1. **Unpacking:** Carefully remove the jewelry box from its packaging. Inspect for any signs of damage during transit.

3. **Initial Cleaning:** Before placing jewelry inside, gently wipe the exterior with a soft, dry cloth. Ensure the flocked lining is free of any dust or debris.

## OPERATING INSTRUCTIONS

### Organizing Your Jewelry:

- **Top Compartment:** Lift the lid to access the top compartment. This area is typically divided into smaller sections

suitable for rings, earrings, and smaller pendants. The built-in mirror is located on the underside of the lid.

- **Drawers:** Gently pull out each drawer to access its contents. The drawers are designed with various layouts to accommodate different types of jewelry, such as bracelets, necklaces, and larger items.

## MAINTENANCE

- **Cleaning the Exterior:** Use a soft, dry, lint-free cloth to wipe the wooden exterior. For stubborn marks, a slightly damp cloth can be used, followed immediately by a dry cloth. Avoid abrasive cleaners or harsh chemicals.
- **Cleaning the Interior:** The flocked fabric lining should be cleaned with a soft brush or a lint roller to remove dust and debris. Do not use liquid cleaners on the fabric.
- **Mirror Care:** Clean the mirror with a glass cleaner and a soft cloth. Spray the cleaner onto the cloth, not directly onto the mirror, to prevent liquid from seeping into the edges.
- **Protection:** Keep the jewelry box away from direct sunlight, heat sources, and excessive moisture to prevent warping or damage to the wood and lining.
