Moimhear Metal Bunk Bed with Trundle Bed Instruction Manual

Model: WX000124

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, maintenance, and troubleshooting of your Moimhear Metal Bunk Bed with Trundle Bed. Please read these instructions carefully before beginning assembly and retain them for future reference.

This bunk bed features a robust steel frame designed for stability and durability, offering a space-saving solution with an integrated trundle bed. It includes reinforced rails on the upper bunk and two safety ladders for enhanced user safety.

IMPORTANT SAFETY INFORMATION

- Always follow assembly instructions precisely.
- Ensure all connections are securely tightened before use.
- The upper bunk is equipped with reinforced rails to prevent falls. Do not remove or modify these rails.
- Use only mattresses of the specified size to ensure proper fit and safety.
- Maximum weight capacity for the upper bunk: 120 kg.
- Maximum weight capacity for the lower bunk: 120 kg.
- Maximum weight capacity for the trundle bed: 80 kg.
- Do not allow children under 6 years of age on the upper bunk.
- Periodically check all bolts and connections to ensure they remain tight.

SETUP AND ASSEMBLY

Assembly of the Moimhear Metal Bunk Bed requires two people for optimal ease and safety. The package includes detailed instructions and a simple assembly tool. Please ensure all components are present before beginning.

Preparation:

- Unpack all components and lay them out on a clean, soft surface to prevent scratches.

- Verify that all parts listed in the instruction manual are present. Refer to the included parts list.
- Identify each part by its label or shape.

Assembly Steps:

1. Begin by assembling the main frame components as indicated in the step-by-step diagrams provided in the separate assembly guide.
2. Attach the support slats for both the upper and lower bunks. Ensure they are evenly spaced and securely fastened.
3. Install the safety rails on the upper bunk. Confirm they are firmly attached and stable.
4. Assemble and attach the two safety ladders to the designated points on the bunk bed frame.
5. Assemble the trundle bed frame and install its wheels. Ensure the trundle slides smoothly.
6. Once fully assembled, double-check all bolts and connections to ensure they are tight and secure.

Image: Fully assembled Moimhear Metal Bunk Bed in silver, with a mattress on the upper and lower bunks, and the trundle bed pulled out. The bed is set in a room with light-colored walls and a patterned rug.

Image: A silver metal bunk bed with the trundle bed fully extended from underneath the lower bunk. The upper bunk has safety rails and a ladder on the left side. The lower bunk is a double size, and the trundle is a single size.

OPERATION

Using the Bunk Bed:

- The upper bunk is designed for single occupancy.
- The lower bunk can accommodate a larger mattress, suitable for one or two occupants.
- Access the upper bunk using the integrated ladders on either side of the bed.

Using the Trundle Bed:

- The trundle bed is located beneath the lower bunk and can be easily pulled out when needed.
- It is equipped with wheels for smooth extension and retraction.
- The trundle bed provides an additional sleeping space, ideal for guests or siblings.

MAINTENANCE

- **Cleaning:** Wipe the metal frame with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Tightening Bolts:** Periodically (e.g., every 3-6 months) check all bolts and screws to ensure they are tight. Loose connections can lead to instability and noise.
- **Inspection:** Regularly inspect the bed frame for any signs of wear, damage, or bending. Address any issues promptly.
- **Lubrication:** If the trundle bed wheels become stiff or noisy, a small amount of silicone-based lubricant can be applied to the wheel axles.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Bed is wobbly or unstable.	Loose bolts or incorrect assembly.	Ensure all bolts are securely tightened. Review assembly instructions to confirm correct setup.
Bed makes noise (squeaking/creaking).	Loose connections or friction between metal parts.	Tighten all bolts. Apply a small amount of lubricant (e.g., silicone spray) to connection points if noise persists.
Trundle bed does not slide smoothly.	Wheels are dirty, damaged, or need lubrication.	Clean wheels and tracks. Check for obstructions. Apply lubricant to wheels if necessary.
Missing parts upon delivery.	Packaging error or transit damage.	Contact Moimhear customer support immediately with your purchase details and a list of missing parts.
Difficulty during assembly.	Complex steps or mislabeled parts.	Ensure two people are assembling. Carefully re-read instructions and cross-reference part labels with diagrams. Contact support if stuck.

PRODUCT SPECIFICATIONS

Feature	Detail
Brand	Moimhear
Model Number	WX000124
Color	Silver
Material	Metal
Overall Dimensions (L x W x H)	204 x 145 x 160 cm (80.3 x 57.1 x 63 inches)
Item Weight	54 kg (119 lbs)
