SETUP

1. Unboxing

Carefully remove the watch from its packaging. Inspect the watch for any visible damage. The watch comes in a protective box.

2. Setting the Time

1. Pull the crown (the small knob on the side of the watch) out to the first position.
2. Rotate the crown clockwise or counter-clockwise to set the hour and minute hands to the correct time.
3. Once the time is set, push the crown back into its original position to start the watch movement.

3. Adjusting the Strap

The red leather strap features a buckle closure. Adjust the strap by inserting the pin into the desired hole for a comfortable fit on your wrist. Ensure the watch is snug but not too tight to allow for proper circulation.

OPERATING THE WATCH

Your GUESS watch is designed for simple operation. Once the time is set, the watch will continuously display the current time.

- **Time Display:** The watch features an analog dial with hour and minute hands.
- **Battery Life:** The watch is powered by a D battery (included). Battery life varies depending on usage.

MAINTENANCE

Cleaning Your Watch

- Wipe the watch case and strap with a soft, dry cloth regularly to remove dust and dirt.
- For the leather strap, avoid prolonged exposure to water, direct sunlight, and harsh chemicals, as this can cause damage or discoloration.
- Do not use abrasive cleaners or solvents on any part of the watch.

Battery Replacement

When the watch stops or the hands move erratically, it may be time to replace the battery. It is recommended to have the battery replaced by a qualified watch technician to ensure proper sealing and prevent damage to the movement.

Storage

When not in use, store your watch in its original box or a soft pouch to protect it from scratches and dust. Avoid storing it in extreme temperatures or high humidity.
