## SETUP

---

1. **Initial Charge:** Before first use, fully charge the tablet using the provided charger and data line. Connect the Type-C cable to the tablet's port and the charger to a power outlet.
2. **Power On:** Press and hold the Power Button until the DOOGEE logo appears on the screen.
3. **Language and Region:** Follow the on-screen prompts to select your preferred language and region.
4. **Wi-Fi Connection:** Connect to a Wi-Fi network to access the internet and complete the setup process. Navigate to Settings > Network & internet > Wi-Fi and select your network.
5. **Google Account:** Sign in with your Google account or create a new one to access the Google Play Store and other Google services.
6. **Security Setup:** Set up a screen lock (PIN, pattern, password, or Face Unlock) for device security.
7. **Insert Micro-TF Card (Optional):** If you wish to expand storage, use the card removal needle to open the SIM/Micro-TF tray and insert your Micro-TF card.

Your tablet is now ready for use.

## OPERATING INSTRUCTIONS

---

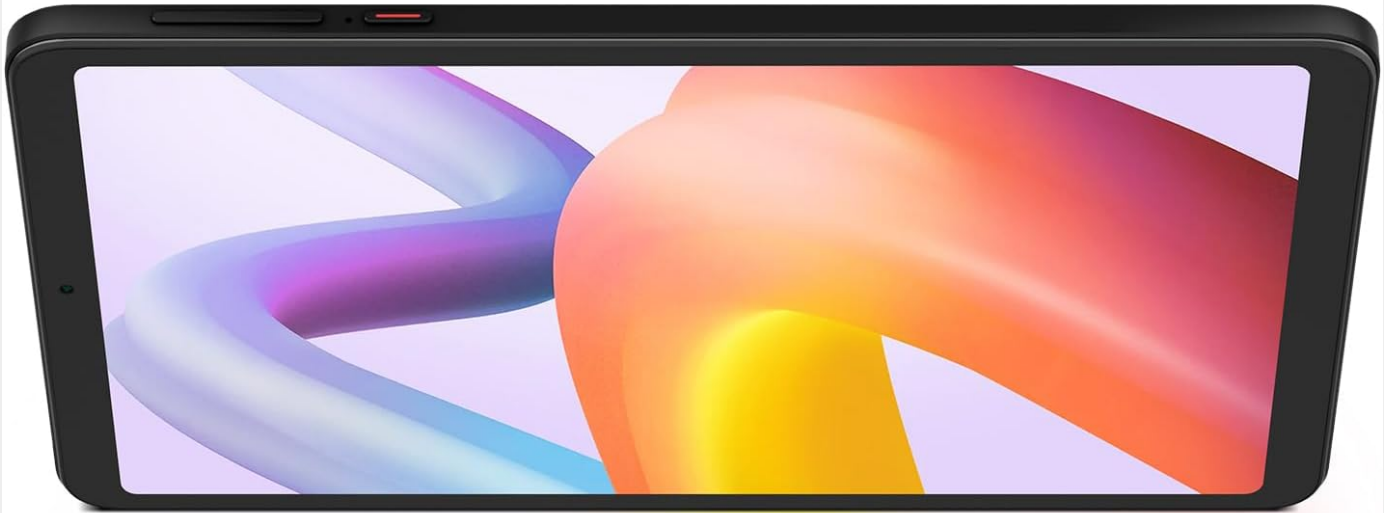

### Display and Visual Experience

The DOOGEE T20 Mini Tablet features an 8.4-inch FHD+ display with a resolution of 1920x1080 pixels, providing clear and vibrant visuals for various activities.

## MAINTENANCE

- **Cleaning:** Use a soft, lint-free cloth to clean the screen and body. Avoid abrasive cleaners or solvents.
- **Storage:** Store the tablet in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge it regularly, ideally keeping the charge between 20% and 80%.
- **Software Updates:** Regularly check for and install system updates to ensure optimal performance and security.

## TROUBLESHOOTING

Problem	Possible Solution
---------	-------------------

Problem	Possible Solution
Tablet does not power on.	Ensure the battery is charged. Connect the charger and wait a few minutes before attempting to power on again. If unresponsive, press and hold the power button for 10-15 seconds for a forced restart.
Wi-Fi connection issues.	Restart the tablet and your Wi-Fi router. Forget the network in tablet settings and reconnect. Ensure you are within range of the Wi-Fi signal.
Slow performance or app crashes.	Close unused applications. Clear cache for problematic apps (Settings > Apps > [App Name] > Storage > Clear cache). Ensure sufficient free storage space. Restart the tablet.
Face Unlock not working.	Ensure sufficient lighting. Clean the front camera lens. Re-register your face data in security settings.
