PACKAGE CONTENTS

Please verify that all items are present in the package:

- HP DHS-2111 Wired Speaker (2 units)
- Integrated 3.5mm Audio Jack Cable
- Integrated USB Power Cable (1.2m)
- Wired Volume Controller (integrated)

SETUP INSTRUCTIONS

Follow these steps to set up your HP DHS-2111 Wired Speakers:

1. **Speaker Placement:** Position the two speaker units on a flat, stable surface. The angled design is intended to

optimize sound dispersion and save space.

Space saving design, wide spreading volume

OPERATING INSTRUCTIONS

Once connected, your speakers are ready for use.

Adjusting Volume

The HP DHS-2111 speakers feature a wired in-line volume controller for convenient audio adjustment.

- Locate the wired volume controller on the speaker cable.
- Rotate the dial on the controller clockwise to increase volume.
- Rotate the dial on the controller counter-clockwise to decrease volume.

Seamless audio control

Enjoy easy access to a wired volume controller that allows you to adjust the volume levels.

Device Compatibility

These speakers are compatible with any device that has a standard 3.5mm audio output jack and a USB port for power. This includes, but is not limited to:

- Personal Computers (PCs)
- Laptops
- Smartphones
- Tablets
- MP3 Players

Any device, any time

PC and phone
compatible

Supports other 3.5 mm
audio devices

MAINTENANCE

Proper care ensures the longevity of your speakers:

- **Cleaning:** Use a soft, dry cloth to wipe the speaker surfaces. Do not use liquid cleaners or abrasive materials.
- **Storage:** Store speakers in a cool, dry place away from direct sunlight and extreme temperatures.
- **Water Resistance:** These speakers are **NOT** water resistant. Avoid exposure to liquids to prevent damage.
- **Cable Care:** Do not pull on the cables forcefully. Always grasp the plug when disconnecting.

TROUBLESHOOTING

If you encounter issues, refer to the following common solutions:

No Sound

- **Check Connections:** Ensure the 3.5mm audio jack is fully inserted into your device's audio output and the USB power cable is securely connected to a working USB port.
- **Volume Level:** Verify that the wired volume controller is turned up and your device's volume is not muted or set too low.
- **Audio Source:** Confirm that your device is playing audio and the correct audio output device is selected in your system settings.
- **Test with Another Device:** Try connecting the speakers to a different device to determine if the issue is with the speakers or the original audio source.

Distorted or Low Quality Sound

- **Volume Adjustment:** Reduce the volume on both the speakers and your device. High volume levels can sometimes cause distortion.
- **Audio Source Quality:** Ensure the audio file or streaming service quality is high. Low-quality sources can result in poor sound.
- **Interference:** Move speakers away from other electronic devices that might cause interference.

SPECIFICATIONS

Feature	Detail
Model Name	HP DHS-2111 Wired Speaker
Item Model Number	8C575AA
Speaker Type	Multimedia
Surround Sound Channel Configuration	2.0
Connectivity Technology	Auxiliary (3.5mm audio jack)
Power Source	Corded Electric (USB 5V)
Wattage	6 Watts (Total)
Speaker Maximum Output Power	5 Watts
Impedance	40 Ohms
Control Method	Wired Volume Controller
Product Dimensions (each speaker)	64D x 55W x 78H Centimeters
Item Weight	270 Grams
Colour	Black
Water Resistance Level	Not Water Resistant
Included Components	Speaker (2 units)
Country of Origin	China
