- **Power Cord:** Periodically check the power cord for any damage.

7. TROUBLESHOOTING

If you encounter issues with your TV, refer to the following common solutions:

Problem	Possible Solution
---------	-------------------

Problem	Possible Solution
No Power	Check if the power cable is securely connected. Ensure the power outlet is working. Try pressing the power button on the TV itself.
No Picture, but Sound is Present	Check the input source. Ensure external devices are powered on and connected correctly.
No Sound, but Picture is Present	Check the volume level and mute status. Verify audio cables for external devices. Check TV audio output settings.
Remote Control Not Working	Replace the batteries. Ensure there are no obstructions between the remote and the TV's IR sensor.
Cannot Connect to Wi-Fi	Check your router and modem. Re-enter the Wi-Fi password. Try restarting the TV and your router.
Apps Not Loading/Crashing	Ensure the TV has a stable internet connection. Try clearing the app's cache or reinstalling the app. Update the TV's software if an update is available.

If the problem persists after trying these solutions, please contact customer support.
