4. SETUP GUIDE

1. **Unboxing:** Carefully remove all components from the packaging. Retain packaging for future storage or transport.

2. **Placement:** Place the main unit on a stable, flat surface away from direct sunlight, heat sources, and excessive dust or moisture. Ensure adequate ventilation around the unit.

3. **Speaker Connection:** Connect the included external speakers to the speaker output ports on the main unit. Ensure correct polarity (positive to positive, negative to negative).

4. **Power Connection:** Plug the AC power cord into a standard wall outlet. The unit has an on-mode power consumption of 25 watts.

5. **Initial Power On:** Press the Power button on the unit or the remote control to turn on the device.

5. OPERATING INSTRUCTIONS

5.1. Vinyl Record Playback

1. Lift the dust cover.

2. Place a vinyl record on the turntable platter.

3. Select the appropriate speed (33 1/3, 45, or 78 RPM) using the speed selector switch located near the platter. Use the 45 RPM adapter for 7-inch records.

4. Release the tone arm lock.

5. Gently lift the tone arm using the cueing lever and position it over the desired track of the record.

6. Lower the tone arm slowly onto the record using the cueing lever. Playback will begin.

7. At the end of the record, the auto-stop function will stop the platter (if enabled). Lift the tone arm and return it to its rest.
