

Slime 40080

# Slime 40080 Cordless Tire Inflator Instruction Manual

Model: 40080 | Brand: Slime

## 1. INTRODUCTION

The Slime Cordless Tire Inflator is designed for inflating various items, including vehicle tires, bicycle tires, and inflatables. It features a built-in Lithium Ion battery, a digital gauge with automatic shut-off at a preset PSI, bright LED lights for visibility, and a durable, rubberized housing with a stable base for ease of use.

For additional product information, you may visit this [product link](#).

## 2. SAFETY INFORMATION

Please read all safety warnings and instructions carefully before operating this device. For detailed safety information, please refer to the official [Safety Information PDF document](#).

## 3. PACKAGE CONTENTS

Ensure all items are present in the package:

- Slime Cordless Tire Inflator (Model 40080)
- Lithium Ion Battery (integrated)
- Air Adapter Accessories (stored on unit)
- Charging Cable (stored on unit)

## 4. PRODUCT FEATURES

### Overall Design

The inflator features a compact and rugged design with an easy-grab handle and stable base, allowing it to be placed on the ground during use.

## Digital Display and Controls

Equipped with an easy-to-read, backlit digital display (0-99 PSI) and intuitive controls for setting target pressure.

## Integrated Air Hose Management

The air hose is tidily tucked away within the unit for convenient storage and transport.

## Bright LED Work Light

Features a bright LED light for illumination during nighttime use or in low-light conditions.

## Rechargeable Lithium-Ion Battery

The built-in Lithium Ion battery holds a charge for up to four months and includes indicator lights to show remaining battery life.

## Inflate Right Technology

Automatically shuts off when the preset target pressure is reached, preventing over-inflation.

## 5. SETUP

1. **Initial Charge:** Before first use, fully charge the inflator's internal Lithium Ion battery using the provided charging cable. The battery indicator lights will show charging progress.
2. **Accessing the Air Hose:** Unclip the air hose from its storage grooves around the unit.
3. **Selecting Adapters:** If inflating items other than standard Schrader valve tires (e.g., sports balls, inflatables), locate the appropriate adapter stored on the unit and attach it to the air hose nozzle.

## 6. OPERATING INSTRUCTIONS

1. **Power On:** Press the power button (usually marked with a power symbol) to turn on the inflator. The digital display will illuminate.
2. **Set Target Pressure:** Use the '+' and '-' buttons on the digital display to set your desired PSI. Refer to your vehicle's owner's manual or the tire's sidewall for recommended pressure.
3. **Connect to Valve:** Securely attach the air hose nozzle to the tire's valve stem. Ensure a tight seal to prevent air leakage.
4. **Start Inflation:** Press the inflation button (often the same as the power button or a separate start button) to begin inflating. The inflator will automatically shut off once the preset pressure is reached.
5. **Disconnect:** Once inflation is complete and the unit has stopped, quickly disconnect the air hose from the valve stem.
6. **Using the LED Light:** To activate the integrated LED work light, press and hold the power button for a few seconds. Repeat to turn off.

## Operational Overview

Your browser does not support the video tag.

This video provides a general overview of the Slime Cordless Tire Inflator's features and basic operation.

## 7. MAINTENANCE

- **Battery Care:** To maintain battery health, recharge the unit every 3-4 months, even if not in use. Avoid completely draining the battery for extended periods.

- **Cleaning:** Wipe the exterior of the inflator with a damp cloth. Do not submerge the unit in water or use harsh chemicals.
- **Storage:** Store the inflator in a cool, dry place, away from direct sunlight and extreme temperatures. Ensure the air hose and adapters are properly stowed to prevent damage.

## 8. TROUBLESHOOTING

If you encounter issues with your Slime Cordless Tire Inflator, consider the following:

- **Unit Not Turning On:** Ensure the battery is sufficiently charged. Connect the unit to a power source and allow it to charge for a period.
- **Inflator Not Pumping Air:** Check that the air hose is securely connected to both the inflator and the tire valve. Ensure the target PSI is set above the current tire pressure.
- **Air Leaking from Connection:** Verify the air hose nozzle is tightly sealed onto the valve stem. Some leakage is normal during connection/disconnection, but excessive leakage indicates a poor seal.

## 9. SPECIFICATIONS

Attribute	Value
Brand	Slime
Model Name	Cordless Tire Inflator
Item Model Number	40080
Power Source	Battery Powered (Lithium Ion)
Voltage	12 Volts
Item Weight	2.43 Pounds
Product Dimensions	8.5 x 4.56 x 7.13 inches
Material	Plastic
Special Features	Portable, LED Light, Automatic Shut-Off
Recommended Uses	Tire Inflation

## 10. WARRANTY AND SUPPORT

The Slime 40080 Cordless Tire Inflator typically comes with a 1-year manufacturer's warranty. For warranty claims, technical support, or additional assistance, please contact Slime customer service directly or visit the official [Slime Brand Store on Amazon](#).
