SAFETY INFORMATION

- Always ensure all bolts and screws are securely tightened before use.
- The upper bunk is intended for use with safety rails. Do not remove them.
- Only one person should occupy the upper bunk at a time.
- Do not allow children to play on or under the bunk bed without supervision.
- Ensure the mattress size is compatible with the bed frame dimensions.

SETUP AND ASSEMBLY

Assembly of the Moimhear bunk bed is designed to be straightforward. It is highly recommended that **two people** participate in the assembly process to ensure ease and safety.

The bed comes with detailed instructions and a simple assembly tool. Please follow the step-by-step guide provided in the

OPERATING INSTRUCTIONS

Using the Trundle Bed:

The trundle bed is designed to slide smoothly from underneath the lower bunk. To use, gently pull the trundle frame outwards using the integrated handles until it is fully extended. To store, push the trundle back into its position under the lower bunk.

MAINTENANCE

Cleaning:

To clean the metal frame, wipe with a soft, damp cloth. Avoid using abrasive cleaners or harsh chemicals, as these may damage the finish. Dry immediately with a clean cloth.

Regular Checks:

Periodically inspect all bolts, screws, and connections to ensure they remain tight. Re-tighten as necessary to maintain the bed's stability and safety. This is particularly important for the trundle bed's wheels and frame connections.

TROUBLESHOOTING

- **Difficulty Assembling:** If you encounter difficulties during assembly, double-check that all parts are correctly identified and oriented according to the manual. Ensure all screws are only hand-tightened until the entire frame is aligned, then fully tighten. It is crucial to have two people for assembly.
- **Missing Parts:** In the event of missing components, please refer to the "Support" section for contact information. Do not attempt to assemble the bed with incomplete parts.
- **Bed Noise:** If the bed produces noise, especially the trundle, it may indicate loose connections. Re-tighten all bolts and screws on the entire frame, paying close attention to the trundle mechanism. Ensure the bed is on a level surface.
