

JBL JBLAUTH200BLKAM

JBL Authentics 200 Smart Home Speaker User Manual

MODEL: JBLAUTH200BLKAM

Introduction

The JBL Authentics 200 is a retro-styled smart home speaker designed to deliver powerful sound with modern versatility. It features a distinctive Quadrex grille, a custom leather-like enclosure, and a premium aluminum frame, blending iconic 70s aesthetics with contemporary audio technology.

This speaker provides big, balanced sound with amazing clarity and deep bass, suitable for any room in your home. It integrates seamlessly with both Google Assistant and Amazon Alexa, allowing for hands-free control of music playback and smart home devices. Enjoy high-definition audio streaming via built-in Wi-Fi, AirPlay, Alexa Multi-Room Music (MRM), Chromecast built-in, and Spotify Connect, or connect effortlessly via Bluetooth.

The JBL Authentics 200 speaker in black and gold, showcasing its retro design and premium finish.

What's in the Box

Upon unboxing your JBL Authentics 200, please ensure all the following components are present:

- JBL Authentics 200 Speaker
- Power Cable
- Quick Start Guide
- Safety Sheet
- Warranty Card

Setup

1. **Power Connection:** Connect the provided power cable to the JBL Authentics 200 and then to a wall outlet. The speaker will power on automatically.
2. **Download JBL One App:** For initial setup and full functionality, download the JBL One app from your

device's app store. The app will guide you through connecting the speaker to your Wi-Fi network.

3. **Wi-Fi Setup:** Follow the in-app instructions to connect your speaker to your home Wi-Fi network. A stable Wi-Fi connection is essential for smart features, voice assistants, and high-quality streaming.
4. **Voice Assistant Integration:** Within the JBL One app, you can link your Amazon Alexa and Google Assistant accounts. This enables hands-free voice control for music, smart home devices, and more.
5. **Automatic Self-Tuning:** The speaker automatically calibrates and optimizes its audio performance for its specific location each time it powers up, ensuring optimal sound quality wherever it is placed.

Inspired by retro design

JBL AUTHENTICS 200

The top panel of the JBL Authentic 200 features intuitive controls for volume, bass, and treble adjustments.

Operating Instructions

Sound and Performance

The JBL Authentic 200 is engineered for superb sound. It features 25mm tweeters for detailed highs and a

full-range 5-inch woofer complemented by a 6-inch passive radiator for deep, resonant bass. This configuration ensures a balanced and clear audio experience across all frequencies.

Superb sound and performance

JBL AUTHENTICS 200

The JBL Authenticity 200 delivers powerful and clear audio performance.

Music Streaming Services via Built-in Wi-Fi

Leverage the built-in Wi-Fi for high-definition audio streaming. The speaker supports various platforms including AirPlay, Alexa Multi-Room Music (MRM), Chromecast built-in, and Spotify Connect, providing interruption-free playback of podcasts, internet radio, and your favorite music libraries.

Seamless Bluetooth Pairing

For quick and easy audio playback from any device, simply pair your smartphone, tablet, or laptop with the JBL Authenticity 200 via Bluetooth. This allows for seamless sharing of playlists and audio content.

Intuitive Controls and JBL One App

Adjust volume, bass, and treble directly using the physical controls on the speaker's top panel. For more comprehensive customization options, download and use the JBL One app. The app provides detailed settings and controls for your speaker.

Multi-Room Playback

Expand your audio experience by placing multiple JBL Authentics speakers throughout your home. Using the Google Home app or Amazon Alexa app, you can connect two or more speakers to a single playlist, creating a synchronized multi-room audio system for gatherings or whole-home listening.

Voice Assistants

The JBL Authentics 200 offers simultaneous access to both Amazon Alexa and Google Assistant. Use voice commands to play music, control smart home devices, get information, and more, all hands-free.

The JBL Authentics 200 supports both Amazon Alexa and Google Assistant for convenient voice control.

Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the speaker's surfaces. Avoid using abrasive cleaners, waxes, or solvents as they may damage the finish.
- **Liquid Exposure:** Keep the speaker away from liquids. Do not expose it to dripping or splashing, and do not place objects filled with liquids, such as vases, on the speaker.
- **Ventilation:** Ensure proper ventilation around the speaker. Do not block any ventilation openings.
- **Storage:** When not in use for extended periods, store the speaker in a cool, dry place, away from direct sunlight and extreme temperatures.

Troubleshooting

| Issue | Possible Cause | Solution |
|--------------------------------|--|--|
| No Power | Power cable not connected; Power outlet issue. | Ensure power cable is securely connected to speaker and a working outlet. Try a different outlet. |
| No Sound | Volume too low; Muted; Incorrect input source; Connectivity issue. | Increase volume. Check if speaker is muted. Verify correct input source (Wi-Fi, Bluetooth, Aux). Reconnect Wi-Fi or Bluetooth. |
| Wi-Fi Disconnection | Weak Wi-Fi signal; Router issue; Speaker too far from router. | Move speaker closer to router. Restart router. Reconfigure Wi-Fi via JBL One app. Consider wired Ethernet connection if available. |
| Bluetooth Pairing Issues | Speaker not in pairing mode; Device too far; Interference. | Ensure speaker is in Bluetooth pairing mode. Move device closer. Turn off other Bluetooth devices. Forget and re-pair device. |
| Voice Assistant Not Responding | Microphone muted; Internet connection issue; Account not linked. | Check if microphone is enabled. Verify stable internet connection. Ensure Alexa/Google accounts are correctly linked in JBL One app. |
| Sound Distortion | Volume too high; Poor audio source quality. | Reduce volume. Try a different audio source or file. |

If you encounter issues not listed here, or if the suggested solutions do not resolve the problem, please refer to the JBL One app for further assistance or contact JBL customer support.
