> blunique Waffle Heated Blanket Electric Throw User Manual - Model LY03B-5060

## blunique LY03B-5060

# blunique Waffle Heated Blanket Electric Throw User Manual

Model: LY03B-5060

## 1. IMPORTANT SAFEGUARDS

Please read all instructions carefully before using your blunique Waffle Heated Blanket. Retain this manual for future reference.

- **ETL Certified Safety:** This electric heated blanket is ETL certified, ensuring it meets rigorous safety standards.
- **Overheat Protection:** Equipped with an automatic safety system to prevent overheating.
- **Automatic Shut-off:** Features a customizable auto-off timer (1h-4h for Throw size, 1h-10h for Twin/Full/Queen/King sizes) for worry-free use and energy conservation.
- **Proper Use:** Do not use with infants, children, incapacitated persons, or persons insensitive to heat. Avoid folding or bunching the blanket during operation.
- **Power Cord:** Ensure the power cord is not pinched or damaged. Always insert the plug fully into the electrical outlet.
- **Cleaning:** Always remove the controller and unplug the blanket from the power source before cleaning.
- **Weld Points:** The blanket utilizes cutting-edge spot welding technology to secure heating elements. The intentional and regular pattern of weld points on the fabric are a testament to safety and innovative design, not damage.

## 2. PRODUCT OVERVIEW

The blunique Waffle Heated Blanket combines comfort with advanced heating technology, featuring a soft waffle fleece design on one side and cozy Sherpa material on the reverse. It offers personalized warmth with multiple heat settings and an automatic shut-off timer.

### Key Features:

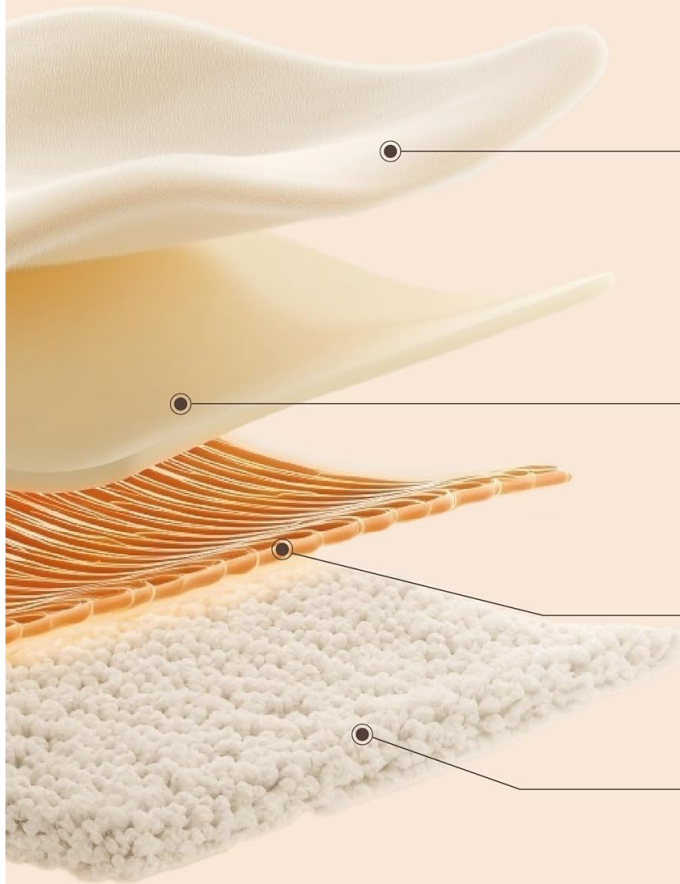

- **Dual-Sided Comfort:** Crafted with 230gsm waffle flannel and 190gsm Sherpa for exceptional softness and warmth.
- **Customizable Heat:** 6 temperature control levels (85°F-113°F) to suit your preference.
- **Digital Display Controller:** Easy-to-use controller with a clear digital display for heat and timer settings.
- **Safety Features:** ETL certified, Overheat Protection, and Automatic Shut-off.
- **Machine Washable:** Detachable controller allows for easy cleaning.

# Soft & Warm

## *Waffle Fleece Design*

Soft and comfortable fleece fabric ensures you'll like the smooth texture from the first touch.

## *Additional Heating Wire Fixing Layer*

Fixed with non-woven layer in our heated blanket to give you a better using experience.

## *High Quality Heating Wire*

Multilayer coil structure provides even distribution of the wire to ensure safety and warmth.

## *Sherpa Material*

Ultra-soft sherpa texture on the back for extra warmth.

## 3. SETUP

Follow these steps to set up your blunique Waffle Heated Blanket:

1. **Unpack:** Carefully remove the blanket and controller from its packaging.
2. **Placement:** Lay the blanket flat on your bed, sofa, or desired surface. Ensure there are no folds or wrinkles.
3. **Connect Controller:** Locate the connector on the blanket and firmly plug in the detachable controller.
4. **Plug In:** Insert the power cord of the controller into a nearby standard electrical outlet. Ensure the plug is fully inserted.

## 4. OPERATING INSTRUCTIONS

---

Your blunique heated blanket is designed for easy operation with its intuitive digital controller.

### Power On/Off:

- Press the **Power button (P)** to turn the blanket on or off. The digital display will illuminate when on.

### Adjusting Heat Levels:

- Press the **Temperature button (T)** to cycle through the 6 heating levels (1-6). The current level will be shown on the display.
- Start with a lower setting and adjust upwards to find your preferred warmth.

### Setting the Auto-Off Timer:

- Press the **Timer button (Q)** to set the automatic shut-off time.
- For Throw size blankets, you can select 1, 2, 3, or 4 hours.
- For Twin, Queen, and King sizes, you can select 1 to 10 hours.
- The blanket will automatically turn off after the selected time, ensuring safety and energy efficiency.

## 5. CARE AND MAINTENANCE

---

To ensure the longevity and performance of your blunique heated blanket, follow these care instructions:

### Before Washing:

- Always unplug the power cord from the wall outlet.
- Detach the controller(s) from the blanket by gently pulling the connector.
- Allow the blanket to cool completely before washing.

### Washing Instructions:

- **Machine Wash:** Use a gentle cycle with cold water.
- **Detergent:** Use a mild detergent.
- **Do Not Bleach:** Avoid using bleach or harsh chemicals.
- **Do Not Iron:** Ironing can damage the heating elements.
- **Avoid Prolonged Rubbing:** Do not rub the fabric excessively during washing.
- **Keep Away from Sharp Objects:** Ensure no sharp objects come into contact with the blanket during washing or storage.

### Drying Instructions:

- **Line Dry:** Hang the blanket to air dry completely.
- **Low-Temperature Drying:** If using a dryer, use a low heat setting and remove promptly.
- **Do Not Tumble Dry:** Avoid high heat tumble drying.

## The Gift of Everyday Warmth

Wrap Your Loved Ones in Cozy,  
Soothing Heat

## 6. TROUBLESHOOTING

If you encounter any issues with your blunique heated blanket, please refer to the following common solutions:

- **Blanket Not Heating:**
  - Ensure the power cord is securely plugged into both the blanket and the wall outlet.
  - Check if the wall outlet is functional by plugging in another appliance.
  - Verify the controller is turned on and a heat level is selected.
- **Display Not Working:**
  - Unplug the blanket from the wall outlet for a few minutes, then plug it back in.

- Ensure the controller is firmly connected to the blanket.
- **Uneven Heating or "Burn Holes":**
  - The blanket uses spot welding technology to secure heating elements. The intentional and regular pattern of weld points on the fabric are part of the design and not defects or damage. These ensure even heating and safety.
  - Ensure the blanket is laid flat and not folded or bunched during use, which can cause heat to concentrate.
- **Controller Error Code:**
  - If an error code appears on the digital display, unplug the blanket immediately.
  - Wait 10-15 minutes, then plug it back in. If the error persists, contact customer support.
