AONELAS B0CCNKPR46

AONELAS 1800ML Portable Dehumidifier User Manual

Model: B0CCNKPR46

1. IMPORTANT SAFETY INFORMATION

Please read this manual carefully before using the AONELAS Portable Dehumidifier. Keep these instructions for future reference.

- Ensure the dehumidifier is placed on a stable, level surface.
- Do not block the air inlet or outlet.
- Do not immerse the unit, power cord, or plug in water or other liquids.
- Unplug the unit before cleaning or maintenance.
- Keep out of reach of children.
- Do not operate if the power cord or plug is damaged.
- This appliance is for indoor use only.

2. PRODUCT OVERVIEW

The AONELAS Portable Dehumidifier is designed to efficiently remove excess moisture from the air, improving indoor air quality and preventing issues like mold, mildew, and dampness.

Make Your Life Better

Not only dehumidify but also fresh the air, creating a comfortable space.

The dehumidifier helps to alleviate common household problems caused by excess moisture, such as damp clothes, musty odors, wet walls, water condensation, frosting, and wood damage.

Key Features:

- **Efficient Dehumidification:** Effectively reduces indoor humidity to prevent mold and protect furniture.
- **1.8 Liter Water Tank:** Sufficient capacity with automatic shut-off when full.
- **Timer Function:** Programmable shut-off after 6, 8, or 10 hours.
- **Energy Saving:** Low power consumption (21 Watts).
- **Quiet Operation:** Operates below 30 dB in sleep mode.

- **7-Color LED Ambient Light:** Optional multi-color lighting for ambiance.
- **Automatic Defrost:** Ensures continuous operation in cooler environments.

Product Components:

Familiarize yourself with the main parts of your dehumidifier.

Image showing the AONELAS dehumidifier with its dimensions (5.12, 6.38, 9.84 inches) and control panel icons for Power, Light Mode, Sleep Mode, Timer (6/8/10H), and Auto Defrost.

- **Control Panel:** Located on the top front, with touch buttons for various functions.

- **Air Inlet/Outlet:** Grilles for air circulation.
- **Water Tank:** Removable tank at the bottom front for collecting condensed water.
- **Power Cord:** For connecting to an electrical outlet.

3. SETUP

1. **Unpacking:** Carefully remove the dehumidifier from its packaging. Retain packaging for future storage or transport.
2. **Placement:**

Place the dehumidifier on a firm, level surface in the desired room. Ensure there is at least 20 cm (8 inches) of space around the air inlet and outlet for proper airflow.

Bedroom

Improve sleep quality and create a comfortable environment.

Office

Reduce pollutants, odors and dust.

Cloakroom

Prevent clothes from getting wet.

Bathroom

Remove excess moisture.

The dehumidifier is suitable for various rooms such as bedrooms, offices, cloakrooms, and bathrooms to improve air quality and reduce moisture.

3. **Power Connection:** Plug the power cord into a suitable electrical outlet.
4. **Initial Use:** For optimal performance, allow the unit to stand upright for at least 2 hours before first use if it was

transported horizontally.

4. OPERATING INSTRUCTIONS

The control panel features intuitive touch buttons for easy operation.

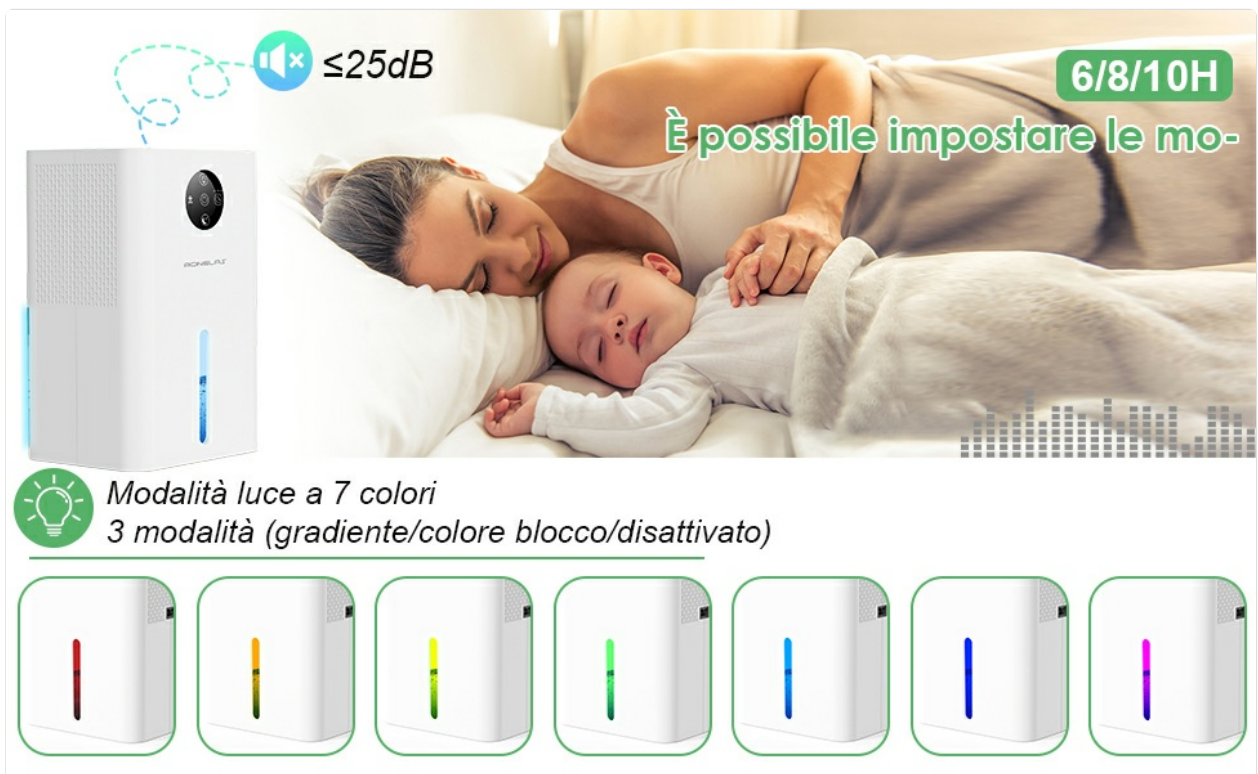

Control Panel Functions:

- **Power Button** (): Press to turn the dehumidifier ON or OFF.
- **Light Mode Button** (): Press to cycle through 7-color ambient light modes (gradient, fixed color, off).
- **Sleep Mode Button** (): Activates sleep mode for quieter operation (below 30 dB).
- **Timer Button** (): Sets the automatic shut-off timer for 6, 8, or 10 hours.
- **Auto Defrost Indicator** (*): Illuminates when the automatic defrost function is active.

Operating Modes:

1. Standard Dehumidification:

Press the Power button to turn on the unit. It will begin dehumidifying immediately. The unit is designed to remove up to 450ml (16oz) of moisture per day in an 86°F, 80% RH environment.

≤25dB

6/8/10H

È possibile impostare le mo-

Modalità luce a 7 colori
3 modalità (gradiente/colore blocco/disattivato)

The dehumidifier features a 63oz (1800ml) water tank and can remove up to 16oz (450ml) of moisture daily, suitable for areas between 270 sq.ft and 860 sq.ft.

2. Sleep Mode:

Press the Sleep Mode button to activate a quieter operation, ideal for use during sleep or in quiet environments. The noise level will be controlled to less than 30 decibels.

Sleep Mode & 7 Color Lights

7-color lighting cycle and monochrome lighting rock.

The dehumidifier offers a quiet sleep mode and features a 7-color lighting cycle, making it suitable for bedrooms.

3. **Timer Function:**

Press the Timer button repeatedly to set the desired operating duration (6, 8, or 10 hours). The unit will automatically turn off after the set time.

4. **LED Ambient Light:**

Press the Light Mode button to turn on the 7-color LED ambient light. Press again to cycle through different colors or turn it off.

5. MAINTENANCE

Emptying the Water Tank:

When the water tank is full, the dehumidifier will automatically shut off, and a red indicator light will illuminate to remind you to empty it.

1. Turn off the dehumidifier and unplug it from the power outlet.
2. Carefully pull out the water tank from the front of the unit.
3. Pour out the collected water.
4. Slide the empty water tank back into the unit until it clicks into place.
5. Plug in the dehumidifier and turn it on to resume operation.

Cleaning the Unit:

- Wipe the exterior of the dehumidifier with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Periodically clean the air inlet and outlet grilles to prevent dust buildup, which can affect performance. Use a soft brush or vacuum cleaner.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Dehumidifier does not turn on.	No power supply. Water tank is full or incorrectly installed.	Check if the unit is properly plugged in. Empty and re-install the water tank correctly.
No water collected or low dehumidification.	Room humidity is already low. Air inlets/outlets are blocked. Room temperature is too low.	Dehumidifier will collect less water in drier conditions. Ensure clear space around the unit. Dehumidifiers are less effective below 5°C (41°F).
Unit is noisy.	Unit is not on a level surface. Air filter (if applicable) is dirty.	Place the unit on a flat, stable surface. Clean the air filter/grilles.
Red indicator light is on.	Water tank is full.	Empty the water tank.
