

VOCOLinc VHI

VOCOLinc 2.5L Smart Cool Mist Humidifier

Model: VHI - User Manual

1. INTRODUCTION

Thank you for choosing the VOCOLinc 2.5L Smart Cool Mist Humidifier. This device is designed to improve your indoor air quality by adding moisture to the air, helping to alleviate dry skin, irritated sinuses, and other discomforts caused by dry environments. It features smart controls, customizable lighting, and an aromatherapy function. Please read this manual thoroughly before operation and retain it for future reference.

2. SAFETY INSTRUCTIONS

To ensure safe operation and prevent damage, please observe the following safety precautions:

- Always place the humidifier on a firm, flat, waterproof surface away from direct sunlight and heat sources.
- Do not place the humidifier directly on carpet or a towel.
- Keep the humidifier out of reach of children and pets.
- Do not immerse the base unit in water or other liquids.
- Unplug the humidifier before filling, cleaning, or moving it.
- Use only clean, cool tap water. Distilled or demineralized water is recommended to prevent mineral buildup.
- Do not add essential oils directly into the water tank; use the designated aromatherapy tray.
- Do not block the mist outlet.
- If the humidifier is damaged, do not operate it. Contact customer support.

3. PACKAGE CONTENTS

Carefully unpack your humidifier and ensure all items are present:

- VOCOLinc Smart Cool Mist Humidifier (Model VHI)

- Adapter
- Cleaning Brush
- User Manual (this document)

4. PRODUCT OVERVIEW

Familiarize yourself with the components of your humidifier:

A front view of the VOCOLINC Smart Humidifier, highlighting its sleek design and the accessible control buttons on the base.

- **Water Tank:** Holds up to 2.5 liters of water.
- **Base Unit:** Contains the ultrasonic atomizer, control panel, and smart components.
- **Mist Outlet:** Where the cool mist is dispersed.
- **Control Panel:** Buttons for power, mist level, and light control.
- **Aromatherapy Tray:** Small tray for adding water-soluble essential oils.

5. SETUP

1. **Placement:** Place the humidifier on a flat, stable, and waterproof surface at least 6 inches (15 cm) away from walls and furniture. Ensure the mist outlet is not directed at any objects.
2. **Filling the Water Tank:**

Easy to Refill & Clean

Thanks to the large opening and top-fill design

Add water-soluble essential oils to relax and relieve stress

This image demonstrates the easy top-fill design of the humidifier, with water being poured directly into the reservoir. It also shows the addition of water-soluble essential oils, highlighting its dual function as an aromatherapy diffuser.

- Remove the top cover of the humidifier.
- Pour clean, cool tap water directly into the water tank up to the MAX fill line. Do not overfill.
- Replace the top cover securely.

3. **Power Connection:** Plug the adapter into the humidifier's power port, then plug the adapter into a standard electrical outlet. The humidifier will enter standby mode.

6. OPERATING INSTRUCTIONS

6.1 Basic Controls

- **Power On/Off:** Press the power button (ⓘ) on the control panel to turn the humidifier on or off.
- **Mist Level Adjustment:** Press the mist button (|||) repeatedly to cycle through three mist output levels: Low, Medium, and High.

6.2 Smart Features (App & Voice Control)

This image shows the VOCOLinc Smart Humidifier being controlled wirelessly. A user is interacting with a tablet, demonstrating app control, while a voice assistant device is also visible, indicating voice control capabilities with platforms like Alexa, Google Home, and Apple HomeKit.

1. **App Connection:** Download the VOCOLinc app from your device's app store. Follow the in-app instructions to connect your humidifier to your home Wi-Fi network and integrate it with Apple HomeKit, Alexa, or Google Home.
2. **Voice Control:** Once connected, you can use voice commands through compatible devices (e.g., "Alexa, turn on the humidifier," "Hey Google, set humidifier to high mist," "Siri, set humidity to 50%").
3. **Auto-target Humidity:**

Auto-target Humidity

automatically adjust humidity levels to maintain target humidity

This image displays the mobile application interface for the VOCOLinc humidifier, showing how users can set and monitor target humidity levels. The app allows for automatic adjustment to maintain desired environmental conditions.

Using the VOCOLinc app, you can set a desired target humidity level. The humidifier will automatically monitor the room's humidity and adjust its operation to maintain the set level, turning on and off as needed.

4. **Scheduling:** Create custom schedules via the app to automate the humidifier's operation based on your daily routine.

6.3 Customizable Lighting

Personalize Your RGB Light

This image illustrates the humidifier's ability to personalize its RGB light, showing the device emitting various colors. It emphasizes the 16 million color options available to create different ambiances.

- Press the light button (L) on the control panel to cycle through preset light modes or turn the light off.
- For full customization, use the VOCOLinc app to select from 16 million colors and various lighting effects.
- The light can function independently as a nightlight.

6.4 Aromatherapy Function

- Locate the aromatherapy tray on the side or back of the humidifier.
- Add a few drops of water-soluble essential oil to the aromatherapy tray. Do not add oil directly into the

water tank.

- The humidifier will diffuse the aroma along with the mist.

6.5 Automatic Safety Features

Make You Sleep Comfortably All Night

10dB Falling Leaves

28dB Ours

40dB Library

50dB Refrigerator

BPA-Free

Waterless Auto-off

Running Sound <35dB

Nightlight

Children Lock

The advertisement features a central image of a white and yellow humidifier on a bedside table next to a sleeping child. Above the humidifier, a sound level comparison chart shows a wavy line with four peaks. The first peak is labeled '10dB Falling Leaves' with a leaf icon. The second peak is labeled '28dB Ours' with a small humidifier icon. The third peak is labeled '40dB Library' with a bookshelf icon. The fourth peak is labeled '50dB Refrigerator' with a refrigerator icon. Below the humidifier, five circular icons represent features: a leaf for 'BPA-Free', a water drop with a slash for 'Waterless Auto-off', a speaker with an 'x' for 'Running Sound <35dB', a lightbulb for 'Nightlight', and a padlock for 'Children Lock'. The background is a dark bedroom scene with a child sleeping in a bed.

The humidifier is shown in a bedroom next to a sleeping child, indicating its quiet operation (28dB) and features like BPA-free materials, waterless auto-off, nightlight function, and child lock for safe use during sleep.

- **Waterless Auto-off:** The humidifier will automatically shut off when the water level is too low, indicated by a red LED. This prevents damage to the unit.
- **Child Lock:** The app may offer a child lock feature to prevent unintended changes to settings.

7. MAINTENANCE

Regular cleaning and maintenance are essential for optimal performance and longevity of your humidifier.

7.1 Daily Maintenance

- Unplug the humidifier.
- Empty any remaining water from the tank and base.
- Rinse the water tank and base with fresh water.
- Wipe dry with a clean cloth.

7.2 Weekly Cleaning

- Unplug the humidifier.
- Remove the top cover and empty the water tank.
- Fill the water tank with 1 cup (240ml) of white vinegar and let it soak for 30 minutes to loosen mineral buildup.
- Use the provided cleaning brush to gently scrub the ultrasonic atomizer and the inside of the water tank.
- Rinse all components thoroughly with clean water until the vinegar smell is gone.
- Wipe all surfaces dry with a clean cloth before reassembling.

7.3 Storage

When not in use for an extended period, clean the humidifier thoroughly as per weekly cleaning instructions. Ensure all parts are completely dry. Store the humidifier in its original packaging in a cool, dry place.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
No mist or low mist output	No water in tank Mineral buildup on atomizer Mist outlet blocked	Refill water tank. Clean the atomizer with the cleaning brush and vinegar solution. Ensure mist outlet is clear.
Humidifier not turning on	Not plugged in No power to outlet Waterless auto-off activated	Check power connection. Test outlet with another device. Refill water tank.
Unpleasant odor from mist	Stagnant water Dirty water tank/base	Empty and refill water daily. Perform weekly cleaning.
Humidifier not connecting to app/voice assistant	Incorrect Wi-Fi password Out of Wi-Fi range App/device issues	Double-check Wi-Fi credentials. Move humidifier closer to router. Restart humidifier, app, and router. Consult app's troubleshooting guide.
