial hair trimming. Please read this manual thoroughly before first use and retain it for future reference.

PRODUCT COMPONENTS

Your Hamron 6-IN-1 kit includes the following items:

- **Ear Wax Removal Tools (6 pieces):**
 - Traditional Ear Pick
 - Spiral Ear Pick
 - Spring Ear Pick
 - Billeau Ear Loop
 - Other assorted ear picks
- Cleaning Brush for ear tools
- Leather Pouch for ear tools
- **Eyebrow Painless Facial Hair Remover Razors (3 pieces):**
 - Precision-designed stainless steel blades
- Storage Bag (for the entire combo)

SAFETY INFORMATION

- Always use the tools gently and with caution.
- Do not insert ear tools too deeply into the ear canal to avoid injury.
- Keep all tools out of reach of children.
- Discontinue use if you experience any pain, discomfort, or irritation. Consult a medical professional if symptoms persist.
- The facial razors are sharp; handle with care to prevent cuts.

OPERATING INSTRUCTIONS

Using the Ear Wax Removal Tools

The ear wax removal tools are designed to safely and effectively remove earwax buildup.

1. **Preparation:** Ensure the ear tools are clean and sterilized before each use. You may soften earwax by applying a few drops of earwax removal solution or warm water into the ear canal a few minutes prior to use.
2. **Selection:** Choose the appropriate tool for your needs.
 - *Traditional Ear Pick:* For general earwax removal.
 - *Spiral Ear Pick:* Designed to gently "screw" out earwax.
 - *Spring Ear Pick:* Flexible design for gentle scraping.
 - *Billeau Ear Loop:* For scooping out larger pieces of wax.
3. **Technique:** Gently insert the chosen tool into the outer part of the ear canal. Slowly and carefully scrape or scoop the earwax out. Avoid pushing wax deeper into the ear. The spiral design can also be used for gentle massage to relieve itching.
4. **Visibility:** It is recommended to use these tools in a well-lit area, ideally with assistance or a mirror, to ensure clear visibility of the ear canal.

Using the Eyebrow and Facial Hair Remover Razors

The facial razors are designed for painless and precise removal of fine facial hair and shaping eyebrows.

- Preparation:** Ensure your skin is clean and dry. For best results, you may apply a thin layer of facial oil or shaving cream.
- Technique:** Hold the razor at a slight angle (approximately 45 degrees) against your skin. Gently glide the razor downwards in short, light strokes, following the direction of hair growth. Avoid applying excessive pressure.
- Areas of Use:** Ideal for shaping eyebrows, removing peach fuzz from the face, and tidying up the bikini area.
- Post-Use:** After shaving, rinse your face with water and apply a soothing moisturizer.

MAINTENANCE AND CLEANING

Proper cleaning and maintenance will extend the life of your Hamron grooming tools.

- **Ear Tools:** After each use, rinse the ear picks thoroughly with soap and warm water. Use the provided small cleaning brush to remove any debris. Sterilize them with rubbing alcohol. Ensure they are completely dry before storing them in the leather pouch.
- **Facial Razors:** After each use, gently rinse the razor blade under running water to remove hair and debris. Do not wipe the blade as this can dull it. Allow the razor to air dry completely before replacing the protective cap.
- **Storage:** Store all tools in their respective pouches or a clean, dry place to prevent damage and maintain hygiene.

TROUBLESHOOTING

If you encounter any issues with your Hamron grooming kit, please refer to the following common solutions:

- **Ear Tools Not Effective:** Ensure earwax is softened before use. If earwax is too hard or deep, consult a medical professional. Do not force the tools.
- **Razor Not Cutting Smoothly:** Ensure the blade is clean and free of debris. Replace the razor if the blade appears dull or damaged.
- **Skin Irritation (Razors):** Ensure skin is clean and moisturized. Use light strokes and avoid pressing too hard. If irritation persists, discontinue use.

SPECIFICATIONS

Feature	Detail
Brand	Hamron
