Le Toy Van TV453

Le Toy Van Wooden 3 Storey Fire & Rescue Garage Toy Car Play Set (Model TV453) Instruction Manual

Brand: Le Toy Van | Model: TV453

1. PRODUCT OVERVIEW

The Le Toy Van Wooden 3 Storey Fire & Rescue Garage Toy Car Play Set (Model TV453) is designed to spark interactive and imaginative play for children aged 36 months to 10 years. This beautifully constructed wooden toy features multiple levels, ramps, and interactive elements to encourage creative role-play and develop cognitive skills.

Image 1: The complete Le Toy Van 3 Storey Fire & Rescue Garage Play Set, showcasing its multi-level design, ramps, and included vehicles.

Key features include:

- **3 Storey Design:** Multiple levels for vehicles to navigate.
- **2 Spiral Ramps:** Dynamic ramps for cars to descend.
- **Working Lift:** Manually operated lift to transport vehicles between floors.
- **Emergency Bell:** An interactive bell for emergency alerts.
- **Lifting Emergency Door:** A functional door for fire truck deployment.
- **Included Vehicles:** A unique fire engine and a rescue helicopter with spinning rotors.
- **Sustainable Wood:** Crafted from sustainable wood and decorated with water-based, chip-resistant non-toxic paints.

3. SAFETY INFORMATION

WARNING: Adult supervision is recommended during play.

- This product is a toy.
- Remove all packaging materials before giving the toy to a child. Keep packaging for future reference.
- Check the toy each time before use for any signs of damage or fragility. Dispose of it if any damage is found.
- Keep away from fire or direct heat sources.
- Colors and contents may vary slightly from those shown.
- This toy is suitable for children aged 36 months (3 years) and older.

4. SETUP AND ASSEMBLY

The Le Toy Van Fire & Rescue Garage requires adult assembly. Please follow the included step-by-step instructions carefully. A cross-head screwdriver will be needed (not included). All necessary screws and components are provided in individually labeled packets for ease of identification.

1. Unpack all components and verify against the parts list in the separate instruction manual.
2. Identify the base plate and the main vertical support pillars.
3. Attach the first level of the garage, ensuring all connections are secure.
4. Install the spiral ramps, making sure they are firmly connected to the levels.
5. Assemble and integrate the working lift mechanism into the main tower.
6. Attach the fire station facade with the lifting emergency door.
7. Place the helipad on the top level.
8. Ensure all screws are tightened, but do not overtighten to avoid damaging the wood.

Assembly typically takes approximately 1 hour.

5. OPERATING INSTRUCTIONS

Explore the various interactive features of your Fire & Rescue Garage:

- **Using the Lift:** Place a vehicle onto the lift platform. Turn the knob on the side of the tower to raise or lower the lift, transporting vehicles between the different floors.
- **Driving on Ramps:** Guide the fire engine or other toy cars up and down the two spiral ramps.
- **Emergency Bell:** Ring the emergency bell to signal a call-out for the fire engine.
- **Lifting Emergency Door:** Manually lift the fire station door to allow the fire engine to exit quickly for emergencies.
- **Helicopter Operations:** Land the rescue helicopter on the helipad at the top of the tower. The helicopter features spinning rotors for realistic play.

6. MAINTENANCE

To ensure the longevity and safety of your Le Toy Van Fire & Rescue Garage:

- **Cleaning:** Wipe clean thoroughly before and after use with a damp cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Storage:** Store the toy in a dry place away from direct sunlight and extreme temperatures to prevent warping or fading of the wood.
- **Inspection:** Regularly inspect all parts for any signs of wear, damage, or loose components. Tighten

screws if necessary.

7. TROUBLESHOOTING

If you encounter any issues with your play set, please refer to the following common solutions:

Problem	Possible Cause	Solution
Lift is not moving smoothly.	Mechanism might be stiff or obstructed.	Check for any obstructions. Ensure the string is not tangled. Gently operate the knob to loosen the mechanism.
Parts feel loose after assembly.	Screws may not be fully tightened.	Carefully re-tighten all screws using a cross-head screwdriver. Do not overtighten.
Vehicles do not roll smoothly on ramps.	Ramps may be misaligned or have debris.	Ensure ramps are correctly attached and clear of any small objects.

8. PRODUCT SPECIFICATIONS
